Print Name / Title

This permit authorizes the Permit Holder to utilize Hidden Valley Road from its intersection with Sturgis Road to the western property line of the Project Location as a Truck Route, for the purposes of maintaining a contractor's storage yard on the Project Location. RCMC 10.32.050. Permit Holder recognizes that Hidden Valley Road was not built or maintained for use as a Truck Route, and that City in issuing this permit is not guaranteeing that the condition of Hidden Valley Road is adequate for the use that Permit Holder intends.

Please be aware that portions of the Hidden Valley Road pavement may be too narrow to accommodate two trucks passing side-by-side. Permit Holder agrees to ensure that its agents are aware of the state of Hidden Valley Road and yield as appropriate to passing vehicles and trucks.

Permit Holder must notify City of damage to the road or City utilities within the right of way caused by its activity under this Permit, normal wear and tear excepted. Permit Holder agrees that the City may seek reimbursement from it for damage caused to the road or utilities that are exclusively caused by the activity conducted by Permit Holder under this Permit.

This Permit expires one year after its issuance. Permits can be renewed for one year to extend the completion date. Permits shall be renewed prior to the expiration date.
