January 12, 2009

Ms. Patricia Van Gerpen, Executive Director South Dakota Public Utilities Commission State Capitol Building 500 East Capitol Avenue Pierre, SD 57501-5070

SUBJECT: In the Matter of Small Power Production and Cogeneration Rates for Otter Tail Corporation, d/b/a Otter Tail Power Company

Dear Ms. Van Gerpen:

Otter Tail Corporation d/b/a Otter Tail Power Company ("Otter Tail") submits this filing for approval of updates to Otter Tail's Rate Schedules P-09S, P-10S, and P-11S, Small Power Producer purchased power rates. These rate schedules set forth the rates under which Otter Tail is obligated to purchase energy and capacity from qualifying facilities.

In this filing, Otter Tail is proposing to update the customer charges, energy, and capacity payments, and Terms and Conditions language. This is the first update to the Small Power Producer rate schedules since Otter Tail's December 14, 1984 filing, because until recently we had no customers on these rates.

The date of this filing is January 12, 2009. The proposed effective date, with South Dakota Public Utilities Commission ("Commission") approval, for these rates is for billings on or after March 1, 2009. Please note that going forward we plan to file updates to the Small Power Producer rate schedules on an annual basis.

Pursuant to South Dakota Codified Laws Section 49-34A-10 and Administrative Rules of South Dakota ("ARSD") Part 20:10:01:02:05, this filing has been electronically submitted to the Commission.

Ms. Patricia Van Gerpen Page 2 January 12, 2009

STATE OF SOUTH DAKOTA BEFORE THE SOUTH DAKOTA PUBLIC UTILITIES COMMISSION

	Docket No.
In the Matter of Otter Tail Corporation d/b/a Otter Tail Power Company 's Rates for Small Power Production and Cogeneration	

PETITION OF OTTER TAIL CORPORATION D/B/A OTTER TAIL POWER COMPANY

I. INTRODUCTION

Otter Tail Corporation, d/b/a Otter Tail Power Company, ("Otter Tail"), hereby applies to the South Dakota Public Utilities Commission ("Commission") for approval of proposed changes to its Small Power Production rate schedules with Rate Designations P-09S, P-10S, and P-11S. These rate schedules set forth the rates under which Otter Tail is obligated to purchase energy and capacity from qualifying facilities (QFs) pursuant to Commission Cogeneration and Small Power Production Order, Docket No. F-3365.

II. GENERAL FILING INFORMATION

A. Name, address, and telephone number of the utility making the filing

Otter Tail Power Company 215 South Cascade Street P.O. Box 496 Fergus Falls, MN 56538-0496 Phone (218) 739-8200

B. Name, address, and telephone number of the attorney for Otter Tail

Bruce Gerhardson Associate General Counsel Otter Tail Corporation 215 South Cascade Street P.O. Box 496 Fergus Falls, MN 56538-0496 Phone (218) 998-7108 Fax (218) 998-3165

C. Title of utility employee responsible for filing

David G. Prazak Supervisor, Pricing, Regulatory Services Otter Tail Power Company 215 South Cascade Street P.O. Box 496 Fergus Falls, MN 56538-0496 (218) 739-8595

D. The date of filing and the date changes will take effect

The date of this filing is January 12, 2009. Otter Tail proposes that the updated rates for small power production and cogeneration, contained herein, go into effect for bills on or after March 1, 2009.

E. Statute controlling schedule for processing the filing

ARSD Part 20:10:13:15 requires a 30-day notice to the Commission of a proposed change in a utility's tariff schedule, after which time the proposed changes take effect unless suspended. Because no determination of Otter Tail's general revenue requirement is necessary, the report called for under Part 20:10:13:26 and the general notice provisions pertaining to changes in rates are not applicable in this filing. Otter Tail requests an expedited and informal proceeding, including any variances that may be necessary.

Pursuant to ARSD 20:10:13:18, Otter Tail will post a Notice of proposed changes

contained in Attachment 1. This Notice will be placed in a conspicuous place in each business office in Otter Tail's affected electric service territory in South Dakota for at least 30 days before the change becomes effective. Otter Tail has also included Attachment 2 to comply with ARSD 20:10:13:26, which requires the Utility to report all rate schedule changes and customer impacts.

III. BACKGROUND

Otter Tail last updated the Small Power Producer rate designations, P-09S, P-10S, and P-11S, on December 14, 1984, per Docket No. F-3365. Since that time Otter Tail has had customers with interest, but no customers have taken service on the Small Power Producer rate schedules. As of November 2008, one customer in South Dakota began taking service on the Occasional Delivery Energy Service rate designation P-09S. The net impact to the customer regarding the proposed rate changes appear to be minimal based on the results contained in Attachment 2.

IV. PROPOSED CHANGES

In this petition, Otter Tail is proposing to update the customer charges, the energy and capacity payments, introduce Renewable Energy Credits (REC's), and update the Terms and Conditions language in each of the Small Power Producer rate schedules. The proposed cost and payment changes are based on Otter Tail's most recent Marginal Cost Study.

A. Customer Charges

The customer charges have been updated to reflect meter costs and customer related costs. Attachment 3 has been provided to support these customer charges. The changes are as follows: Rate Designation P-09S was raised from \$1.40 to \$3.70 per a month, Rate Designation P-10S was raised from \$3.25 to \$8.94 per a month, and Rate Designation P-11S was raised from

\$8.87 to \$8.94 per a month. The proposed customer charges are consistent with Otter Tail's Small Power Producer rate schedules filed recently in Minnesota and North Dakota.

B. Payment Schedules – energy and capacity

Otter Tail is proposing to modify the payment schedule under the three Rate

Designations P-09S, P-10S, and P-11S. The proposed payments contained in the rate schedules reflect Otter Tail's avoided costs. The avoided costs are consistent with Otter Tail's Small

Power Producer rate schedules as filed recently in Minnesota and North Dakota. Attachments 4 and 5 outline these energy and capacity avoided costs, respectively.

C. Renewable Energy Credits

Renewable Energy Credits (REC's) are being introduced for the first time in the Small Power Producer rates. REC's represent, according to the Midwest Renewable Tracking System website, "the environmental attributes associated with 1 MWh of renewable energy." In addition to the energy payments described above, in section B. Payment Schedules, Otter Tail adds in the REC value to the energy payment. In exchange for the REC payment to the customer, on a per kWh basis, the customer will transfer to Otter Tail ownership of the REC associated with the energy received from the customer's renewable generator. Otter Tail intends to update the value of the REC annually at the same time the avoided cost updates are filed. Additional language regarding the REC has been added in each of the rate schedules discussed in this petition.

D. Other changes

Otter Tail has proposed language changes to the Term and Conditions of the Small Power Producer Rate Schedules to reflect changes since our last filing. For example, language changes

¹ Midwest Renewable Energy Tracking System (M-RETS in their Introduction to Certificate-based Renewable Energy Trading http://www.m-rets.com/resources/MRETS_Overview_for_Webinar.final.pdf

were made to improve clarity and consistency among our Small Power Production rate schedules.

E. Rate Schedules Attachments

The proposed rate schedule changes are provided in Attachment 6 ("Red-line" versions) and Attachment 7 ("Clean" versions).

V. CONCLUSION

Based on the foregoing reasons, Otter Tail respectfully requests that the proposed modifications to the rate schedules with Rate Designations P-09S, P-10S, and P-11S become effective as of March 1, 2009.

Date: January 12, 2009

Respectfully submitted:

OTTER TAIL CORPORATION, d/b/a Otter Tail Power Company

2 Section & Volume No.	Class of Service	New Sheet No.
Section 3 Volume 1	Occasional Delivery Energy Service, Rate Designation P-09S	70.8
Section 3 Volume 1	Time of Delivery Energy Service, Rate Designation P-10S	70.9
Section 3 Volume 1	Dependable Service, Rate Designation P-11S	71

3 Description of Change: Otter Tail updated the Customer Charge, and Energy and Capacity payment rates. We also

added language concerning the Renewable Energy Credits and made other updates to our

Terms and Conditions to make the language clearer for the customer and Utility.

4 Reason for Change: Otter Tail had not updated the Small Power Producer and Cogeneration rates since 1984.

The rates now reflect updated Customer and avoided Energy and Capacity costs.

5 **Present Rates** Please see Rate Schedules

6 Proposed Rates Please see Rate Schedules

7 Effective Date of Rate: March 1, 2009

8 Approximation of annual amount of increase or decrease in revenue.

Otter Tail currently has one customer on the Occasional Delivery Energy Service, Rate Designation P-09S. This customer took service on the rate in November of 2008 and has received one full month of billing. Below is a summary of this customers generation, charges, and payments. Based on the one month of generation the customer will see an increase in payments based on the proposed Customer and Energy charges.

Present Rates		Rate	\$ Amount
# of Bills	1	-\$1.40	-\$1.40
kWhs generated	164	\$0.01670	\$2.74
Total payment to Customer		\$1.34	

Proposed Rates		Rate	\$ Amount
# of Bills	1	-\$3.70	-\$3.70
kWhs generated	164	\$0.03335	\$5.47
Total pay	ment to	Customer -	\$1.77

9 **Points affected:** Otter Tail currently has 1 Small Power Producer customer.

10 Number of customers whose cost of service will be affected and annual amounts of either increase or decrease.

Please see above #8.

11 Statement of facts, expert opinions, documents and exhibits to support the proposed changes.

Otter Tail has included Attachments in this filing to support all rate changes and costs.

SMALL POWER PRODUCER RIDER OCCASIONAL DELIVERY ENERGY SERVICE

Rates Zone 1 & 9 Code 902

AVAILABILITY: Available to any qualifying facility not exceeding 100 kW of generating capacity.

METERING CHARGE: \$1.403.70 per month

<u>R</u>

PAYMENT SCHEDULE:

Effective - May 1, 1984 1.6703.335¢ per kWh

R

SPECIAL CONDITIONS OF SERVICE:

The minimum contracted term of service is 12 months.

REGULATIONS: General Rules and Regulations govern service under this schedule.

TERMS AND CONDITIONS:

The use of this rate requires that special precautions be taken in the design of associated metering and control systems. The following terms and conditions describe these precautions and shall be followed on all customer-owned small qualifying facilities (SQF).

1. The customer will be compensated monthly for all energy received from the SQF less the metering Customer Ceharge. The schedule for these payments is subject to annual review.

If the SQF is located at a site outside of the Company's service territory and energy is delivered to the Company through facilities owned by another utility, energy payments will be adjusted downward reflecting losses occurring between the point of metering and the point of delivery.

- 3. <u>If required, aA</u> separate meter will be furnished, owned and maintained by the Company to measure the energy to the Company. <u>Separate monthly charges may apply for any additional metering installed by the Company at the Customer's request.</u>
- 4. The SQF shall make provisions for the installation of Company owned on-site metering. All energy received from and delivered to the Company shall be separately metered. On site use of the SQF output shall be unmetered for purposes of compensation unless the SQF desires to sell all its generated output to, and purchase all of its energy from, the Company.

5. In the event the SQF desires wheeling by the Company of the SQF output, arrangements will be made subject to special consideration.

SMALL POWER PRODUCER RIDER (Continued)

TERMS AND CONDITIONS: (Continued)

- 6. The customer shall pay for any increased capacity of the distribution equipment serving him and made necessary by the installation of his generator.
- 7. Power and energy purchased by the SQF from the Company shall be under the available retail rates for the purchase of electricity.
- 8. The generator output must be compatible with the Utility system. The customer's 60 hertz generator output must be at the voltage and phase relationship of the existing service or of one mutually agreeable to the Company and the customer.
- 9. The customer will provide equipment to maintain a 100% power factor (+ or 10%) during periods of generator operation.
- 10. The Company reserves the right to disconnect the customer's generator from its system if it interferes with the operation of the Company's equipment or with the equipment of other company customers.
- 11. The Customer is required to follow the Company's interconnection process which requires that Pprior to installation, a detailed diagram of the generator and related equipment must be furnished to the Company for its approval.
- 12. The customer shall execute an electric service agreement with the Company which may include, among other provisions, a minimum term of service.
- 13. The SQF shall indemnify and save harmless the Company from and against any and all claims for damages to property and injury or death to persons which may arise out of or be caused by the erection, maintenance, presence, operation or removal of the SQF or by any related act or omission of the SQF, its employees, agents, contractors or subcontractors. The SQF will keep in force, liability insurance against personal or property damage due to the installation, interconnection and operation of its electric generating facilities. The minimum amount of insurance coverage will be \$300,000.

SMALL POWER PRODUCER RIDER (Continued)

SPECIAL CONDITIONS OF SERVICE: (Continued)

The remaining percentage of the contract term will be multiplied by the average capacity compensation per month and the result multiplied by six months. The average capacity compensation per month will be determined for the last three years or from the contract's initiation, whichever is the shorter period.

In addition, capacity compensation from the initiation of the contract will be recalculated at the capacity payment of the longest contract term filled. The following table illustrates the longest contract term filled given the number of months that payments were made:

Months of Payments	Contract Term Filled
0 - 119	60
120 - 179	120
180 - 239	180
240 - 299	240
300 - 359	300
360 - 420	360

The difference between the actual payments made and the recalculated payments must be repaid with interest. The interest rate used will be the average prime interest rate during the contract period prior to the severance.

43. Qualifying facility may select a total of 30 scheduled maintenance days per year, to be taken in two periods, neither of which shall be less than one week in duration at a time agreeable to Otter Tail. A 30-day prior notice must be given to Otter Tail before a scheduled maintenance period can be established.

Capacity payment for a monthly period in which scheduled maintenance has occurred will be the greater of the capacity payment using the regular billing procedure or the average billing capacity payment since the previous month in which a scheduled maintenance period occurred.

REGULATIONS: General Rules and Regulations govern service under this schedule.

DEFINITIONS:

Dependable Service: Qualifying facility can deliver power at a minimum of 2065% on-peak capacity factor in each month; can deliver power during the Company's winter and summer system peaks; and is accredited

SMALL POWER PRODUCER RIDER (Continued)

DEFINITIONS: (Continued)

Capacity Factor: The number of kilowatthours delivered during the month divided by the product of the accredited capacity times the number of hours in the month. The maximum capacity factor is 1.0.

Summer On-Peak: May 1 through October 31 June through September including those hours from 86:00 a.m. to 10:00 p.m., Monday through Saturday Friday, excluding holidays.

Summer Off-Peak: All other hours.

Winter On-Peak: November 1 through April 30 October through May including those hours from 67:00 a.m. to 10:00 p.m., Monday through Saturday Friday, excluding holidays.

Winter Off-Peak: All other hours.

Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

TERMS AND CONDITIONS:

The use of this rate requires that special precautions be taken in the design of associated metering and control systems. The following terms and conditions describe these precautions and shall be followed on all customer-owned small qualifying facilities (SQF).

- 1. The customer will be compensated monthly for all energy received from the SQF less the metering Customer eCharge. The schedule for these payments is subject to annual review.
- 2. If the SQF is located at a site outside of the Company's service territory and energy is delivered to the Company through facilities owned by another utility, energy payments will be adjusted downward reflecting losses occurring between the point of metering and the point of delivery.

SMALL POWER PRODUCER RIDER (Continued)

SPECIAL CONDITIONS OF SERVICE:

- 1. A qualifying facility, desiring dependable service compensation shall execute a contract agreement for a term of 5, 10, 15, 20, 25, 30 or 35 years.
- 2. In the event that a qualifying facility terminates service, the Dependable Service severance penalty payment will be determined as follows:

The remaining percentage of the contract term will be multiplied by the average capacity compensation per month and the result multiplied by six months. The average capacity compensation per month will be determined for the last three years or from the contract's initiation, whichever is the shorter period.

In addition, capacity compensation from the initiation of the contract will be recalculated at the capacity payment of the longest contract term filled. The following table illustrates the longest contract term filled given the number of months that payments were made:

Months of Payments	Contract Term Filled
0 - 119	60
120 - 179	120
180 - 239	180
240 - 299	240
300 - 359	300
360 - 420	360

The difference between the actual payments made and the recalculated payments must be repaid with interest. The interest rate used will be the average prime interest rate during the contract period prior to the severance.

3. Qualifying facility may select a total of 30 scheduled maintenance days per year, to be taken in two periods, neither of which shall be less than one week in duration at a time agreeable to Otter Tail. A 30-day prior notice must be given to Otter Tail before a scheduled maintenance period can be established.

Capacity payment for a monthly period in which scheduled maintenance has occurred will be the greater of the capacity payment using the regular billing procedure or the average billing capacity payment since the previous month in which a scheduled maintenance period occurred.
