Way to fast on changing windows so lets try this again

Hello Dave

This came out of last years work that everyone wanted to get on board with

They need help and they came to us so we need to support them

The agreement is to support commodities

You and me signed this decision summary to get funding

Marc Charland, Ed , myself and Vivian have been involved for some time but we had told them we did not have time to support it for a while

Hope this helps

Evan
