Re: Small Generator Facility Interconnection Report for 2018

Dear Ms. Van Gerpen:

MidAmerican Energy Company ("MidAmerican") submits its Small Generator Facility Interconnections Report for 2018, as required pursuant to ARSD 20:10:36:63.

In the attached report, MidAmerican identifies that no customers have interconnected generation with MidAmerican's distribution system during the 2018 calendar year. MidAmerican notes one customer completed a generator interconnection application in 2018 and signed an interconnection agreement in 2019. MidAmerican is working on upgrades to accommodate the customer's generator system and the customer installation is not yet complete.

Questions about this submission can be directed to me at 515-252-6547 or by email at kmlynch-butcher@midamerican.com.

Sincerely,

/s/ Katelyn M. Lynch-Butcher
