RE: Hearing scheduled for April 15, 2009 in Brookings, SD

We will be present for the above noted hearing and will be prepared to discuss some issues and concerns. Please refer to our memorandum of March 6, 2009 (listed on the content page of the P.U.C.'s internet posting of the docket) which details some of our concerns and offers a proposal/request to re-site some turbines proposed to be located near the South border of our property.

We expect to address the following points:

- Our proposal for some turbines to be re-sited
- Setback distances
- Noise level restrictions
- Over-saturation in the region
- Other points that might arise resulting from discussion of the above points

Thank you.
