Public Utilities Commission
Pierre, SD

Commissioners,

Subject: Service Rights Exception

Otter Tail Power Company agrees to provide electric as requested by Mr. Joel Adler to a pump site located in Section 12, Twp. 120, Range 48 of Alban Township in Grant County, South Dakota.

The service rights exception requested would apply only to the new pump site and would last in perpetuity.

Sincerely,

Kevin Kouba
Area Manager
Otter Tail Power Company

RE: Joel Adler - Service Rights Exception

Dear Kevin,

I'm writing in regard to a request from Joel Adler for a service rights exception in Section 12 Twp. 120 Range 48, which is east of Milbank in Grant County.

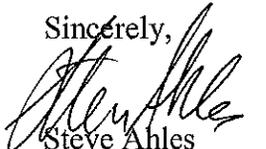

Otter Tail serves his irrigation service at this location. He intends to add a pump about 200 ft from this service. The location for the new pump is in Whetstone's service area.

It would be much more convenient and cost effective for Mr. Adler, for Otter Tail to extend service to this pump.

Whetstone is willing to grant this exception if it works for Otter Tail to serve the load.

Please contact me if you have any questions.

Sincerely,

Steve Ahles
General Manager

To; South Dakota State Utilities Com.

I am installing a new irrigation well on my farm, Alban Township section 12, north east 1/4, in grant County. The irrigation pivot is now being serviced by ottertail power, and has been since it was installed in 1977. The power comes from the south, from land now owned by Mike Johnson, which my Dad sold to him a few years ago. I talked to Whetstone Valley Electric power . They said they have no problem with me staying with ottertail power.I am writing you to get your approval as well, I am sending you a map of the farm , showing where the power is coming and going. If you have any questions you can reach me at 605 467 1002, or work 605 432 5411.

A handwritten signature in cursive script that reads "Joel Adler".

Joel Adler
