1 COMMISSIONER NELSON: We'll call the Public 2 Utilities Commission meeting to order. This is 3 Commissioner Nelson. I'm going to be chairing today. 4 9 o'clock, September 21 in the State Capitol. We're here with Docket EL18-026, In the Matter 5 6 of the Application by Prevailing Wind Park, LLC for a 7 Permit of a Wind Energy Facility in Bon Homme County, 8 Charles Mix County, and Hutchinson County, South Dakota 9 for the Prevailing Wind Park Project. 10 We have four specific motions that we're going 11 to deal with today. The first is shall the Commission 12 grant the Motion to have Witnesses Appear Telephonically? 13 Second, shall the Commission grant the Motion to Exclude 14 Lay Testimony? Third, shall the Commission quash 15 subpoenas? And, fourth, shall the Commission require further disclosure of lay witnesses? 16 17 The first motion that was filed with us was the motion on behalf of several of the Intervenors to have 18 19 witnesses appear telephonically. And so, with that, 20 Mr. Rische, I understand you are standing in for 21 Mr. Almond; is that correct? 22 MR. RISCHE: Yes, I am, Chairman. 23 COMMISSIONER NELSON: With that, go ahead with 24 your argument. 25 MR. RISCHE: Thank you, Chairman, and

1 Commissioners.

2	First, if it's with your permission, I'd like
3	to just kind of start with a brief introductory
4	statement. And that's kind of that I see a common theme
5	amongst all of these motions and the positions the
6	parties have taken on these motions, and that is that the
7	Intervenors that we represent, Gregg Hubner, Lisa or
8	Marsha Hubner, Lisa Schoenfelder, and Paul Schoenfelder,
9	are trying their best to give the Commission the benefit
10	of a full and fair hearing that includes their
11	perspective and their feelings about this proposed
12	project that can have a rather large impact on their
13	lives. And this motion to allow electronic testimony for
14	their expert witnesses, I think, is indicative of that
15	intention.
16	They've had a very short time line to find and
17	work with these expert witnesses to help prepare their
18	case. And part of that part of the issue that comes
19	with having these hearings be so, I think on such a
20	tight time line is that it's hard to get experts that are
21	both able to support your case and appear in person at
22	Pierre for these hearings.
23	So, with that in mind, the Intervenors have
24	requested that these experts be allowed to testify
25	electronically. As I understand, the Commission has had

experts testify electronically in the past, usually via telephone, and I understand that the Commission, like a trial court, would have discretion to control the manner in which witnesses testify.

5 Now some of the considerations that I think the 6 Commission would bring up or would consider in 7 determining whether or not these witnesses should testify 8 are whether -- you know, the timeliness of the request 9 and whether they've had proper opportunity to prepare and 10 whether that electronic testimony would prejudice the 11 parties to the matter in any way.

As far as the timeliness of the request goes, I think that this is a timely request. The expert witnesses have prepared prefiled testimony that I understand has been filed already. We have a month to prepare any cross-examination that might be necessary for those witnesses, and any concern about being able to gauge the credibility --

Well, and then as far as the prejudice goes, one concern that was brought up by the Applicant is the ability to gauge the credibility of these witnesses over the phone.

That can be mitigated, I believe, by videoconferencing, which is -- I think it's available at your facilities in Pierre and that the expert witnesses

would definitely be willing to do so, that, I think, can 1 mitigate any concerns about gauging the credibility of 2 3 the witnesses. And the prejudice to Intervenors in this case 4 5 would be great. Because without the ability to have 6 these witnesses appear either telephonically or via 7 video, likely -- it's very likely that these experts 8 would be unable to attend the hearing. So that would 9 mean that you would not have the benefit of their 10 testimony at all, which is an important part of the 11 Intervenors' case. 12 And even if they were able to testify, that 13 would create a huge burden as far as expense and time 14 constraints on the Intervenors, you know, who are just 15 four individuals who are trying to get their side of the 16 story heard. They would have to cover the expenses of these experts to travel from -- two of them from 17 18 Michigan, another one from Portugal, to come all the way 19 from -- to Pierre for this hearing. And that may not be 20 something that's financially feasible for them at this 21 time as well. 22 So, with that, I'd ask that the Commission grant 23 our motion to allow these Intervenors to -- or allow 24 these experts to testify electronically. 25 COMMISSIONER NELSON: Thank you.

1 Prevailing Winds. Thank you. Can you hear me? 2 MS. SMITH: COMMISSIONER NELSON: 3 Yes. MS. SMITH: Okay. My headset was not working 4 earlier so I just wanted to confirm. This is Mollie 5 Smith on behalf of Prevailing Wind Park, LLC. 6 7 We sympathize with the comments made regarding 8 this motion. Our concern is the ability to effectively 9 view the credibility and cross-examine witnesses by 10 telephone. In the past we are aware of the Commission 11 allowing telephonic testimony by experts. 12 However, the particular case that was cited was 13 with respect to Hessler, and in that case there wasn't a 14 contested issue anymore with respect to sound issues as 15 the Applicant and the Staff had reached an agreement regarding a condition and, therefore, there didn't seem 16 17 to be a need to bring Hessler to testify live because 18 there wasn't a contested issue. He was simply 19 reaffirming what had been stated. 20 And we also know that the Commission has denied 21 telephonic testimony in the past, as cited in our 22 memorandum. 23 We understand that if there is actually a reason 24 that the experts are not available -- for instance, if, 25 as is mentioned in the brief, Mr. James has a heart

condition and he could not travel to the hearing, that we 1 would understand, and we would accept. But there hasn't 2 been any other reasons given as to why these witnesses 3 could not attend. 4 5 And typically we would like to see witnesses 6 live. We're planning to have our witnesses live, unless 7 there is an unexpected issue that comes up where no one 8 knew it was going to happen and the witness needs to 9 present. 10 So that's our position today. 11 COMMISSIONER NELSON: Thank you. And I understand -- Karen Jenkins; correct --12 13 one of the Intervenors has just entered the meeting room. 14 Ms. Jenkins, do you care to weigh in on this issue? 15 If you need to say anything, you're going to 16 have to come up to the microphone. 17 MS. JENKINS: Thank you. 18 COMMISSIONER NELSON: And just to make sure 19 you're on the right page with us, we are on the motion to 20 have witnesses appear telephonically. If you'd identify 21 yourself, please. 22 MS. JENKINS: I'm Karen Jenkins. I'm the 23 Intervenor. 24 COMMISSIONER NELSON: Yes. Go ahead. 25 MS. JENKINS: The importance of the witnesses

being able to correspond by the telephone you've already 1 I think, you know, the travel conditions and 2 stated. 3 that. The one thing I would say is that if the 4 5 Applicant isn't comfortable with it, that the Intervenors are able -- if the Commission is not able to make it 6 7 where it's a tele -- I'm sorry, but I don't know the 8 words, where you can see the witness on the screen. And 9 the Intervenors would provide that if -- if the 10 Commission is not prepared for that. 11 COMMISSIONER NELSON: Thank you. 12 Staff. 13 Thank you. This is Kristen MS. EDWARDS: 14 Edwards for Staff. 15 We chose not to file a brief in this -- for this 16 motion in response because we didn't really have an 17 interest in it. I don't feel that I would be at all 18 unable to cross-examine the witnesses via telephone. 19 However, if the motion was granted, we would 20 reserve the right to interject an objection, should it 21 become difficult to understand them at the hearing, and 22 ask that any testimony that was not understandable be 23 stricken from the record at that time. We advocate a 24 fair process in which each party has every opportunity to 25 participate regardless of means, so long as a full

1 opportunity for cross-examination is afforded to all. 2 One question I did pose to Mr. Almond yesterday 3 is whether or not a continuance or rescheduling would 4 have afforded them the opportunity to have their 5 witnesses personally present. That's not really an 6 option in this case because of the time line. However, 7 usually we work with some flexibility in order to get 8 everybody here in person, and in circumstances like this 9 the flexibility might have to be on the mode of testimony 10 end, rather than scheduling. 11 So, with that, I have nothing else to add. 12 I guess one question that did pop into my mind 13 was whether -- if cost were an issue, there's maybe a 14 witness closer than Portugal that they could call to get 15 to come here. Otherwise, we take no position. 16 Thank you. 17 COMMISSIONER NELSON: Thank you. 18 Ouestions from the Commissioners. 19 Commissioner Fiegen. 20 CHAIRWOMAN FIEGEN: None. 21 COMMISSIONER NELSON: Commissioner Hanson. 22 COMMISSIONER HANSON: No. I don't have any 23 questions. Thank you. 2.4 COMMISSIONER NELSON: And I have no questions. 25 What I'd like to do is take a motion on this

particular issue before we move on to the others. 1 Is there a motion? 2 3 COMMISSIONER HANSON: Mr. Chairman. COMMISSIONER NELSON: Go ahead. 4 5 COMMISSIONER HANSON: In Docket EL18-026 I move 6 that the Commission allow the witnesses to appear 7 telephonically. 8 COMMISSIONER NELSON: Discussion on the motion. 9 Commissioner Hanson. 10 COMMISSIONER HANSON: Thank you, Acting 11 Chairman. 12 Traditionally, at least for the most part, we've 13 allowed telephonic presentations, and we've sworn people 14 in over the phone. Actually the Applicant argues that 15 it's at a disadvantage for them, and, frankly, I think 16 it's at a significant disadvantage for the expert 17 witnesses and for the folks who are attempting to get 18 their expert witnesses' points across. 19 I would want my witnesses to attend because I do 20 believe it's at a disadvantage to them. I believe that 21 from the standpoint of depriving the Commission of being 22 able to ascertain or the Applicant being able to 23 ascertain the composure or whatever of the witnesses, the 24 Commission has the ability to assess witnesses' veracity. 25 We do that all the time with all of the witnesses, and I

think that we need to be able to provide every 1 opportunity to both sides to have a fair hearing. 2 And for those reasons I support the motion. 3 Additional discussion. 4 COMMISSIONER NELSON: 5 CHAIRWOMAN FIEGEN: I am going to oppose the 6 motion. And Commissioner Hanson used the word 7 "disadvantage." And I guess I would argue unless these 8 particular witnesses are in the room, I think everybody 9 is disadvantaged. 10 I've read through their prefiled testimony. 11 I've read through a lot of their attachments to their 12 testimony, and it became clear to me that for these 13 Intervenors these witnesses are really the touchstone and 14 the word that Ms. Smith used was the "crux" of their 15 case. 16 I mean, these folks are incredibly important to 17 this case for the Intervenors, and I would agree that I 18 think they only disadvantage themselves if these folks 19 are not in the meeting room. And so for that reason 20 because of the importance of what they are attempting to 21 bring to the process, I think they need to be in the 22 meeting room. 23 Additional discussion. 24 CHAIRWOMAN FIEGEN: With the limited time frame 25 in state statute with wind development and permitting,

1	you know, it's frustrating for all of us, and it's
2	certainly frustrating for Intervenors.
3	I think this is a fairness issue for the public
4	at hand. And I don't make this a standard at the PUC
5	because I would rather have these people in person, but I
6	do believe as a Public Utilities Commissioner I do need
7	to give flexibility to Intervenors and all parties to
8	allow them really to mount their case. And I see this
9	more as a fairness issue.
10	And as a Commissioner and all three of us as
11	Commissioners, we'll give the testimony and the evidence
12	the weight it deserves. So at this point I will be
13	supporting the motion.
14	COMMISSIONER NELSON: Additional discussion.
15	I would just make one additional comment.
16	Ms. Edwards talked about the Staff would be asking to
17	disallow any testimony that was not understandable. And
18	I'll just say, I mean, we've had a fairly recent example
19	of testimony over the telephone that was hardly
20	understandable. It was a tremendous burden for our court
21	reporter to try to decipher it. And so if we end up in
22	that situation again, I will absolutely support
23	Ms. Edwards on striking any of that testimony that is not
24	comprehendible or understandable.
25	Additional discussion?
20	AUGULIONAL GISCUSSION:

1 Hearing none, all those in favor of the motion 2 to grant the motion to have witnesses appear 3 telephonically will vote aye; those opposed, nay. 4 Commissioner Hanson. 5 COMMISSIONER HANSON: Ave. 6 COMMISSIONER NELSON: Commissioner Fiegen. 7 CHAIRWOMAN FIEGEN: Fiegen votes aye. 8 COMMISSIONER NELSON: And Nelson votes nay. 9 Motion carries. The next set of motions are three motions from 10 11 the Applicant. And I guess what I'd like you to do is 12 allow you to argue all three of these and then at the end 13 I guess we'll see whether Commissioners want to make a 14 motion individually on them or all three of them 15 together, but I think we can argue all three of them 16 together. 17 So with that, Ms. Smith, go ahead. 18 MS. SMITH: Thank you. And I appreciate that. 19 That's how I had planned to approach them as well. 20 With respect to the motion we have today, there 21 were several witnesses that were in the lay witness list 22 provided by Intervenors that indicated that they planned to provide testimony regarding zoning processes or 23 24 underlying processes at the county level. And we've outlined who those particular witnesses are in our 25

004821

1 motion.

2	In addition, there were subpoenas issued to the
3	counties and to a gentleman from First District who
4	advises the county seeking a whole host of documents,
5	including correspondence between Commissioners and the
6	county and third parties related to zoning and related to
7	this project. And then the subpoena to the First
8	District as well, seeking all communications regarding
9	work with the counties on zoning and on matters to do
10	with this project.
11	We're bringing this motion because we believe
12	that the information that's being sought is not relevant
13	to the proceeding that the Commission is holding here on
14	this particular application.
15	First of all, we understand that the assertion
16	is that information needs to be obtained from
17	governmental units to understand what their views are.
18	However, governmental units can only act officially as a
19	unit at a public meeting. And so under that theory the
20	only thing that would be relevant would be official
21	decisions and minutes of those decisions, and these
22	requests and the testimony offered go much further, far
23	beyond the simple decisions that were made with respect
24	to either zoning, which we do not think should be an
25	issue here, or the permits and agreements entered into

with respect to the project.

1

And so, for those reasons, anything that has to do with individual correspondence with officials is not relevant because that's not the decision of the governmental unit or the governmental unit's views. And certainly correspondence to and from third parties is not relevant as well.

8 Second, information regarding the local zoning 9 processes and the underlying bases for decisions at the 10 county level is not relevant to this PUC's decision here. 11 The Commission has issued decisions in the past without 12 such information. For instance, in Crocker and in the 13 Dakota Range case. And contrary to what Intervenors and 14 Staff have contended, the Applicant here is not relying 15 on the county zoning or decisions to meet its burden of 16 proof.

I think with respect to the burden of proof, the views of the Commission come into play with respect to the orderly development of the region, which is typically how have they zoned and how have they permitted a project.

There is also a burden of proof as far as, number, one under 49-41B-22, which is that the proposed facility complies with all applicable laws and rules. The Applicant has to be able to discuss its permits that

1 it's obtained and the requirements it's met at the local 2 level in order to demonstrate its burden of proof on 3 number one.

What's been asserted is that Prevailing Wind 4 5 Park is using the county's standards to meet its burden 6 of proof with respect to health, safety-related issues. 7 And that's not the case. We have not only provided 8 numerous studies but we have provided expert testimony 9 from witnesses such as Dr. Roberts regarding health and 10 safety, and we're in the process of developing rebuttal 11 testimony to address a number of issues including from 12 Dr. Roberts, Chris Howell, who is a noise expert. So we 13 are not relying on compliance with county requirements to 14 meet these burdens of proof.

15 Finally, the views of the officials. There were 16 references that the staff referenced our data requests to the Intervenors about communications with officials and 17 18 agencies. However, those data requests were seeking the 19 views of the Intervenors because we need to understand 20 those concerns as we go into and prepare for the 21 evidentiary hearing. And also those communications have 22 been offered as exhibits in past siting proceedings.

For instance, in the Crocker proceeding there were several communications between -- that involved the Intervenors and agencies, and the Applicant's witnesses

were asked to address those communications so we need to 1 see them in advance to be properly prepared for them. 2 And, finally, there's been an allegation, I 3 4 guess, in the Intervenors' responses that the Applicant 5 is somehow trying to overburden them by bringing this 6 motion. And that is not the intent at all. If anything, 7 the intent is to streamline this proceeding and ensure 8 that we are not delving into issues that are not relevant 9 to the decision-making and not requiring counties and the 10 quise of a subpoena issued as an official document 11 through the Commission to be forced to spend time and 12 effort putting together information that is not relevant 13 to the Commission's decision. 14 That's all I have. Thank you. And we will go to 15 COMMISSIONER NELSON: Mr. Rische. 16 17 MR. RISCHE: Thank you. 18 I think it's noteworthy that as far as the 19 subpoenas go, the county commissions have not objected 20 necessarily to the burden that the subpoenas have placed 21 on them and that they have been working with Mr. Almond 22 to make sure that they can provide the documents that 23 he's requested, that he's subpoenaed. And so really for 24 the applicants to be relying on the burden that it places 25 on the county commission, I think, is misplaced.

But going back to the primary issue, there are 1 2 four factors that the Applicants have the burden of proof 3 on, and that's, as you know, in 49-41B-22, compliance with applicable laws, whether a serious injury to the 4 5 environment and social, economic conditions of the 6 inhabitants of the siting area, the impairment of health, 7 safety, or welfare of the inhabitants, and then the 8 orderly development of the region with due consideration 9 given to the views of the affected local units of 10 government. 11 Whereas, the Applicants would assert that the 12 only way to determine whether or not the county 13 commission's views -- or the only way to determine the 14 county commission's views are through its official 15 ordinances, zoning laws, I think that that is misplaced 16 in this situation because obviously compliance with 17 applicable zoning laws is one factor, but there's a 18 separate factor that requests views of the local units of 19 government. And if you could derive the views of the 20 local units of government just simply from the zoning 21 ordinances, then you wouldn't need that fourth factor in 22 the local governments.

Likewise, the Applicant has made many assertions about the steps they have taken to work with local units of government to seek building permits and other

coordination efforts they've used. The Intervenors have 1 2 the right to test and challenge those assertions and 3 gather evidence regarding those efforts. Finally, what the considerations -- or what 4 5 factors were considered by the local government officials 6 in creating these zoning ordinances goes directly to 7 whether or not those zoning ordinances adequately protect 8 the health and safety or welfare of the inhabitants of 9 the area, as well as the environment and social and 10 economic condition of the inhabitants. 11 Those zoning ordinances were passed without consideration for any of those different factors. 12 Ιf 13 they were passed without the proper input of the 14 inhabitants of the area or in like the case of Charles 15 Mix County where they -- the basis of this is really just 16 a private agreement between the Charles Mix County 17 Commissioners and the Applicants where there is no 18 evidence that they complied with any of the typical 19 zoning procedures or whether there was any opportunity 20 for public notice or comment about their agreement with 21 how the proposed project would be sited. All of that 22 comes into play in whether or not there was actually due 23 consideration given to those factors. 24 And while I understand the Commission sometimes 25 would like to defer to local government bodies to ensure

that those factors are considered, I also wonder if the 1 2 local governmental bodies defer to the Public Utilities 3 Commission in ensuring that the health and safety of their inhabitants are, you know, considered as well. 4 5 And so you have this situation where you have 6 two governmental bodies deferring to one another, and 7 neither one of them may be considering all of the proper 8 factors. So it's important that the Intervenors have the 9 opportunity to provide this testimony to really 10 illustrate the considerations -- well, determine and 11 then -- determine and illustrate the considerations that 12 the local governmental bodies considered prior to making 13 these decisions. And, therefore, we'd ask that you deny 14 the request for -- or deny the motions made by 15 Applicants. 16 COMMISSIONER NELSON: Thank you. 17 Ms. Jenkins, do you care to weigh -- I know you 18 weighed in in writing. Do you care to weigh in orally 19 today? 20 And, yep, you do need to come up to the 21 microphone. Thank you. 22 MS. JENKINS: Is it appropriate to ask a 23 question of the Commission? 24 COMMISSIONER NELSON: You can try. 25 MS. JENKINS: Okay. I just wondered when -- it

seems like when Prevailing Winds first started coming to 1 develop, that the PUC would be the one to do the siting 2 permit first, and then the counties would then give their 3 4 permits. 5 And my question is did that change in between 2015 and now? 6 7 COMMISSIONER NELSON: Nothing has changed in the 8 state law in regard to that question. 9 MS. JENKINS: Okay. So my thought would be that 10 the -- if the Commission is going to rely on the local 11 government's ideas and that, it was in the benefit of the 12 wind farm developers to work with the county to make the 13 zoning agreeable or in their benefit. And to me it feels 14 kind of like putting the horse before the cart. 15 And if you -- and I do have experience that I --16 as you know, when you get a nagging feeling that 17 something isn't right, I have experienced that in all of 18 this since they first came forward to develop this second 19 wind project. 20 So I -- and this is not a small matter. Our, 21 you know -- our biggest asset is on the line here. So I 22 would appreciate it if the Commission would look further 23 into this. Allow us to get the views to find out if 24 this -- public officials that have been represented --25 representing us really understand what's at stake, you

1 know, for us and instead of just relying on the decisions that they've been made -- that they've made already, as I 2 3 said. And I do agree that in Charles Mix that the 4 5 public's input was not allowed, and that is the right of 6 the public. Even me. I'm a Hutchinson County citizen, 7 but I have a right to speak at the community -- the 8 Charles Mix or Bon Homme County public hearing. And 9 because our property is almost on the border of the three 10 counties, you know, this is important. And I would 11 appreciate it if you would allow it. 12 COMMISSIONER NELSON: Thank you. 13 MS. JENKINS: Thanks. 14 COMMISSIONER NELSON: Staff. 15 Thank you. This is Kristen MS. EDWARDS: 16 Edwards for staff. I'm going to attempt to speak slowly 17 and clearly since this will be transcribed by a 18 recording, but that's not a talent I generally possess. 19 I'm going to take this out of order and go to 20 the final motion for disclosure -- further disclosures 21 from lay witnesses. And after that was filed we did work 22 together to obtain more information. I'm not sure how 23 the Applicant feels about that. But at this point I 24 think staff has at least enough information to go forward 25 and ask the appropriate data request to obtain the right

1 information.

2	When the lay witness disclosures first came out
3	there were some that said a witness would be describing
4	their experience with the wind farm. And that doesn't
5	tell us did it make them sick? Did they have shadow
6	flicker? Was it noise? We just needed a little more
7	information there, and I think we did get it.
8	Beyond that, there needed to be enough
9	information to ask discovery requests or take
10	depositions, if need be, and I think now we've gotten to
11	that point. It doesn't necessarily need to be a verbatim
12	word for word what they're going to testify on because as
13	attorneys we come up with cross-examination questions on
14	the fly all the time, and it's what I anticipate doing at
15	the evidentiary hearing.
16	So I think at this point at least from Staff's
17	perspective we have enough information on the lay
18	witnesses to go forward.
19	Getting nods from across the room, which is the
20	important thing.
21	So going back to the other portion of the
22	pending motion, we filed a Brief, and I did find the
23	find it curious that it was the Applicant and not the
24	counties objecting to the burden placed by the subpoenas.
25	That's not typically how it's done.

1	
1	And in response to a comment made by Mr. Rische
2	that two different parties are each deferring to each
3	other, that is something we've come across with counties
4	in the past where they've said, well, the Applicant
5	and I'm not saying that that was this Applicant. It was
6	not. Well, the Applicant has assured us that the PUC
7	looks at this. So it does make sense to some degree to
8	make sure two parties aren't each telling each other this
9	is the one looking at it.
10	Also the Applicant misstates, I believe, the
11	standard for discovery, which subpoenas are a tool of.
12	It's not direct relevance. It's a much, much more broad
13	tool, discovery is, than directly relevant. So we would
14	sport subpoenas.
15	Thank you.
16	COMMISSIONER NELSON: Thank you. And because
17	we've covered a lot of territory here, I will give
18	Ms. Smith a brief opportunity for any rebuttal if needed.
19	MS. SMITH: Thank you. With respect to the
20	final motion, as Ms. Edwards says, I believe now we have
21	at least enough information to move forward with next
22	steps so we are we can withdraw, if that's easiest,
23	the motion seeking additional lay witness disclosures
24	because we have gotten some additional information.
25	With respect to the other motions, I want to

1 emphasize everyone's focused on burden and everyone's 2 focused on discovery, but the heart of this is that 3 regardless of what is ultimately produced, it is not 4 relevant, and we're seeking that that information be 5 excluded because it is not relevant to the decision.

6 Our understanding from what we can tell is that 7 the Intervenors disagree with how the local units of 8 government came to their decisions, whether it be zoning 9 or whether it be a permit or an agreement. If they 10 disagree, there's nothing stopping them from presenting 11 their own evidence, which they are doing, to oppose any 12 rationale that may have been used to come to those decisions. 13

14 So they still have their opportunity to make 15 their case, and it really doesn't matter the basis of 16 that because I do not believe that the Commission's 17 deferring wholly to the local units of government and 18 making the decision in these cases. While there has been 19 some deference on setbacks in certain cases, I don't 20 believe that that's the overarching approach of the Commission. 21

And, in addition, in this case not only do we have the local units of government setbacks and agreements, et cetera, we have the prior conditions of the Commission, which the Applicant has already indicated

1 in testimony it plans to agree to. And so there's not 2 just the local units of government. There's also the 3 prior conditions of the Commission that were based on testimony in other cases as well. 4 5 So I want to emphasize the need for -- there's 6 no need to obtain information that's ultimately going to 7 be excluded, and that's the point of our motion. 8 COMMISSIONER NELSON: Thank you. 9 Ouestions from the Commission. 10 Commissioner Fiegen. 11 CHAIRWOMAN FIEGEN: None. COMMISSIONER NELSON: Commissioner Hanson. 12 13 COMMISSIONER HANSON: I have none. 14 COMMISSIONER NELSON: And I have none. 15 Motions. I will -- I'm going to take them one at a time 16 17 since it appears that the Commission is on a track for 18 split votes on a lot of these things. I'm going to just 19 take these one at a time just to make sure we're clear on where we're at. 20 21 I would move that the Commission grant the 22 Motion to Exclude Testimony as it relates to the county 23 zoning process. 24 Discussion on the motion. 25 I find nothing in law that gives the Public

Utilities Commission any authority to review the processes of county government. We just simply don't have that authority. And because we don't have that authority, there's no need to have testimony on those processes in this particular proceeding.

6 Now let me be clear. Just because we don't have 7 authority to review the process, that does not negate our 8 responsibility to make sure that the four prongs that we 9 are charged with reviewing are fully fulfilled. And so 10 we ultimately -- that's our responsibility. And if the 11 county has done something that doesn't preserve the 12 health, safety, welfare of the inhabitants, that is 13 something that is under our purview. But looking at the 14 actual process that the county's used I don't believe is 15 and, hence, my motion. Additional discussion. 16 17 COMMISSIONER HANSON: Mr. Chairman. COMMISSIONER NELSON: Commissioner Hanson. 18 COMMISSIONER HANSON: Thank you. 19 20 I appreciate your thoughts, and I would agree 21 that the Applicant has some good points. Frankly, we 22 don't know exactly what information would be presented by 23 the county official. I don't find it irregular to have

24 elected officials come before us and testify. I know25 that it was expressed by the Applicant that there's some

1 disagreement amongst the Commissioners, and this would 2 give some an opportunity to come before us and reargue 3 their position that they argued previously.

However, we have the ability to determine what 4 5 is hearsay and what is relevant or not relevant. And I 6 would caution the Intervenor that we won't accept 7 inappropriate testimony. It needs to be relevant. At 8 the same time, this is not unusual to have elected 9 officials testify or make presentations, whether the PUC 10 does it during the legislative session, we go to the 11 counties -- to the committees, rather, and give testimony 12 individually. Certainly we discuss that ahead of time, 13 but we do it, nevertheless, and on occasion we do not 14 have 100 percent agreement in the presentations.

15 Just this week Commissioner Nelson testified in 16 court regarding a docketed item. There's -- I don't find 17 it unusual to be looking at this from that particular 18 standpoint. And there may very well be some information 19 and some questions that we as Commissioners would like to 20 ask of the Commission. And, like I say, we have the 21 ability to weigh and determine whether or not it's 22 relevant.

23 COMMISSIONER NELSON: Additional discussion.
24 CHAIRWOMAN FIEGEN: Commissioner Nelson.
25 COMMISSIONER NELSON: Yes.

1	CHAIRWOMAN FIEGEN: I move a substitute motion.
2	COMMISSIONER NELSON: Go ahead.
3	CHAIRWOMAN FIEGEN: I move to deny the Motion to
4	Exclude Lay Exclude Lay Testimony. And I deny the
5	Motion to Squash Subpoenas.
6	COMMISSIONER NELSON: Discussion on the motion.
7	CHAIRWOMAN FIEGEN: The Commission is going to
8	take the testimony and the evidence and give it the
9	weight it deserves. I believe all parties have an
10	opportunity to cross-examine, and in a fair process I
11	believe that this is the right motion for the whole
12	six-month time frame of this evidentiary hearing.
13	COMMISSIONER NELSON: If I could ask a question
14	on your substitute motion, did you include a motion on
15	all three issues or just the first two?
16	CHAIRWOMAN FIEGEN: Just the two.
17	COMMISSIONER NELSON: Okay. Thank you. Well,
18	now you've got me in a pickle because I will be honest.
19	I agree with half of your substitute motion, but I
20	disagree, as I have already said, on the first portion.
21	Again, we simply don't have any authority to
22	review the processes of local government. That's beyond
23	any authority that we've been given, and why we would
24	want to take time in this hearing to delve into those
25	issues when we don't have any authority there is beyond

1 me. 2 And so I quess, because of that, I'm not going 3 to be able to support the substitute motion, even though 4 I do believe that we should not quash the subpoenas 5 because, you know, the counties haven't asked us to quash 6 them, and so I'm with you on that part. But ultimately I 7 can't support the substitute. 8 Additional discussion on the substitute motion? 9 Hearing none, all those in favor of the 10 Substitute Motion to Deny the Motion to Exclude Testimony 11 and Deny the Motion to Quash Subpoenas will say aye; 12 those opposed, nay. 13 Commissioner Hanson. 14 COMMISSIONER HANSON: Aye. 15 COMMISSIONER NELSON: Commissioner Fiegen. 16 CHAIRWOMAN FIEGEN: Fiegen votes aye. 17 COMMISSIONER NELSON: Nelson votes nay. 18 Motion carries. 19 And we have one additional issue to resolve. Is 20 there a motion regarding further lay witnesses? 21 MS. SMITH: Commissioner, this is Mollie Smith. 22 I believe we withdrew that motion, given that we had 23 received additional information. 2.4 COMMISSIONER NELSON: Thank you. I apologize. 25 I missed that, and that was a good move.

1 MS. SMITH: No problem. 2 COMMISSIONER NELSON: And I'm just going to make 3 a comment. You know, when we set up the procedural 4 schedule and to try to accommodate our lay witnesses and 5 folks that don't normally -- aren't normally a part of 6 our process we wanted to make it very easy, not require 7 prefiled testimony and some of the other things that we 8 do, and I think the Intervenors took that to the extreme 9 with just their one-sentence statement. And I fully 10 concur that the one sentence was not sufficient. 11 But what they responded with yesterday I was 12 very satisfied with. I think that gives everybody a good 13 understanding of the direction they're going, and I think 14 that's the right place to land. And so I appreciate 15 everybody working to get us to that point. 16 With that, any other issues to come before us 17 today? 18 If not, is there a motion? 19 CHAIRWOMAN FIEGEN: Is there -- are you going to 20 take public comment today by the phone or just in person? 21 COMMISSIONER NELSON: Okay. So this is the 22 first opportunity I've had to chair since we require 23 public comments. 24 CHAIRWOMAN FIEGEN: And the Chairman gets to 25 decide that.

1 COMMISSIONER NELSON: No. We're going to take 2 public -- Katlyn, has anybody signed up for public 3 comments? 4 Katlyn is checking the record. 5 CHAIRWOMAN FIEGEN: Thank you. 6 COMMISSIONER NELSON: And Katlyn informs me that 7 no one has signed up for public comment. And so, 8 therefore --9 CHAIRWOMAN FIEGEN: Okay. 10 COMMISSIONER NELSON: But I appreciate very much 11 your reminding me of that section. 12 CHAIRWOMAN FIEGEN: Great. 13 COMMISSIONER NELSON: Is there a motion? 14 CHAIRWOMAN FIEGEN: Move to adjourn. 15 COMMISSIONER NELSON: Move to adjourn. All 16 those in favor will vote aye; opposed, nay. 17 Commissioner Hanson. 18 COMMISSIONER HANSON: Aye. 19 COMMISSIONER NELSON: Commissioner Fiegen. 20 CHAIRWOMAN FIEGEN: Fiegen votes aye. Nelson votes aye. 21 COMMISSIONER NELSON: 22 Motion carries. We are adjourned. 23 24 25
