MR. Hanson,

I hope that the PUC does not under any circumstances give Black Hills Power any monies regarding this snow storm. That is the cost of doing business. I can't believe the audacity of Black Hills Power evening suggesting a payback. This would be as bad as if I asked my employer, could you give me a temporary increase in my pay, so I could replace my furnace and A/C unit in my house. Really ? Please do not allow this to happen. This, again is not fair to we the taxpayers. They already are getting monies to build a new Power Plant on the back of taxpayers are they not ?

Respectfully,
Lee Dennison
