SOUTH DAKOTA PUBLIC
UTILITY COMMISSION

Re: Section 20:10:16:02 - Customer Information

Dear Mr. Bullard:

Enclosed are the original and five copies of a proposed Guide to Energy Services (Guide) which would be provided to new customers (and existing customers upon request) at no charge. This Guide will be used in all the states MidAmerican serves.

Minor changes have been made to the bill form appearing on pages 6-7, as noted on the draft Guide. Also, a survey will be included on the brochure jacket.

We respectfully request that the enclosed Guide to Energy Services be approved by the Commission and we thank you for your attention to this matter.

Please return a file-stamped copy in the stamped, self-addressed envelope enclosed for your convenience.

Very truly yours,

A handwritten signature in dark ink, appearing to be "S.M.S.", written over a horizontal line.

MidAmerican
ENERGY

PO Box 657
Des Moines, IA 50303

\$50 FOR YOUR THOUGHTS!

Complete this survey and return
in the enclosed envelope and you will be
eligible to win a \$50 gift certificate good
toward any MidAmerican Energy bill.
Two winners will be drawn this month.

No purchase necessary. One entry per household.
No photo copies of this survey will be accepted.

MidAmerican Energy looks forward
to serving your energy needs.
We encourage you to call us, contact
us via our Web site or write to us.
We value your opinions.

Always there for you

to MidAmerican Energy's
neighborhood

• We work hard to minimize power outages, but they do occur occasionally.

Power Outages

Lessing power is inconvenient, frustrating and sometimes costly. MidAmerican Energy recognizes this and works daily to maintain our lines and keep the power on. There are times when storms, animals, trees or ice interfere with the lines and you experience either a momentary "blink" or a complete outage. When you lose power:

- Check to see if the power is off everywhere in your home.
- Check your fuses and/or circuit breakers.
- If you're not sure how to do this or you've checked and the power is still off, call us at 1-800-622-1003.

We want to hear from you! Your call helps us determine the source of the problem and the extent of the outage. If you are aware of downed lines or trees in the lines, please tell us when you call. Stay away from downed lines; they could be dangerous!

We work hard to minimize power outages, but they do occur occasionally.

Power Outages

Loosing power is an inconvenience, but it's not always preventable. MidAmerican Energy recommends that you take steps to maintain our lines and keep the power on "just in case." There are times when storms, animals, trees or ice interfere with the lines and you can take action to either a momentary "blink" or a complete outage. When you lose power:

- Check to see if the power is off everywhere in your home.
- Check your fuses and/or circuit breakers.
- If you're not sure how to do this or you've checked and the power is still off, call us at 1-800-622-1003.

We want to hear from you. Your call helps us determine the source of the problem and the extent of the outage. If you are aware of downed lines or trees in the lines, please tell us when you call. Stay away from downed lines, they could be dangerous!

Call Before You Dig! If you dig for any reason, such as landscaping, planting a garden or installing a pool or basketball pole, be sure to call first. Underground electric and gas lines may be present in your yard. Call the Bill 1-800-241-7171. For the free service, call at least two working days before you dig.

A fatal amount of gas is not okay. Call us at 1-800-338-3011 even if you're not sure. We're here 24 hours a day, seven days a week to help keep you safe!

Gas Leaks. A gas leak is very dangerous. If you smell natural gas in your home or in your yard, leave your home, without touching anything electrical (including your phone), and call us immediately at 1-800-338-3011. If you can stay with a neighbor until we indicate it is safe to enter your home. If you or family members are not familiar with the smell of natural gas, call us and we'll send you a scratch-and-sniff sample.

Carbon Monoxide (CO) Detectors can save your life! Because you can't smell, see or taste CO, it is known as the silent killer. If you purchase a CO detector, make sure it meets the UL listing. Laboratory tests show that CO detectors can reduce the risk of death from the poisonous gas. CO poisoning is your best measure against CO poisoning. If you suspect CO, call us immediately at 1-800-338-3011.

Security Lighting is an efficient and cost-effective way to light up

a dark area. MidAmerican Energy houses and maintains these lights for security, recreation and other lighting needs. For a free lighting consultation and cost estimate, call us at 1-800-622-1003 and ask for a lighting specialist in your area.

Your safety is important to us. We know the more information you have, the safer you can be.

is definitely our business

Maybe we can help

You will receive your MidAmerican Energy bill a few days after your meter is read. If you are unable to pay your bill by the due date, give us a call. We will help you find a solution for your situation.

Preferred Payment Due Date
If your bill is due at a bad time for you, we can work with you to set up a new due date. Call us to find out more.

Payment Arrangements

Sometimes life throws you a curve. MidAmerican Energy may be able to help you smooth out that energy bill curve by setting up customized payment arrangements or identifying resources where you might qualify for financial assistance. We want to help.

LCARB

If you'd like to help your disadvantaged neighbors with their energy bills, you can make a contribution to LCARB. The program provides funds to help pay winter heating bills or buy materials needed to weatherize homes. We match each dollar you contribute with an additional 25 cents, and all administrative costs are paid by MidAmerican Energy. If you would like to help, call us for a pledge card.

Late Payment Charge

If your payment is received after the due date, a 1.5 percent per month late pay charge will apply to your utility account balance. Once a year you may pay your bill late without this additional charge.

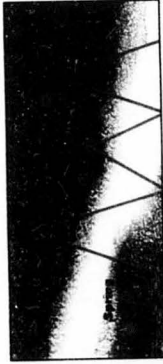

Why it seems every bill is different

You'll notice that your bill changes from month to month. Here are a few of the most common reasons:

The Four Seasons. The most common reason. Did you know your summer electric bill can be up to 45% more than your spring bill and your winter gas bill can be up to 100% more than your fall bill? Seasonal equipment use, such as your furnace, space heater, air conditioner, sump pump and humidifier all affect your monthly bill. If you experience these peaks and valleys, you might consider our budget plan to take the bumps out of your monthly payments (see PG. 1).

Seasonal Prices. The cost of providing electric energy is higher in hot summer days. Likewise, the cost of gas is most be higher in the cold winter days. Adding a programmable thermostat will ease the burden of turning the thermostat dial on those extreme days. Let our EnergyAdvantage™ program help you purchase one (see PG. 10).

Why your bill varies

Your meter, your bill, your choices

Your meter reading determines your bill, so your monthly meter reading is important. MidAmerican Energy offers the following options:

We can read your meter

If your meter is outdoors and not inside a locked fence, this is easy for us to do. If your meter is indoors, we can make arrangements with you such as using a meter to find it on your scheduled read day. To find out more or request a reading arrangement, give us a call.

You can read your meter.

Reading your own meter is simple, and you may prefer this option. If you are not familiar with how to read a meter, call us and we'll help. You can also request our "How to Read a Meter" brochure for future reference.

Once you've read your meter, call our automated customer read line.

Simply call 1-800-338-3011 and give us your account number, meter address (including city and state) and your meter reading. You can either give us the meter reading or tell us which numbers the needles are pointing to (or between); we can take it from there.

There may be times when you do not recognize your meter reader and wish to see some identification. We encourage you to do so for this. We understand your concern when an unfamiliar person is on your property, so all MidAmerican Energy meter readers carry identification.

Dogs are terrific pets. For everyone's safety, however, please have your dog restrained on your scheduled read day. Your meter reader will appreciate your extra effort.

Payment options to fit your lifestyle

MidAmerican Energy offers you several options.

Pay by Mail

Make paying your bill easier by knowing what to bill with your bill. Simply use the convenient return envelope provided for you. Allow one week for postal delivery and, for your protection, please do not mail cash.

Use SelectCheck, our Automatic Payment Plan

Save time and money! Sign up for SelectCheck. You will receive a bill each month, but we will automatically deduct your bill amount from your checking account, saving you check writing time and postage. Call us today for an enrollment form.

Budget Plan

Though most bills cover by knowing what it will be each month. Since you're already metered, you may consider establishing a usage history before signing up. You can, however, join the plan any time. Give us a call when you're interested!

Pay Stations

Many banks and stores in your community may accept cash, check or money order payments for MidAmerican Energy. Call us for a list of pay stations near you.

Customer Offices/Drop Boxes

Though most business can be completed over the telephone, customer offices are available for bill paying and other transactions. In a hurry? Use payment drop boxes located at our customer offices (no cash please). Call us for the address of an office near you.

Energy efficiency in your home

Caulk and weatherstrip
every two years.

For more energy-saving tips, call us for our "Energy Efficiency in Your Home" booklet. If you're interested in more than tips (e.g. specific information regarding heating and cooling systems, energy audits, lighting, etc.), call us for a "Consumer Guide to Home Energy Savings" book.

Plant a tree...strategically. Call for our "Something Cool You Can Do At Home - Plant A Tree" booklet to learn more.

Set your water heater temperature at 120°F (130°F if you have a dishwasher). Each 1°F reduction in temperature will save you 1.5¢ on your water heating costs. You could save 4¢ a year. Small savings add up!

Use less hot water by installing low flow showerheads and faucet aerators. You will receive two free faucet aerators if you participate in our Home Check program (see pg. 10).

with EnergyAdvantage™

You may be in the market for a new heating or cooling system, programmable thermostat, water heater, refrigerator, windows, insulation, roofing or siding in your new home. MidAmerican's EnergyAdvantage™ programs may be able to help you with some of those purchases.

EnergyAdvantage™ Equipment Program*

EnergyAdvantage offers low interest financing for the installation of energy-efficient heating and cooling equipment including ductwork, power and control wiring, and registers and grills. Cash incentives for the installation of energy-efficient central air conditioning, heat pumps, gas furnaces, water heaters and programmable thermostats are also available.

For more information on our EnergyAdvantage™ Equipment Program, call 1-800-894-9599.

EnergyAdvantage™ Home Check*

HomeCheck is a free energy audit service performed by MidAmerican Energy. HomeCheck identifies energy saving opportunities and provides recommendations for energy efficient heating and cooling equipment. Cash incentives for the installation of energy-efficient central air conditioning, heat pumps, gas furnaces, water heaters and programmable thermostats are also available.

Call 1-800-545-0762 to pre-qualify for this program.

New Living Habits. Your new home may be larger, but you may have a new baby or a parent living with you. Or your college student may be home from school. We can help simplify your life! Consider our automatic payment plan and save yourself time and money (see Pg. 4).

New or Additional Purchases. A freezer (\$12/month), second refrigerator (\$11/month), computer (\$5/month), watched television (\$11/month), gas log (\$11/month), or swimming pool heater (\$5/month) all require additional energy. When you buy new equipment, buy energy efficient.

Old Equipment may be inefficient and use more energy.

Our EnergyAdvantage™ low interest financing program may be just what you need to purchase new, more efficient heating and cooling equipment. Call us for more information on our EnergyAdvantage™ program (see pg. 10).

*Based on average costs and estimated use.

Set your thermostat in the summer to 76 °-78 °. A 75° setting costs 15% more (\$81) versus \$70, average per month; a 72° setting costs \$98 more (\$103). In the winter set your thermostat at 68°. At night 67°-66° will degree over 68° causes a 7% increase in energy dollars. 70° cost an average \$89 per month versus \$84 at 68°-72° cost \$94.

Use fans to move the air. Fans can make the air feel 2° degrees cooler. A circulating fan running 12 hours a day only costs about 10¢. A central air conditioner running 12 hours a day costs about \$130.

Your refrigerator accounts for a significant portion of your electric bill. Keep your refrigerator compartment between 36°-38°F and the freezer compartment between 0°-5°F. Keeping temperatures 10°F lower than these can increase energy use by as much as 25% (about \$18 per year).

A full freezer will perform better than a nearly empty freezer. If your freezer is not full, fill plastic containers with water and freeze them or consolidate your food into one freezer and juggling the empty unit.

Keep your equipment clean. Restricted air flow makes the unit run harder, reducing the equipment's life, and run longer, requiring more energy (costing you more!). Change the air filter in your air conditioner and furnace as recommended by the manufacturer. Clean the refrigerator coils behind or behind your unit. Remove lint from the trap in your clothes dryer before each load.

Cover your waterbed. An unmade waterbed loses 38% more electricity than \$45 a year!

What can you do to lower your energy usage? Some quick money-saving energy tips include:

MiddleAmerican Energy offers these special services to you at no charge:

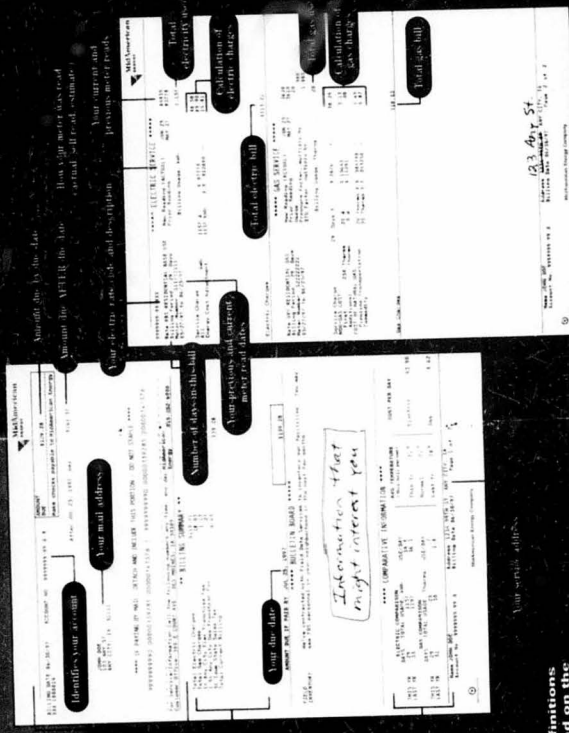

TTD/Telecommunications Partner for the Power!
Home-energized people who have access to a TTD can conduct business with us 24 hours a day, seven days a week. The TTD number is 1-800-458-5529.

Large Print Bill
For those who find smaller print bills hard to read, we offer a large print bill. You will also receive a small print bill for your return bill payment.

Language Line
MiddleAmerican Energy is a client of AT&T's Language Line Services so we can hold a three-way conversation with an interpreter. Let us know if you prefer this type of communication.

Third Party Notification
You can request to have a third party (relative, neighbor, social services agency, landlord) if you receive a disconnect notice. This third party is not responsible for your bill. They are notified of any action you take so that they might help you seek resources to avoid disconnection.

Re: Section 20:10:16:02 - Customer Information

Dear Mr. Bullard:

Enclosed are six copies each of proposed informational pamphlets for MidAmerican Energy Company commercial and residential customers in South Dakota. The pamphlets will be inserted with the first billing to new customers and provided to existing customers upon request. Color will be added to the pamphlets when they are printed.

We respectfully request that the pamphlets be approved by the Commission and we thank you for your attention to this matter.

Please return a file-stamped copy in the stamped, self-addressed envelope enclosed for your convenience.

Very truly yours,

Re: Docket GE97-002 - Customer Information Pamphlet

Dear Mr. Bullard:

On November 24, 1997, MidAmerican Energy Company filed proposed informational pamphlets for commercial and residential customers in South Dakota.

Enclosed are six copies each of revised pamphlets in response to questions and/or suggested changes as noted in Dave Jacobson's letter of December 30, 1997.

We respectfully request that the pamphlets be approved by the Commission and we thank you for your attention to this matter.

Please return a file-stamped copy in the stamped, self-addressed envelope enclosed for your convenience.

Very truly yours,

A handwritten signature in cursive script that reads "Suzan M. Stewart" followed by a small monogram.

DOCUMENT (S)

DISREGARD

BACKGROUND

Please be made of this pamphlet for the convenience.

- Has an outstanding debt for MidAmerican service at a previous address and has not made arrangements to pay that debt for the same class of service.
 - Will not provide MidAmerican with proper information at the time of application.
 - Attempts to reuse service in a household with a delinquent bill, and no attempts are being made to pay the old debt.
 - Fails to make a deposit when requested.
 - Violates state statutes, regulations or MidAmerican tariffs on file with the Public Utilities Commission.
 - Non-payment of undeposited past due natural gas or electric bills and unwillingness to agree to a payment plan with MidAmerican on credit in dispute.
 - MidAmerican will mail a notice of proposed disconnection to the customer. In the case of a customer's first delinquency, MidAmerican shall provide personal notice by either telephone visit, or certified or registered mail. In the case of a subsequent delinquency, MidAmerican will provide a statement of the customer's right to appeal and where to appeal.
 - MidAmerican allows an additional 30-day delinquency period through March 31 before disconnecting natural gas or electric service because of unpaid past due charges.
 - The customer files a 30-day notice of intention to appeal for or public hearings and file with MidAmerican.
 - The customer files a 30-day notice of intention to appeal for or public hearings and file with MidAmerican.
- MidAmerican will receive a copy of any disconnection notices sent to the customer. The amount for which a guarantor is responsible cannot be more than the amount deposited. The contract that the guarantor signs after the customer establishes consecutive credit by paying the service for 12 months is void after the customer establishes consecutive credit without having served the contract for reassignment and without receiving notice of the date. MidAmerican may refuse natural gas and electric service to an applicant who:

1. MidAmerican may require a deposit from a customer to serve you. It's hours a day, seven days a week. The amount of the deposit cannot be more than one-sixth of the customer's estimated total annual bill. The deposit will include interest if more than a year passes between the date of refund and the date of deposit. MidAmerican may accept a contract, signed by a guarantor, satisfactory to MidAmerican, which guarantees payment on the occurrence.
2. Instead of a deposit, MidAmerican may accept a contract, signed by a guarantor satisfactory to MidAmerican, which guarantees payment on the occurrence.
3. MidAmerican may refuse natural gas and electric service to an applicant who:

5. We will not disconnect natural gas or electric service for non-payment on:

Friday, Saturday, or Sunday, on a legal holiday, or a day our office is closed to the public.

9. If we provide natural gas or electric service to an address different from the billing address, or we know that a landlord relationship exists and the landlord as the customer, is subject to disconnection, we will, where feasible, offer the tenants the opportunity to apply for natural gas or electric service in their own names.

No tenant is responsible for outstanding bills or other charges of his or her landlord.

For more information, contact MidAmerican Energy Company at 899 458-4478, in an emergency call 899 505 5125.

MidAmerican Energy Company is regulated by the South Dakota Public Utilities Commission. If you are unable to resolve a problem and wish to file a complaint, you may contact the South Dakota Public Utilities Commission:

Capitol Building
Pierre, South Dakota 57501
899 332 1782 or 605 773 3291

MidAmerican Energy Company provides natural gas and electric service according to the rules of the South Dakota Public Utilities Commission.

This pamphlet is summarized model.

Sign to make it this complete for the information.

- at a previous address and has not made arrangements to pay that debt for the same class of service.
- Will not provide MidAmerican with proper information at the time of application.
- Attempts to resolve service to a household with delinquent bill and no attempts are being made to pay the bill.
- Fails to make a deposit when requested to get the bill paid.
- Violates state statutes, regulations or MidAmerican tariffs on file with the Public Utilities Commission.
- Non-payment of undisputed past due natural gas or electric bills with unwillingness to agree to a payment plan with MidAmerican can result in disconnection.
- MidAmerican will mail a notice of proposed disconnection to the customer. In the event a customer's first payment is received, MidAmerican shall provide personal notice by either telephone or certified or registered mail. The notice will include a statement of the customer's right to appeal and where to appeal.
- MidAmerican allows an additional 10 days from November 1 through March 31 for disconnection of natural gas or electric service. A notice of intent to disconnect will be mailed to the customer 10 days before disconnection. The amount of the guarantee credit for 12 consecutive months without having service discontinued ends after the customer establishes agreement with the allowed deposit. The contract for which a guarantee is responsible cannot be more than a quarter to the customer. The amount the guarantor will receive a copy of any disconnection.
- The guarantor, which guarantees payment on the MidAmerican, which guarantees payment on the deposit, signed by a guarantor satisfactory to MidAmerican, which guarantees payment on the deposit to the date of refund.
2. Listed at a deposit, MidAmerican may accept a contract to serve you, 24 hours a day, seven days a week. The amount of the deposit cannot be more than one month of the customer's estimated total amount bill. Deposits may simply interest to deposit to the date of refund.
3. MidAmerican may require a deposit from a customer. The amount of the deposit cannot be more than one month of the customer's estimated total amount bill. Deposits may simply interest to deposit to the date of refund.
4. MidAmerican may refuse natural gas and electric service to an applicant who:
- Has an outstanding debt for MidAmerican service at a previous address and has not made arrangements to pay that debt for the same class of service.
 - Has an outstanding debt for MidAmerican service at a previous address and has not made arrangements to pay that debt for the same class of service.
 - Has an outstanding debt for MidAmerican service at a previous address and has not made arrangements to pay that debt for the same class of service.

5 We will not disconnect natural gas or electric service for non-payment on:

Friday, Saturday, or Sunday, on a legal holiday, or if our office is closed to the public.

6. If we provide natural gas or electric service to an address different from the billing address, or we know that a landlord relationship exists and the landlord as the customer, is subject to disconnection, we will, where feasible, offer the tenant's opportunity to apply for natural gas or electric service in their own names.

No tenant is responsible for outstanding bills or other charges of his or her landlord.

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

IN THE MATTER OF THE FILING BY) ORDER APPROVING
MIDAMERICAN ENERGY COMPANY FOR) REVISED INFORMATION
APPROVAL OF ITS GUIDE TO ENERGY) PAMPHLET
SERVICES PAMPHLET) GE97-002

On September 2, 1997, pursuant to SDCL 49-34A-4(2) and ARSD 20:10:16:02, MidAmerican Energy Company (MidAmerican) filed with the Commission proposed revisions to its customer information pamphlet. An updated revision was filed with the Commission on January 7, 1998.

At its regularly scheduled January 8, 1998, meeting, the Commission considered MidAmerican's request for approval of the revised pamphlet. Commission staff recommended approval.

The Commission finds that it has jurisdiction over this matter pursuant to SDCL 49-34A-3, 49-34A-4, 49-34A-27 and ARSD 20:10:16:02. Further, the Commission finds that the customer information pamphlet is in the public interest and shall be approved. It is therefore

ORDERED, that the customer information pamphlet is approved, as revised, and shall be distributed on and after the date of this Order.

Dated at Pierre, South Dakota, this 13th day of January, 1998.

<p>CERTIFICATE OF SERVICE</p> <p>The undersigned hereby certifies that this document has been served today upon all parties of record in this docket, as listed on the docket service list, by facsimile or by first class mail, in properly addressed envelopes, with charges prepaid thereon.</p> <p>By <u><i>William Kaska</i></u></p> <p>Date <u><i>1/13/98</i></u></p> <p>(OFFICIAL SEAL)</p>

BY ORDER OF THE COMMISSION:

James A. Burg
JAMES A. BURG, Chairman

Pam Nelson
PAM NELSON, Commissioner, dissenting

Laska Schoenfelder
LASKA SCHOENFELDER, Commissioner
