Commissioner Hanson,

I am emailing you today to urge you to respect landowners rights and help them maintain their land and livelihood(s) without interference from a corporation representing financial gain for others.

I live in Garretson, SD. Our land is not in jeopardy (as far as I know). I have never felt that the XL Pipeline was a good idea for our state. We are in line to lose a lot and none of it has to do with the dollar.

I was on the ballet for Representative last year but because my mother was ill and dying of cancer, her care came first so I withdrew. I'm not inactive in our state. This is an issue where financial gain should not trump property owner's rights.

Make no mistake, when we unite, and the people speak, the elected officials really should listen.
