RE: In the Matter of Otter Tail Power Company on Behalf of Big Stone II Co-owners for an Energy Conversion Facility Permit for the Construction Of the Big Stone II Project

Docket No. EL05-022

Dear Secretary VanGerpen:

Please accept this letter, on behalf of Joint Intervenors in the above-referenced docket, in support of Mary Jo Stueve's July 27, 2006, Request for Reconsideration, which is scheduled to be heard this week by the Commission.

Ms. Stueve is right to raise to this Commission's attention the Co-owners' recent admissions that the projected costs of the Big Stone II Project have escalated substantially, to approximately \$1.8 billion. These cost escalations call into question considerable portions of the Co-owners' testimony filed in this proceeding, including their claims that Big Stone II is a least-cost resource for each of the Co-owners, as compared with alternative sources of power. Indeed, the Co-owners that still have pending integrated resource plans before the Minnesota Public Utilities Commission, and in the related Big Stone II certificate of need proceeding, have been ordered to update all of the capacity expansion modeling that the Co-owners have relied on to justify the Big Stone II Project, to evaluate whether the Project at its current projected capital costs is still the Co-owners' preferred alternative.

To the extent that the South Dakota Commission's decision to grant the Big Stone II siting permit, including any findings of fact the Commission adopted in its July 21, 2006, Order, relies on the analyses and conclusions by the Co-owners that the Project was the lowest cost alternative available to them, the

current factual record of the proceeding no longer supports the Commission's decision to issue the permit.

Thank you for including this letter of support in the record for this proceeding.

Sincerely,

A handwritten signature in cursive script, appearing to read "Elizabeth I. Goodpaster", with a long horizontal flourish extending to the right.
