

Attachment 1 – Diagram - Xcel Energy 345KV line construction modification needed at structure 35 in order to alleviate strain on WAPA structure W1.

Attachment 2 – Photo 1 – Structure 35 - looking west from I90
– Note the Interstate ditch jogs north just in front of the billboard.

Attachment 3 – Photo 2 – Structure 35 - looking north from I90
– Note the north-south WAPA line is visible in the background
