Pursuant to SDCL 49-41B-17,

Gary F. Dorr

(Name of Applicant)

petitions the Public Utilities Commission to be granted party status in the above-referenced facility permit proceeding.

Briefly explain your interest in this permit proceeding. Form is limited to 1000 characters.

I am a tribal member who takes drinking water from the Missouri River. I also live over the Oglala Aquifer, which is also threatened by contamination from the Keystone XL pipeline and the multiple carcinogenic compounds contained therein. I wish to address the PUC with relevant facts from multiple reports from leading scientists/economists that indicate that the 50 conditions contained in TransCanada's original construction permit are not valid anymore or have changed.
