Comments:

I live less than a mile from the proposed route for the Dakota Access Pipeline in Lee County, Iowa, and I object to the construction of the pipeline, as do many others in Iowa. Recent crude-oil pipeline accidents (such as the one in Yellowstone) clearly demonstrate the high environmental risk that such pipelines pose and the severe damage that they often cause. The proposed Dakota Access Pipeline is a serious threat to cropland and drinking water in South Dakota as well as in Iowa. Please do not grant a permit to construct and operate the Dakota Access Pipeline. Thank you.
