3	REASON FOR ROUTE VARIATION (Please include reason for route variation): The primary reason for this reroute is to eliminate PI and straighten line. Additionally, this reroute will place MLV-19A on higher ground, move CL/workspaces away from an existing culvert (located south of current CL). The reroute has been proposed based on the field reconnaissance efforts.		
DETAIL ROUTE VARIATION (Please describe route variation in detail): Route variation starts near MP 461.3 and deviates ~17° east of CL. The reroute extends in this direction for ~2,276 ft and rejoins the current CL near MP 461.8. Along this section reroute eliminates 1 PI.			
ADDITIONAL IMPACTS (Please include any additional impacts which may affect cost; crossings, induction bends, etc.): No New Landowners are impacted by this route variation. Three tracts are impacted by reroute: ML-SD-HK-01030.000 and ML-SD-HK-01050.000 (Both tracts: Ross Williams) ML-SD-HK-01070.000 (Ramona Buchholz) Route Variation impacts the relocation of MLV-19A and VAR-19A.			
Is there an increase/decrease in the number of crossings? Yes <input type="text"/> No <input checked="" type="checkbox"/>			
If yes, please list: <input type="text"/> <input type="text"/>
