Dear Margo Northrup,

I reviewed your letter once again after I finally received attachment A. Once again Golden West is saying Section 2, 3 and 10 they want an easement. The school House is the only place we are requesting service! You have an existing easement and pedesal 200-300 feet from the schoolhouse. Rather than argue with you about an easement, we have made it simple. We have installed our own line from school to pedesal. I could see in your settlement letter you put the clause in about frost being out of the ground which is in the spring or else by June 1, 2009. First off June 1, 2009 is long gone! I assume you meant 2010 if that's the case it would be another 6-9 months before you would do anything. We are not requesting fibre optic, what the neighbors have is just fine and that's not fibre optic. I know Golden West could hook up phone service from the pedesal to our line in a very short amount of time and very little equipment. I've seen Golden West do this before.
