Re: MidAmerican Energy Company's Revised Energy Efficiency Plan  
Docket No. EL-07-015

Dear Ms. Van Gerpen:

On April 16, 2007, MidAmerican Energy Company (MidAmerican) filed its proposed South Dakota Energy Efficiency Plan (Plan). After several discussions with Commission Staff, MidAmerican is filing a revised Plan for the Commission's consideration.

MidAmerican submits its revised Plan for the South Dakota Public Utilities Commission (SDPUC) consideration and approval. MidAmerican proposes to begin offering energy efficiency programs to its electric and natural gas customers in South Dakota. MidAmerican's revised Plan eliminated some energy efficiency programs; which lowered MidAmerican's program expenditures by approximately one million dollars. MidAmerican eliminated the following programs:

- Compact fluorescent light bulbs (commonly known as CFLs) in both residential and nonresidential programs;
- Residential New Homes (construction) program;
- Commercial New Construction program; and
- Nonresidential Load Management program.

Additionally, MidAmerican revised its plan and evaluated its revised Plan programs using all cost effectiveness tests endorsed by the National Action Plan for Energy Efficiency and the National Association of Regulatory Utility Commissioners. Finally, MidAmerican revised Plan eliminates lost revenues and adds a performance incentive.

Ms. Patricia Van Gerpen  
South Dakota Public Utilities Commission  
Docket No. EL-07-015

MidAmerican company personnel are available to meet with the Commission and Commission Staff regarding specific details of the filing, and any other ideas the Commission may have to foster energy efficiency measures for MidAmerican's South Dakota customers.

MidAmerican is also enclosing revised tariffs reflecting the proposed energy efficiency cost recovery riders. If there are any questions, please feel free to contact me at 563-333-8006.

Sincerely,

/s/ Jennifer S. Moore
