II. SUMMARY AND CONCLUSION 15

Michael G. Williams states as follows:

My name is Michael G. Williams. My business address is 250 Bell Plaza, Room 1603-B, Salt Lake City, Utah. I am a Director in Wholesale Markets for Qwest Corporation ("Qwest"). I supervise the monitoring and reporting of Qwest's performance in providing services to competitive local exchange carriers ("CLECs") in accordance with the requirements of Section 271 of the Telecommunications Act of 1996 (the "Act"), 47 U.S.C. § 271, and manage related regulatory undertakings. I base this affidavit on my professional experience, personal knowledge, and information available to me in the normal course of my duties.

My rebuttal testimony focuses on comments filed by AT&T Communications of the Midwest ("AT&T") in response to my initial affidavit. In its comments, AT&T addressed two issues. First, AT&T discussed data reconciliation by The Liberty Consulting Group ("Liberty") and two observations issued by KPMG Consulting, LLC ("KPMG") on data issues in connection with the third-party OSS test. Qwest has asked that Bob Stright of Liberty Consulting file testimony on data reconciliation. As to the issues identified by KPMG in various observations concerning performance, I will be prepared to respond to those issues at the hearing beginning April 22, 2002. Responding at this time is difficult, as Qwest and KPMG have exchanged information, and I should have more conclusive information to report by the hearing. These

---

[1] See AT&T Verified Comments Regarding Performance Data at 1-6 (March 18, 2002) ("AT&T Comments").

Observations and their current status including Qwest's responses thereto are, however, available on the ROC website for the Commission's review. Second, AT&T discussed a few isolated wholesale performance results.[2] I will respond to AT&T's comments on those results here.

I. QWEST'S WHOLESALE PERFORMANCE SATISFIES THE REQUIREMENTS OF SECTION 271.

A. The Commission Should Evaluate Qwest's Performance Under Each Checklist Item in its Entirety, Not on a PID-by-PID Basis.

Qwest's most recent performance report for South Dakota, which covers the period from March 2001 through February 2002, is submitted herewith as Exhibit MGW-PERF -1. That report includes 263 pages of performance results, with more than 800 charts showing results under negotiated performance indicator definitions ("PIDs"). In its comments, AT&T addressed only 11 of those charts. Moreover, AT&T discussed each of those charts in isolation, and utterly failed to consider Qwest's performance as a whole under each checklist item, which is the relevant standard for determining section 271 compliance. AT&T's approach contravenes the FCC's well-established standards for evaluating performance in a section 271 proceeding.

In the *New York 271 Order*, the FCC stated, "[W]e consider the overall picture presented by the record, rather than focusing on any one aspect of performance."[3] The FCC concluded,

---

[2] *Id.* at 6-14.

[3] *Bell Atlantic New York 271 Order* at ¶ 5 (Dec. 22, 1999). *See also id.* at ¶ 45 ("We look at each application on a case-by-case basis and consider the totality of the circumstances. . . .").

> The determination of whether a BOC's performance meets the statutory requirements necessarily is a contextual decision based on the totality of the circumstances and information before us. There may be multiple performance measures associated with a particular checklist item, and an apparent disparity in performance for one measure, by itself, may not provide a basis for finding noncompliance with the checklist. Other measures may tell a different story, and provide us with a more complete picture of the quality of service being provided.[4]

The FCC has followed this approach in all subsequent 271 Orders. For example, in the *Kansas/Oklahoma 271 Order*,[5] the FCC said, "We emphasize, however, that we do not view each particular metric as wholly dispositive of checklist compliance . . . Ultimately, the determination of whether a BOC's performance is consistent with the statutory requirements is a contextual decision based on the totality of the circumstances."[6] Most recently, in the *Rhode Island 271 Order*, the FCC noted, "Where there are multiple performance measurements associated with a particular checklist item, the Commission would consider the performance demonstrated by all the measurements as a whole. Accordingly, a disparity in performance for one

[5] *In the Matter of Joint Application by SBC Communications Inc., Southwestern Bell Telephone Company, and Southwestern Bell Communications Services Inc. d/b/a Southwestern Bell Long Distance for Provision of In-Region, InterLATA Services*, 16 FCC Rcd at 6237, CC Docket No. 00-217, para. 34 (2001).

[6] *SBC Kansas/Oklahoma 271 Order*, at ¶ 34 (Jan. 22, 2001).

measurement, by itself, may not provide a basis for finding noncompliance with the checklist."[7]

AT&T's comments, which focus on performance under a few PIDs in isolation, are inappropriate and do not warrant a finding of noncompliance with any checklist items. The specific issues raised by AT&T must be analyzed in the context of Qwest's overall performance under each checklist item.

B. Qwest's Performance Under Each Checklist Item is Satisfactory

Viewed under the proper legal standard, Qwest's audited performance results demonstrate that it is providing service to competing carriers in substantially the same time and manner as Qwest provides to itself, and in a manner that affords an efficient CLEC a meaningful opportunity to compete, as required by Section 271. I will address the specific issues about South Dakota performance results raised by AT&T in the order in which they raised them.

1. PO-7 Billing Completion Notices

PO-7A measures the timeliness with which electronic billing notifications are made available to CLECs via the IMA-GUI interface. AT&T argues that Qwest's wholesale performance under this metric has fallen short of parity with retail.[8] In each

---

[7] *Verizon Rhode Island 271 Order*, In the Matter of Application by Verizon New England Inc., Bell Atlantic Communications, Inc. (d/b/a Verizon Long Distance), NYNEX Long Distance Company (d/b/a Verizon Enterprise Solutions), Verizon Global Networks Inc., and Verizon Select Services Inc. for Authorization To Provide In-Region, InterLATA Services in Rhode Island, FCC Rcd , CC Docket No. 01-324, FCC 02-63, App. D, at ¶ 9 (Feb. 22, 2002).

[8] AT&T Comments at 6.

of the last two months, however, Qwest's wholesale performance was actually better than retail, and in February 98.45% of notifications to CLECs were timely, the best performance ever.[9] Although Qwest failed to achieve statistical parity in November 2001, more than 96% of notices to CLECs were timely, and the 1.4% disparity between retail and wholesale performance is not competitively significant.[10] Thus, in three of the last four months, Qwest either achieved, or came very close to, parity.

AT&T also argues that Qwest's performance under PO-7B, which measures timeliness of billing completeness notifications submitted via the EDI interface, was discriminatory. This argument is competitively irrelevant because there are no CLECs that subscribe to receive this billing completion notification via EDI.[11] In any event, if

---

[9] Ex. MGW-PERF-1 at 56, PO-7A.

[10] *Id.*

[11] Qwest's performance in December 2001 was subpar but atypical. The miss in December was caused by a CRM (Customer Record Manager) system release on September 29, 2001. An error in the code affected LSRs with multiple service orders. In these cases, only the first service order to complete would receive a billing completion notice. This coding did not impact the provisioning, completion, or posting to billing of the service orders. It also did not impact the presence of the service orders on the Loss and Completion Reports. The problem was identified in late November, the code was corrected in early December, and the clean-up to send all appropriate billing completion notifications was completed during the last half of December. As a result, Qwest failed to achieve parity in December, and barely missed parity in November. Now that the code has been fixed, this problem will not recur.

[12] AT&T Comments at 6-7.

[13] Prior to Jan 02 PO-7B was reported based on the time the notice was "made available" per the PID. In Jan 02 Qwest developed the capability to report based on transmission time and since no CLECs are receiving this notification via EDI there are no longer any results to report.

any CLECs were receiving this notification the results show that in two of the last three months with reported results Qwest achieved parity.[14]

Moreover, billing completion notifications are just one small part of the pre-ordering, ordering, and billing aspects of OSS covered by checklist item 2. AT&T completely ignored Qwest's exemplary performance with respect to gateway availability, pre-order response times, LSR rejections, firm order confirmations, and the like. As I demonstrated in detail in my originally-filed testimony, when it comes to providing access to network elements, including OSS and UNE Combinations, Qwest's performance has met checklist requirements. Qwest is providing every element of the checklist at an acceptable level of quality. Performance results from March 2001 through February 2002 for South Dakota are attached as Exhibit MGW-PERF-1. For gateway availability Qwest exceeded the 99.25% standard in every month, with very few exceptions.[15] Pre-order response times were shorter than established benchmarks for every transaction, in every one of the last 11 months.[16] Likewise, for every category of electronically received LSR, rejections were timely in every month since May 2001[17] and firm order confirmations were provided within agreed upon standards in every

---

[14] Ex. MGW-PERF-1 at 56, PO-7B.

[15] *Id.* The exception was again December 2001. The code error described in footnote 10 caused the miss in that month.

[16] Ex. MGW-PERF-1 at 28-19, GA-1, GA-2, GA-3, GA-4 and GA-6

[17] *Id.* at 31 - 43, PO-1.

[18] *Id.* at 48, PO-3.

month since July 2001.[19] In the last twelve months for every one of the OSS related checklist 2 measurements, instances of performance below the established standard were isolated and infrequent. Viewed in context, as part of the overall checklist item 2 performance picture, these data demonstrate that Qwest is providing nondiscriminatory service to CLECs in South Dakota.

2. BI-3A – Billing Accuracy

AT&T is correct that Qwest's performance under BI-3A, which measures billing accuracy for UNEs and resale, was deficient from October through December 2001.[20] Wholesale performance suffered during those months because Qwest was adjusting its billing process to true-up contractual rates with cost docket rulings. When that process was completed, Qwest's wholesale performance returned to normal. In January and February 2002, Qwest's bills to CLECs were 99.35% and 99.44% accurate, respectively. Although the difference between these results and the retail parity standard established by the PIDs was statistically significant, the difference between wholesale and retail performance was 1% or less, and was not competitively significant.

3. BI-4A – Billing Completeness

AT&T also questioned Qwest's performance under BI-4A, but in each of the last three months Qwest's bills to CLECs have been more than 98% complete. Those results were at parity with retail in December and February and very close to parity in

---

[19] *Id.* at 51 - 54, PO-5.

[20] AT&T Comments at 7.

[21] Ex. MGW-PERF-1 at 68, BI-3A.

January. Retail performance was only 0.39% better than wholesale in January.[26] This tiny difference is an example of where statistical significance does not equate to competitive significance.

Moreover, Qwest's performance under BI-3A and BI-4A must be assessed in the context of Qwest's overall OSS performance under checklist item 2. As a whole, Qwest's performance clearly satisfies the requirements of checklist item 2.

4. OP-4 Installation Interval – UNE-P POTS, No Dispatches

AT&T asserts that, for this competitively significant service, Qwest has provided discriminatory service to CLECs in the last four months. In reality, though the performance differences yield statistical scores that would imply disparity in service, the magnitude of the differences are so small as to not be significant to competition (i.e. differences of only .03 to .27 days). In the latest performance report for Qwest there was no statistically significant difference in performance for two of the last four months. In the two months where there was statistical difference, the practical difference is negligible at only .1 to .27 days. From another perspective, looking at the four-month average results for November 2001 – February 2002, the average installation interval was less the .04 days greater for CLECs than for retail which equates to one in 25 orders with an interval 1 day longer than retail. Additionally, during that same period Qwest met it's installation commitments 100% of the time in three of the four months and better than 98% of the time in the fourth month.[27] Clearly, looking at the entire

---

[26] *Id.* at 69, BI-4A.

[27] *Id.* at 72, OP-3C and OP-4C.

performance picture for UNE-P POTS installation, the pattern is one of outstanding, non-discriminatory service.

5. MR-8 Trouble Rate – UNE-P Centrex

AT&T's arguments concerning this metric are nitpicks. From November through February, the wholesale trouble rate for UNE-P Centrex was never higher than 0.67%. The difference between retail and wholesale performance was never greater than 0.51%. Although the wholesale results were not in parity with retail, statistically-significant disparities have no practical significance when more than 99.4% of all CLEC UNE-P Centrex facilities are trouble free every month. In addition, the trouble rate is just one small part of Qwest's overall UNE-P performance. During the last four months, Qwest consistently achieved parity under every other UNE-P repair metric.

6. OP-17 – Timeliness of LNP Disconnects

Since it began measuring its performance under OP-17 in October 2001, Qwest has completed 100% of LNP disconnects in a timely manner.[24] Nonetheless, AT&T argues that because it proposed an amendment to OP-17 that *might* alter the performance results, "it is premature to reach any conclusion regarding Qwest's performance on LNP."[25] This argument is absurd. OP-17 was negotiated by the parties and adopted by the ROC TAG. Qwest is accurately reporting its performance under the PID as accepted by the parties. AT&T does not dispute this fact. Qwest's performance

---

[24] *Id.* at 90, MR-8.

[25] *Id.* at 164, OP-17.

[26] AT&T Comments at 9.

to date has been perfect. Unless and until the PID is amended, the fact that AT&T has requested an amendment is irrelevant.

The Arizona Corporation Commission recently rejected the same argument by AT&T, and for good reason.[7] Qwest sets the 10-digit trigger for numbers to be ported by 11:59 p.m. on the business day preceding the scheduled port date. Under OP-17, if a problem occurs on the CLEC side, they must notify Qwest by 8:00 p.m. Mountain Time on the scheduled port date. When that occurs, Qwest has ensured that there was no untimely disruption of end user service in South Dakota 100% of the time. To accommodate CLECs, Qwest agreed that if the CLEC notifies Qwest of a problem by 12:00 p.m. on the day after the scheduled port date, Qwest will use it's best efforts to ensure that the end user's service is not disconnected prior to 11:59 p.m. on that day (or, in the case of a cancellation, that no disconnection occurs). AT&T is now arguing that, for purposes of OP-17, CLEC notification should be considered timely as long as it is submitted by 12:00 p.m. on the day after the scheduled port date. AT&T's approach would unfairly shift the burden of a CLEC problem onto Qwest, and require Qwest to try to undo a scheduled port on very short notice. For those reasons, Qwest believes that ultimately the TAG will reject AT&T's proposed amendment.

In any event, the proposed AT&T amendment is just that – a proposal. Qwest's performance under OP-17, as written, has been perfect.

---

[7] *See* Decision No. 64629, Arizona Corp. Comm'n Docket No. T-00000A-97-0238, Order at 4-9 (March 15, 2002).

7. OP-3C – Installation Commitments Met, Residence Resale

This is another example of AT&T nitpicking excellent performance. From November through February, Qwest met at least 98% of its installation commitments to CLECs for residence resale, no dispatch. In January and February, Qwest's wholesale performance was better than retail, with a 99.61% success rate in February.[19] It defies common sense to suggest that the slight difference between retail and wholesale performance in November and December had any detrimental effect on competition. Moreover looking beyond this single measurement we find that Qwest's average interval for CLECs in this same period shows parity in every month.

8. MR-7C – Repair Repeat Reports, Residence Resale

Wholesale and retail service were at parity under this metric in January and February. AT&T correctly notes that Qwest failed to achieve parity in November and December, but the shortfall in performance on the wholesale side was slight and the results in those months were atypical. November and December were the only months in the last 12 in which wholesale performance was not at parity with retail. In the other 10 months, CLECs never submitted more than six repeat trouble reports.[20]

9. MR-8 – Trouble Rate, Residence Resale

Qwest met the parity standard for this PID in two of the last three months. The overall trouble rate for residence resale was at or below 1.23% during those months. In

---

[19] Ex. MGW-PERF-1 at 169, OP-3C.

[20] AT&T Comments at 11.

[21] Ex. MGW-PERF-1 at 175, MR-7C.

January, the only month when Qwest failed to achieve parity, the difference between retail and wholesale performance was a meager 0.33% and was not competitively significant.[31]

10. OP-4C – Installation Interval, Business Resale

It is true that Qwest's reported results show some problems in the time it takes to install business resale services when no dispatch is required. However, when taken in the context of business resale installation results overall, the performance problems with non-dispatched installations can be seen as an anomaly. Specifically, in three of the last four months, Qwest met its installation commitments 100% of the time for non-dispatch business resale.[32] For dispatches within MSA areas, both installation commitments met and installation intervals,[33] Qwest results were in parity in every one of the last four months. Performance results in non-MSA areas were nearly as good, showing parity in every month for installation commitments met and, for installation intervals,[34] in the most recent two months. Additionally, looking at the remaining measurements covering both installation and repair for non-dispatch business, there were no measurements with more than one month of statistically significant disparity.[35]

---

[31] *Id.* at 176, MR-8.

[32] *Id.* at 181, OP-3C.

[33] *Id.* at 179, OP-3A, OP-4A.

[34] *Id.* at 180, OP-3B, OP-4B.

[35] *Id.* at 181-183, OP-6A-3, OP-6B-3, 187-189 , MR-3C, MR-4C, MR-6C, MR-7C, MR-9C.

No pattern of discrimination can be deduced from results showing this kind of performance. Rather, a pattern of non-discrimination is clear.

11. MR-8 – Trouble Rate, Business Resale

AT&T claims Qwest's reported results show that Qwest is doing a worse job of maintaining CLEC business retail lines than it does for similarly situated retail customers. Once again, AT&T puts too much weight on statistical significance, and too little weight on practical significance. It is true that Qwest only achieved parity under this PID in two of the last four months (November and January). However, over the entire four months, the trouble rate was never higher than 0.73%, and the difference between retail and wholesale troubles was never more than 0.25% (in December). Differences that small in an isolated month have no measurable effect on competition.

Moreover, it bears repeating that these results must be considered as part of the overall resale performance picture. AT&T's silence with respect to all of the other resale measurements confirms that Qwest's overall resale performance has been outstanding.

12. MR-8 – Trouble Rate, DS-1

AT&T questions the reliability and quality of results being reported for DS-1 Trouble Rate, MR-8. Qwest did discover that it's code was picking up non-wholesale inventories for DS-1 in it's repair counts. This problem was corrected in the February 2002 report and corrected historically back to December 2001. Qwest informed AT&T that this would occur in a hearing in Colorado. Updated performance results indicate parity in two of the three corrected months included on the report.

---

* *Id.* at 187, MR-8.

13. E911

Finally, AT&T suggests that there is a communication problem between Qwest and its E911 database administrator, which impairs CLECs' ability to have updated E911 information entered into the database.[12] AT&T mischaracterizes the issue in ascribing the migrate failures to a Qwest performance problem. Qwest's expert witness on E911, Margaret Bumgarner thoroughly describes the industry problem underlying the delay in unlocking records. Her affidavit describes in detail the new process that has been put in place by Intrado, the E911 database administrator and outlines the impact of this new process. AT&T admits, however, that the database administrator "recently changed its process and it appears to have addressed the problem."[13] In fact as cited in Ms. Bumgarner's affidavit, in recent proceedings in Arizona, AT&T has now requested that Intrado provide the same validation and unlock process for AT&T's records, too, and urged the Arizona Commission to require all other service providers to subscribe to the new migrate/unlock process with Intrado. AT&T has not adduced any evidence that this "problem" has any adverse affect on competition. AT&T implies that it would be appropriate to develop a performance measurement to insure that the new process continues to be followed. There are two fundamental reasons this would not be appropriate. First of all, the migrate failures are not a Qwest problem, but an industry problem, as evidenced by the fact that the industry forum NENA has endorsed a solution. (The same solution Qwest has already implemented.) Secondly, the

---

[12] AT&T Comments at 14.

[13] *Id.*

performance to be measured would not be Qwest's but Intrado's; therefore it would not be possible or appropriate to hold Qwest accountable for this issue. Finally in light of Qwest's strong performance demonstrated by measurements accepted by the ROC parties, the Commission should find that Qwest has satisfied the requirements of checklist item 7.

II. SUMMARY AND CONCLUSION

Qwest's overall performance satisfies the requirements of each measured checklist item. Qwest's processes, procedures, capabilities, and performance ensure that efficient competitors have a meaningful opportunity to compete in South Dakota. Based on this evidence, the South Dakota Commission should find that Qwest satisfies checklist items 1, 2, 4, 5, 7-11, 13, and 14 in Section 271.

Delayed Days for Non-Facility Reasons (Average Days) (OP-6A-5)-- Interval Zone Two 23
New Service Installation Quality (Percent) (OP-5)-- Interval Zone One and Two 24
New Service Installation Quality (Percent) (OP-5)-- Interval Zone One and Two* 25

Checklist #1 - Local Interconnection - LIS Repair 26

All Troubles Cleared within 4 hours (Percent) (MR-5B)-- Interval Zone Two 26
Mean Time to Restore (Hours:Minutes) (MR-6E)-- Interval Zone Two 27
Repair Repeat Report Rate (Percent) (MR-7E)-- Interval Zone Two 28
Repair Repeat Report Rate (Percent) (MR-7E)-- Interval Zone Two* 29
Trouble Rate (Percent) (MR-8)-- Interval Zone One and Two 30
Trouble Rate (Percent) (MR-8)-- Interval Zone One and Two* 31
Customer and Non-Qwest Related Trouble Reports (Percent) (MR-12)-- Interval Zone One and Two 32

Checklist #1 - Collocation 33

Scheduled Interval 121 to 150 Calendar Days (Average Days) (CP-1C) 34
Collocations with Intervals Longer than 120 Days (Percent) (CP-2C) 35
Collocation Feasibility Study Interval (Average Days) (CP-3) 36
Collocation Feasibility Study Commitments Met (Percent) (CP-4) 37

Checklist #1 - Trunk Blocking 38

Trunk Blockage to Qwest Tandem Offices (Percent) (NI-1A) 38
Trunk Blockage to Qwest End Offices (Percent) (NI-1B) 39
Trunk Blockage to Qwest Tandem Offices (Percent) (NI-1C) 40
Trunk Blockage to Qwest End Offices (Percent) (NI-1D) 41

Checklist #2 - Gateway Availability 42

Gateway Availability - IMA-GUI (Percent) All (GA-1A) 42
Gateway Availability - IMA-GUI (Percent) Fetch-n-Stuff (GA-1B) 43
Gateway Availability - IMA-GUI (Percent) Data Arbiter (GA-1C) 44
Gateway Availability - IMA-EDI (Percent) Default (GA-2) 45
Gateway Availability - EB-TA (Percent) Default (GA-3) 46
System Availability - EXACT (Percent) Default (GA-4) 47
Gateway Availability - GUI - Repair (Percent) Default (GA-6) 48
Timely Outage Resolution following Software Releases (Percent) Default (GA-7) 49

Checklist #2 - Preorder Response Times - IMA 50

Pre-Order Response Times (Appt. Scheduler) (Avg Sec) IMA Request (PO-1A-1(a)) 51
Pre-Order Response Times (Appt. Scheduler) (Avg Sec) IMA Response (PO-1A-1(b)) 52
Pre-Order Response Times (Appt. Scheduler) (Avg Sec) IMA Accept (PO-1A-1(c)) 53
Pre-Order Response Times (Appt. Scheduler) (Avg Sec) IMA Response/Accept (PO-1A-1(b,c)) 54
Pre-Order Response Times (Appt. Scheduler) (Avg Sec) IMA Aggregate (PO-1A-1 Total) 55
Pre-Order Response Times (Service Availability) (Avg Sec) IMA Request (PO-1A-2(a)) 56
Pre-Order Response Times (Service Availability) (Avg Sec) IMA Response (PO-1A-2(b)) 57
Pre-Order Response Times (Service Availability) (Avg Sec) IMA Aggregate (PO-1A-2 Total) 58
Pre-Order Response Times (Facility Check) (Avg Sec) IMA Request (PO-1A-3(a)) 59
Pre-Order Response Times (Facility Check) (Avg Sec) IMA Response (PO-1A-3(b)) 60
Pre-Order Response Times (Facility Check) (Avg Sec) IMA Aggregate (PO-1A-3 Total) 61
Pre-Order Response Times (Address Validation) (Avg Sec) IMA Request (PO-1A-4(a)) 62

Electronic Flow-through for All Eligible LSRs Received via EDI (Percent) (PO-2B-2)

Checklist #2 - Electronic Flow-through - LNP

Electronic Flow-through for LSRs Received via IMA LNP (Percent) (PO-2A-1)
Electronic Flow-through for LSRs Received via EDI LNP (Percent) (PO-2A-2)
Electronic Flow-through for All Eligible LSRs Received via IMA LNP (Percent) (PO-2B-1)

Checklist #2 - Electronic Flow-through - UNE-P-POTS

Electronic Flow-through for LSRs Received via IMA (Percent) (PO-2A-1)
Electronic Flow-through for All Eligible LSRs Received via IMA (Percent) (PO-2B-1)

Checklist #2 - LSR Rejections

LSR Rejection Notice Interval for IMA - Rejected Manually (Hours:Minutes) (PO-3A-1)
LSR Rejection Notice Interval for IMA - Auto-Rejected (Minutes:Seconds) (PO-3A-2)
LSR Rejection Notice Interval for EDI - Rejected Manually (Hours:Minutes) (PO-3B-1)
LSR Rejection Notice Interval for EDI - Auto-Rejected (Minutes:Seconds) (PO-3B-2)
LSR Rejection Notice Interval for Manual and IIS (Hours:Minutes) (PO-3C)
LSRs Rejected for IMA - Rejected Manually (Percent) (PO-4A-1)
LSRs Rejected for IMA - Auto-Rejected (Percent) (PO-4A-2)
LSRs Rejected for EDI - Rejected Manually (Percent) (PO-4B-1)
LSRs Rejected for EDI - Auto-Rejected (Percent) (PO-4B-2)
LSRs Received via Facsimile (Percent) (PO-4C)

Checklist #2 - Firm Order Confirmations - Resale

FOCs On Time for Fully Electronic LSRs Received Via IMA (Percent) (PO-5A-1(a))
FOCs On Time For Electronic/Manual LSRs Received Via IMA (Percent) (PO-5B-1(a))
FOCs On Time For Electronic/Manual LSRs Received Via EDI (Percent) (PO-5B-2(a))
FOCs on Time for Manual (Percent) (PO-5C-(a))

Checklist #2 - Firm Order Confirmations - Unbundled Loops

FOCs On Time for Fully Electronic LSRs Received Via IMA (Percent) (PO-5A-1(b))
FOCs On Time for Fully Electronic LSRs Received Via EDI (Percent) (PO-5A-2(b))
FOCs On Time For Electronic/Manual LSRs Received Via IMA (Percent) (PO-5B-1(b))
FOCs On Time For Electronic/Manual LSRs Received Via EDI (Percent) (PO-5B-2(b))
FOCs on Time for Manual (Percent) (PO-5C-(b))

Checklist #2 - Firm Order Confirmations - LNP

FOCs On Time for Fully Electronic LSRs Received Via IMA (Percent) (PO-5A-1(c))
FOCs On Time For Electronic/Manual LSRs Received Via IMA (Percent) (PO-5B-1(c))
FOCs On Time For Electronic/Manual LSRs Received Via EDI (Percent) (PO-5B-2(c))
FOCs on Time for Manual (Percent) (PO-5C-(c))

Checklist #2 - Firm Order Confirmations - LIS

Firm Order Confirmations (FOCs) On Time (Percent) (PO-5D)

Checklist #2 - Completion Notifications

Work Completion Notification Timeliness (Hours:Minutes) (PO-6A)
Work Completion Notification Timeliness (Hours:Minutes) (PO-6B)
Billing Completion Notification Timeliness (Percent) (PO-7A,C)
Billing Completion Notification Timeliness (Percent) (PO-7B,C)

JUN 2 0 2006
SOUTH DAKOTA PU
UTILITIES COMMISS

BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA

IN THE MATTER OF THE CONSIDERATION) DOCKET NO. EL06-018
OF THE NEW PURPA STANDARDS)

Comments of the South Dakota
Electric Utility Companies

The South Dakota Electric Utility Companies, whose members are NorthWestern Energy ("NorthWestern"), Montana-Dakota Utilities ("Montana-Dakota"), Xcel Energy ("Xcel"), Otter Tail Power ("Otter Tail"), Black Hills Power ("Black Hills"), and MidAmerican Energy ("MidAmerican"), offer the following comments in response to the South Dakota Public Utilities Commission ("Commission") order dated June 5, 2006. In opening EL06-018, the Commission requests comment on how it should proceed with its consideration of five new federal standards established in the Public Utility Regulatory Policies Act ("PURPA") of 1978 through passage of the Energy Policy Act of 2005 ("EPAct 2005").

The Commission poses six questions in EL06-018, seeking comment from interested persons or entities on how it should proceed in considering the new PURPA standards. The collective response from the SDEUC on behalf of its members is as follows:

Question 1: Which electric utilities operating in South Dakota are affected by the standards and are subject to the Commission's jurisdiction?

> It is our contention that any operating electric utility in South Dakota would be affected by these standards, whether it is an investor-owned, rural cooperative, or municipal electric provider. However, those utilities that come under the Commission's jurisdiction are defined in SDCL § 49-34A-1(12). It is appropriate for the Commission to determine how the PURPA standards in question from passage of EPAct 2005 would apply to the respective business practices of those utilities in South Dakota.

Question 2: Should the Commission open a docket for each utility or open a generic docket encompassing all of the affected utilities?

It is our recommendation to the Commission that the public interest would be better served if it were to open one generic docket encompassing all affected utilities rather than opening individual dockets for each affected utility. This approach would be the most expedient and provide the most suitable format for consideration of the new PURPA standards.

This is not to imply, however, that it would be appropriate to adopt only generic standards that would be applicable to all utilities in that docket. In some cases generic standards may be appropriate. In other cases it may be necessary to recognize that there are differences between the utilities that may make generic standards unworkable.

Question 3: Should the Commission combine all of the standards, some of the standards, or have separate dockets on each standard?

We would be supportive of combining all the standards into one docket for Commission consideration. Again, this approach would be the most expedient and provide a suitable format for public input.

Question 4: Should the Commission hold evidentiary hearings with direct testimony and cross-examination?

We suggest that the Commission consider utilizing a "paper hearing" format. It is anticipated that the general issues can be addressed through the submission of written comments and that a formal evidentiary hearing would not be needed until, and unless, the Commission were to determine it wants to enact one or more of the new PURPA standards it is being asked to consider. Utilizing a "paper hearing" approach should allow sufficient interplay between the Commission, affected utilities, and other public interests. If the Commission should decide, based upon issues raised

by parties in the "paper hearing" that evidentiary hearings are necessary, it could still decide to hold evidentiary hearings related to those issues. Use of the "paper hearing", if workable, would provide the most expedient approach to considering the new PURPA standards.

Question 5: If the Commission decides to implement any of the standards, should it do so through rulemaking?

Yes, we support the use of the rulemaking process to implement any of the standards if the Commission decides to do so. The rulemaking process allows substantial public input that will be important to developing the Commission's approach in implementing any standards it desires to enact.

Question 6: With respect to the net metering standard, should the Commission find it is not required to consider this standard given that the Legislature has already considered net metering in a past legislative session?

Our collective opinion is that the net metering standard does not require additional Commission consideration due to action taken by the South Dakota Legislature. Language related to consideration of net metering was specifically removed from proposed legislation by the Legislature this past session.

Respectfully submitted this 20th day of June, 2006.

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF SOUTH DAKOTA

IN THE MATTER OF THE ANALYSIS OF QWEST CORPORATION'S COMPLIANCE WITH SECTION 271(c) OF THE TELECOMMUNICATIONS ACT OF 1996	ORDER GRANTING MOTIONS; ORDER AMENDING PROCEDURAL SCHEDULE AND EXTENDING HEARING DATES TC01-165

On October 25, 2001, Qwest Corporation (Qwest) filed with the Commission a Petition for Commission Recommendation that the Federal Communications Commission Grant Qwest Corporation Entry into the In-Region InterLATA Market Under Section 271 of the Telecommunications Act Of 1996. Specifically, Qwest requests that this Commission find, based upon the record presented, that Qwest has met the competitive checklist and other requirements of 47 U.S.C. section 271, which prescribe the mechanism by which Qwest may be found eligible to provide in-region interLATA services and rely upon that finding to provide a favorable recommendation to the Federal Communications Commission (FCC). In support of its petition, Qwest submitted 25 affidavits, a revised Statement of Generally Available Terms, and seven Reports submitted in the Seven-State Process.

On November 1, 2001, the Commission electronically transmitted notice of the filing and the intervention deadline of November 16, 2001, to interested individuals and entities. A Petition for Leave to Intervene was received from Black Hills FiberCom, L.L.C. (Black Hills FiberCom) on November 7, 2001, a Petition to Intervene was received from Midcontinent Communications (Midcontinent) on November 9, 2001, and a Petition for Leave to Intervene was received from AT&T Communications of the Midwest, Inc. (AT&T) on November 15, 2001. At its November 27, 2001, meeting, the Commission granted the interventions. The Commission also requested that the parties submit proposed procedural schedules by December 7, 2001. The Commission received proposed procedural schedules from all of the parties.

At its December 12, 2001, meeting, the Commission set the following procedural schedule:

January 18, 2002 - Intervenors and Staff identify disputed issues (except for issues relating to the final OSS report which has not been issued yet);

February 7, 2002 - A prehearing conference will be held beginning at 2:30 p.m., in Room 468, State Capitol Building, Pierre, South Dakota;

March 18, 2002 - Staff and Intervenors' testimony is due;

April 2, 2002 - Qwest may file rebuttal testimony; and

April 22-26, 2002 - A hearing will be held beginning at 9:00 a.m. on April 22, 2002 and continuing through April 26, 2002, in Room 412, State Capitol Building, Pierre, South Dakota.

On March 5, 2002, Black Hills FiberCom filed a Motion for Order Denying Petition. On March 6, 2002, Qwest filed a Motion to Remove Document from Commission Record. On March 7, 2002,

Midcontinent filed a Motion for Definition of Track A Analysis. On March 11, 2002, Midcontinent submitted a Motion to Suspend Procedural Schedule or Supplement Prefiled Testimony. On March 13, 2002, AT&T filed a Joinder on Midcontinent Communications' Motion to Suspend Procedural Schedule and Request for Expedited Decision.

At its March 14, 2002, meeting, the Commission considered Midcontinent's Motion to Suspend Procedural Schedule or Supplement Prefiled Testimony and AT&T's Joinder on Midcontinent Communications' Motion to Suspend Procedural Schedule and Request for Expedited Decision. After listening to the arguments of the parties, the Commission voted to grant Midcontinent's Motion to Supplement Prefiled Testimony. Thus, if the Commission's decisions on Black Hills FiberCom's motion or Midcontinent's motion concerning Track A impact the prefiled testimony of any of the parties, the parties will have the opportunity to supplement their prefiled testimony prior to the hearing. The Commission also voted to deny AT&T's Motion to Suspend Procedural Schedule.

At its March 28, 2002, meeting, the Commission considered Qwest's Motion to Remove Document from Commission Record, Black Hills FiberCom's Motion for Order Denying Petition, and Midcontinent's Motion for Definition of Track A Analysis. The Commission also considered scheduling additional time for the hearing and how to schedule witnesses and/or issues for the hearing.

At the meeting, no one objected to Qwest's Motion to Remove Document from Commission Record. The Commission voted to grant the motion. The Commission then listened to arguments concerning Black Hills FiberCom's Motion for Order Denying Petition and Midcontinent's Motion for Definition of Track A Analysis. After considering the arguments of the parties, the Commission voted to grant Midcontinent's Motion. The Commission found that Qwest may not rely solely on its SGAT to prove compliance with the 14 point checklist but should also use interconnection agreements and any other evidence to demonstrate to the Commission that it is in compliance with the checklist items. In addition, based on its March 20, 2002, order, the Commission will allow supplemental testimony to be filed. Staff and Intervenors may file supplemental testimony on or before April 10, 2002, and Qwest may file supplemental testimony on or before April 16, 2002.

The Commission also considered scheduling additional time for the hearing. The Commission finds that it will extend the time for the hearing through the morning of May 9, 2002. Thus, the hearing will be held beginning at 9:00 a.m. on April 22, 2002 and continuing through the morning of May 9, 2002, in Room 412, State Capitol Building, Pierre, South Dakota. The Commission has also reserved Room 413 for additional space, given the large volume of documents in this case.

It is therefore

ORDERED, that Qwest's Motion to Remove Document from Commission Record is granted; and it is

FURTHER ORDERED, that Midcontinent's Motion for Definition of Track A Analysis is granted as described above; and it is

FURTHER ORDERED, that the Commission will allow supplemental testimony to be filed as described above; and it is

FURTHER ORDERED, that the hearing will be held beginning at 9:00 a.m. on April 22, 2002 and continuing through the morning of May 9, 2002, in Room 412, State Capitol Building, Pierre, South Dakota.

Dated at Pierre, South Dakota, this 4th day of April, 2002.

CERTIFICATE OF SERVICE

The undersigned hereby certifies that this document has been served today upon all parties of record in this docket, as listed on the docket service list, by telefax or by first class mail, in properly addressed envelopes, with charges prepaid thereon.

Kristen Kelly

(OFFICIAL SEAL)

BY ORDER OF THE COMMISSION:

JAMES A. BURG, Chairman

PAM NELSON, Commissioner

ROBERT K. SAHR, Commissioner

West, Rolayne

TC01-165

From: Cremer, Karen
Sent: Thursday, April 04, 2002 8:30 AM
To: West, Rolayne
Cc: 'Dave Gerdes of May, Adam, Gerdes & Thompson'; 'gjbernard@mtnlaw.com'; 'Hobson, Mary'; 'wegler@qa.att.com'
Subject: Witness order for 271

Staff would propose that the evidence be presented in blocks of information with direct, cross, rebuttal, and redirect of all witnesses testifying as to a particular matter being completed before moving with the next subject matter. This can be accomplished by either following the checklist or the Liberty Reports. Subject matters such as Public Interest, Track A, OSS CMP/SATE, PIDS, General Terms, Section 272 and QPAP are stand-alone subjects and can be heard separately from the checklist or the reports.

Staff has 2 witnesses, Dr. Griffin and Mr. Stacy. Dr. Griffin will testify as to all the checklist items and Mr. Stacy will testify as to QPAP and Public Interest. Staff would request that these matters be heard in such a manner that only 1 of our witnesses need to be here at any one time. The checklist items can be heard as chronologically or in a mix of topics. Staff would prefer that the Liberty Reports be heard chronologically.

Should you have any questions, please do not hesitate to contact me.

Karen S. Cremer
Staff Attorney

oc

Rolayne, you have by now heard that the parties could not agree on a plan for the presentation of evidence to the Commission. Because of the disparate interests of the parties, that which would work best would be to present the evidence in the "traditional" manner, i.e., Qwest with the burden of proof going first with its entire case, followed by intervenors and staff, followed by rebuttal by Qwest. We understand the Commission would rather group issues and go through all levels of evidence in each grouping.

A major problem for Midcontinent ("Midco") involves the proposition that it has one witness with 20 issues who, because he also must manage the company, cannot possibly sit at a hearing for 2 1/2 weeks. (I hasten to add that testimony at the hearing may pique an interest in other issues, and we are not self-restricting our testimony by this discussion.) To varying degrees, I believe this represents the problem for the remainder of the intervenors.

I have attached Mary Hobson's proposed order of witnesses which was discussed yesterday by counsel when we attempted to come up with a plan acceptable with all. Using it as a guide, if the two public interest witnesses were grouped together in position 16, 15 of Midco's issues could be handled following witnesses 12-16. Midco could testify after witnesses 4-6, and after 7-8, to pick up the remainder of its issues. Similar accommodations could be worked out. As I have anticipated it, Midco has issues within the purview of the testimony of these witnesses (witness number followed by number of issues): 4-2, 6-1, 7-1, 8-1, 12-3, 13-2, 16 (and 1)-10.

Thank you for considering this. I regret the parties could not come up with a solution by themselves.

Subject: Witness order for 271

Staff would propose that the evidence be presented in blocks of information
with direct, cross, rebuttal, and redirect of all witnesses testifying as to
a particular matter being completed before starting with the next subject
matter. This can be accomplished by either following the checklist or the
Liberty Reports. Subject matters such as Public Interest, Track A, OSS
CMP/SATE, PIDS, General Terms, Section 272 and QPAP are stand-alone

and can be heard separately from the checklist or the reports

Staff has 2 witnesses, Dr. Griffin and Mr. Stacy. Dr. Griffin will testify
as to all the checklist items and Mr. Stacy will testify as to QPAP and Public Interest. Staff would request that these matters be heard in such a
manner that only 1 of our witnesses need to be here at any one time. The
checklist items can be heard in chronologically or in a mix of topics. Staff would prefer that the Liberty Reports be heard chronologically.

Should you have any questions, please do not hesitate to contact me.

Karen E. Cremer
Staff Attorney
Public Utilities Commission

PROPOSED ORDER OF WITNESSES

WITNESS	TOPIC
** Connotes appearance order of witness "flexible"	
1. Teitzel**	Public Interest/Track A
preferred first because of "overview" aspect	
2. Scariani	OSS
required in first day or 2 of hearing	
3. Schultz	CMP/SATE
OSS and CMP/SATE go together	
4. Bumgarner	CI#1Collocation
	CI#9 Numbering Admin (Not Challenged)
	CI#10 Signaling/ Databases
	CI#11 Number Portability
	CI# 12 Local Dialing Parity(Not Challenged)
5. Peeler	CI#1 Interconnection
	CI#13 Reciprocal Compensation
	CI#3 Poles, Ducts, ROW
6. Liston	CI#4 Unbundled Local Loops
7. Simpson	
	CI#6 Unbundled Local Switching
	CI#7 911, DA, Operator Svcs
	CI#8 White Pages Listings
	CI#14 Resale
	CI#2 UNE-P
8. Stewart	CI#2 Access to UNEs
	CI#2 Emerging Services/EELS
	CI#5 Unbundled Local Transport

Ms. Rolayne Ailts-Wiest, General Counsel
Public Utilities Commission
State Capitol Building
Pierre, South Dakota 57501

Dear Rolayne:

Following the discussion of the parties yesterday, all parties were told to advise the Commission as to how they propose to proceed with the order of witnesses in the above-referenced case. This is a critical issue for Qwest because of the need for planning of schedules to assure that witnesses are available when they are needed and to avoid the expense and inconvenience of having people waiting for lengthy periods before they can take the stand.

While Ms. Cremer may have left the impression that no progress has been made in coming to consensus about how the case should proceed before the Commission. Qwest does not share that perspective. First, Qwest has acceded to the request of Staff (and perhaps the Commission) that we proceed by having all witnesses testify on a topic before Qwest moves to the next topic. Under the proposal provided below, Qwest agrees that, for example, all witnesses that have testimony on "Interconnection" will take the stand and withstand cross examination before Qwest moves to the second of Mr., Freeberg's topics, "Reciprocal Compensation". This, we understand from Staff, will provide the most coherent transcript record on each topic. Consequently, although we list Mr. Freeberg as the fourth witness, we expect that he will take the stand three times to testify separately on each of his three checklist item topics and that his testimony will be interspersed with that of Staff and Intervenors.

In addition, Qwest has made a number of alterations to the proposed witness list to attempt to accommodate suggestions made by Ms. Cremer. At her request, we have put Mr. Teitzel at the end of the case and have moved Checklist Items 2 and 5 together, because of the overlap between some of the subtopics under these Checklist Items.

Finally, Qwest and counsel for Midcontinent, David Gerdes, have come to an agreement about when Mr. Simmons should be permitted to testify. That agreement is reflected in the proposed schedule provided below.

Thus, the proposal provided here is a far cry from a unilateral, uncompromised stance. Qwest has attempted in every way possible to accede to the reasonable requests of the other parties to create a workable schedule. However, Qwest was not able to reach an agreement with AT&T whose demands appear inconsistent with the desire of the Commission to have a unified discussion of each issue in turn and with the practice and procedure of the South Dakota Commission.

Staff has stated that it would prefer a schedule that follows the chronological order of the Multistate Facilitator's Reports. The Qwest proposal follows that recommendation to a large extent. Mr. Antonuk did not issue a report on OSS, Change Management or SATE. He first took up the checklist. Only after all checklist items were completed did he address, Track A, Section 272, General Terms and Conditions, and QPAP. Qwest's proposal follows this rough outline. One discrepancy is that Qwest does not propose addressing the checklist items in the same order the Mr. Antonuk did. The reason for this is that to do so would require several checklist item witnesses to make more than one trip to Pierre or to experience days of "downtime." (e.g., Tom Freeberg testifies about Checklist Item 1 and 13) The Antonuk groupings made sense in the Multistate Workshops but provide no benefit here. Staff and AT&T have the same witness on each checklist item, hence they are not inconvenienced by reordering Mr. Antonuk's checklist item chronology. The checklist topics each stand alone and there is no logical benefit in grouping them in any particular way (other than, possibly grouping Checklist Item 2 and 5 as Staff requested and Qwest agreed).

Qwest respectfully requests, therefore, that the Commission adopt the schedule set out below. Thank you for your consideration of this issue.

PROPOSED ORDER OF WITNESSES

OVERVIEW

1. Toll — Public Interest/Overview

note: Qwest will not object if all parties would to hold testimony on Public Interest to following witness 16—Dave Teitzel

OSS TESTING AND CHANGE MANAGEMENT

2. Notariani — OSS

note: this witness. required in first or second of hearing

3. Schultz CMP/SATE

note: OSS and CMP/SATE logically go together

THE CHECKLIST

4. Freeberg
- CI#1 Interconnection
- CI#13 Reciprocal Compensation
- CI#3 Poles, Ducts, ROW

5. Bumgarner
- CI#1Collocation
- CI#7 911
- #9 Numbering Admin (Not Challenged)
- CI#10 Signaling/ Databases
- CI#11 Number Portability
- CI# 12 Local Dialing Parity(Not Challenged)

6. Liston CI#4 Unbundled Local Loops

*** Tom Simmons—testifying on the preceding checklist items

7. Simpson
- CI#6 Unbundled Local Switching
- CI#7 911, DA, Operator Svcs
- CI#8 White Pages Listings
- CI#14 Resale
- CI#2 UNE-P

8. Stewart
- CI#2 Access to UNEs
- CI#2 Emerging Services/EELS
- CI#5 Unbundled Local Transport

9. LaFave CI#5 Unbundled Local Transport

*** Tom Simmons—testifying on the preceding checklist item issues

END OF CHECKLIST

PERFORMANCE

10. Williams PIDs/Data Actuals

11. Speight Data Reconciliation

note: PIDs/Data Actuals and Data Reconciliation logically go together

PERFORMANCE ASSURANCE

12. Reynolds QPAP

GENERAL TERMS AND CONDITIONS

13. Brotherson General Terms and Conditions

SECTION 272

14. Brunsting Section 272

15. Schwartz Section 272

PUBLIC INTEREST AND TRACK A

16. Teitzel Public Interest/Track A

Tom Simmons—testifying on public interest and/or Track A

Very truly yours,

Mary S. Hobson
