RE: WWC's Complaint against Golden West Companies Regarding
 Intercarrier Billings
 Docket CT 05-001
 GPGN File No. 5925.050089

Dear Ms. Bonrud:

At the hearing this morning, it was requested that I obtain a response from my client to a specific question. The question was generally whether the minutes of use would be impacted by changes of rates applied to InterMTA calls or a change in an InterMTA factor.

My client has provided the following answer: "The issue of which rate to apply to InterMTA (i.e., intrastate or interstate or a blended access) will not change the number of minutes used for a recip compensation. The only thing that will change the number of minutes is a change in the InterMTA factor from the default 3%."

I hope this provides some clarity on this issue. If the Commission still has questions, please let me know. If I misstated the question in obtaining the response, please let me know.

Sincerely,

Talbot J. Wiczorek
