Chris,

I hope your time in Pierre is going very well. I'm very excited for next years legislative session.

I wanted to forward you a few questions that I have had brought to me about the Dakota Access pipeline. Most deal with South Dakota law, and the protection of our citizens, and our environment.

Currently are there any state laws that protect our citizens in regards to any spills or damage to the environment? As well as protection to who is responsible for such spills, or the decommissioning of the pipeline. Do you see any flaws or any changes you think should be made within state law to better protect our citizens?

I'm just trying to look after my landowners that reside within District 8.

Thank you for your time and consideration. Very nice to see you briefly at the SDSU parade.
