

CapX2020 UPDATE

JUNE 2012

CapX2020 hosting public open houses on new transmission line project

CapX2020 utility partners, Otter Tail Power Company and Xcel Energy, have scheduled public open houses on the new Big Stone South-Brookings County 345 kV transmission line project to take comments and answer questions from landowners and interested stakeholders. The open house will include maps that display the route study area in South Dakota. Please stop by anytime to learn about the project and to provide comments. No formal presentation is scheduled.

If you can't attend, you can submit comments by visiting www.CapX2020.com, calling 1-800-238-7968 or emailing bssinfo@capx2020.com.

Tuesday, June 12 | 1-3 p.m. and 6-8 p.m.

Clear Lake Community Center
Senior room
125 Third Avenue
Clear Lake, SD 57226

Wednesday, June 13 | 1-3 p.m. and 6-8 p.m.

McKnight Community Center
300 West Main Street
White, SD 57276

About the project

The Big Stone South-Brookings County project is a 70-mile, 345 kV transmission line proposed between a new Big Stone South Substation near Big Stone City, S.D., to the Brookings County Substation near Brookings, S.D.

The South Dakota Public Utilities Commission issued a Facility Permit in January 2007 for approximately 40 miles of the planned line from just west of Big Stone City to just north of Gary. CapX2020 plans to file a Facility Permit in early 2013 for the remaining 30 miles from just north of Gary to the existing Brookings County Substation.

The Big Stone South-Brookings County project is one of 16 multi-value projects (MVP), as approved by the Midwest Independent Transmission System Operator (MISO) in December 2011. The MVPs will help expand and enhance the region's transmission system, reduce congestion, provide access to affordable energy sources, as well as meet public policy requirements, including renewable energy mandates.
