

Ms. Van Gerpen;

In regards to HP14-001; I request that the commission reconsider its vote of October 29, 2015. It was my intention to dissent-in-part with the order that is being written regarding the Commissions' action to strike some of Ms. Meyers' exhibits. However, I have been informed by Commission counsel that I should request the commission to reconsider the motion so that I may vote no. Specifically; it is my intent to separate the motion so that I may vote in favor of keeping Ms. Meyers' exhibit 6001 in the evidentiary record and support a motion to strike the remaining exhibits that are presently part of the motion that passed.
