Dear South Dakota Public Utilities Commissioners Hanson, Nelson, and Fiegen:

Please reject the Keystone XL Pipeline certification in docket HP14-001. The land, water, indigenous people, farmers, ranchers, and all of us who rely on safe water should not suffer the pollution which will be caused by that pipeline. Keystone is not willing to back its own safety. They know the pipeline will leak and who will be responsible for the clean up. Not Keystone. It is up to you to protect the environment of our state. Reject this project and let's hear the end of it!

Sincerely,
Sue Grant
