Notice

Notice: Otter Tail Power Company has been required to install Air Quality Control System equipment at its Big Stone Plant. This equipment will reduce emissions of sulfur dioxide and nitrogen oxide based on a Best Available Retrofit Technology determination adopted by the South Dakota Department of Environmental and Natural Resources. The South Dakota Public Utilities Commission has approved an Environmental Cost Recovery Rider (ECRR) to recover these costs. Beginning on October 1, 2012, the ECRR will be reflected on your electric service statement as a separate line item. The rate for all classes of services is 0.176¢ per kWh. For more information contact Customer Service at 800-257-4044 or place an inquiry from our web site at www.otpc.com.
