Auto forwarded by a Rule

No XKL. Water is too precious to waste on antiquated energy concepts. The Aquifer is too important to waste on greed. Go Solar.

Peace,

Margery Coffey, PhD

Subject: HP14-001

Thank you for your message to my fellow commissioners and me regarding the Keystone XL Pipeline. It will be posted in the South Dakota Public Utilities Commission's formal pipeline siting docket, HP14-001, under Comments and Responses. Since this is an open docket before the commission, any correspondence involving a commissioner must be posted in the open, public docket so that other commissioners and all parties to the case have access to it.

Chairman Chris Nelson

South Dakota Public Utilities Commission
