Subject: Re: FW: EL04-037, Black Hills Ski Lift matter

Dave -

Let's go ahead and withdraw the filing for docket EL04-037. I spoke with Terry Peak yesterday - they are having some water quality issues with their pond that they need to get resolved - so it will be a year from now at the earliest that we would want to refile.

Do you need a letter from me officially withdrawing the contract with deviations request? Of will this email suffice?
