Subject: BHP Storm Cost

Ms. Gregg,

I am hoping your board will not let Black Hills Power charge us for the storm damage to their power lines. No one gives me or other consumers money for damage. I can not go to my employer and expect them to give me a raise in my

pay for a new heating and A/C system if mine fails to the point of replacement. They would think I am nuts. Please don't make us pay. When I was in business, I paid, because that is the cost of doing business.

Deb, again please don't give them the OK to recover this cost of repair, let the do what the rest of the American worker has to do. BITE THE BULLET.

Respectfully,

Lee Dennison
