

Daniel Flo
e-mail: dsflo@NRG-LLC.com

Daniel Flo is a consultant and Project Manager with Natural Resource Group, LLC (NRG), specializing in land use and environmental regulatory compliance for pipeline and energy transmission projects. Daniel has extensive experience in state and local land use regulations and federal environmental compliance issues. Prior to joining NRG, Daniel spent three years as an analyst for a Minnesota environmental reimbursement fund. Daniel has served on the boards of various government and non-profit environmental and land use organizations, and focused in environmental law, land use, and Native American legal issues at Lewis & Clark Law School in Portland.

Selected Project Experience

- LSR/Alberta Clipper/Southern Lights Pipeline Projects: deputy Project Manager for environmental compliance for three liquid petroleum pipelines from the U.S.-Canada border in North Dakota, through northern Minnesota, to Superior, Wisconsin; coordinated the preparation of various federal, state, and local permit and certificate applications for the siting and construction of the pipeline and aboveground facilities; managed permitting and compliance activities within the Chippewa National Forest; coordinated environmental survey activities; managed the project's SharePoint website.
- Continental Connector Natural Gas Pipeline Project: authored the land use section of the FERC environmental report (Resource Report 8) for a 384-mile-long natural gas pipeline in Texas, Oklahoma, Arkansas, and Louisiana.
- Phoenix Expansion Pipeline Project: authored the socioeconomics section and co-authored the land use section of the FERC EIS for a 259-mile-long natural gas pipeline in Arizona and 25 miles of additional loops in New Mexico.
- Sothern Lights Pipeline Project: co-authored the Environmental Feasibility Report addressing environmental regulatory issues in four states.
- Alberta Clipper Pipeline Project: co-authored the Environmental Feasibility Report addressing environmental regulatory issues in three states.
