SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

Gary Hanson, P.E.
500 E Capitol Ave.
Pierre, S.D. 57501

Mr. Hanson -

We are Day County, S.D. landowners and we have received notice that we should give written permission for B&E to pass through and construct a transmission line involving 50+ acres of our land.

We oppose the construction of this transmission line on our properties for several reasons. This would be acquisition of private property and it would cause an impact on the improved property plus the adjoining properties and all the farming practices. The economic losses caused by the intrusion by the B&E proposed line route would be unacceptable to us.

After attending your 10/17/2013 Open House meeting, we have concluded that not only is this construction project being misrepresented, but it appears their true intentions are not being disclosed. (Example - why is the proposed transmission line not taking a more direct route to its destination instead of going approximately 40 miles farther than is needed?) B&E gave several reasons why they want our property, but we weren't presented reasons why we should surrender our land.

We will not voluntarily give up our land nor will we burden future generations with this project.

Thank you for the opportunity to
express our concerns to you and your
department.

Sincerely,

Parkhill Farms, LLC

Reuben D. Parks

Orlean R. Parks

Our private property involved in the
BSE proposed transmission lines is
as follows - York Twp in Day County
Section 1

Butler Twp in Day County
Sections 32, 33, & 35

If you would like to discuss our
concerns, we welcome your communication.

Executive Director of P&C
500 E Capitol Ave
Pierre, South Dakota 57501
