Subject: Keystone pipeline disaster

this country does NOT need what Keystone pipeline has to offer. I want my future generations to be able to say SD did the right thing by keep these mongers out of our state. PLEASE DO NOT let them bully, bribe or brainwash you. NONE of what they have to offer is good.

the aquifer they will and I do mean will because eventually it will happen and you know it they pipeline WILL cause pollution disaster of good water that can NOT be replaced. Tell them to gather their bags and go home SD will NOT cow tow to them

Kay Saukerson Nelson
