Our mailing address is [REDACTED] Brookings SD 57006

Dear SD PUC Commissioners:

I'm writing you today as a resident of Brookings, South Dakota and a supporter of the KXL project. I believe the project continues to be warranted and should receive re-certification for the following reasons:

It provides jobs, tax revenue, safety-foreign and domestic, better our energy reserves come from North America, establishes our global energy policies as sensible and not as radical as they have become!

Thanks!

Robert Colgrove

Thank you for your message regarding the Keystone XL pipeline certification docket. It will be posted in the electronic public record so my fellow commissioners and other parties in this docket can read it. Here is a link to the docket, HP14-001: <http://www.puc.sd.gov/Dockets/HydrocarbonPipeline/2014/hp14-001.aspx>

Here are links to two documents found on the PUC's home page online. The first is titled Pipeline Siting Info Guide and the second is Keystone XL Pipeline Updates. These documents explain the processing of a pipeline siting case according to the South Dakota laws governing this commission. The latter links to some of the most-often-heard questions about the project and process and the answers.
