RE: New Service Request

Dear Wayne:

This letter is to inform you that Central Electric is willing to provide single phase 120/240 volt power to your new grain bin service as per your request. We were notified by Northwestern Energy of their willingness to release to Central Electric your new service request that is in the southwest quarter of section seven in township one hundred north, sixty west, located in Hutchinson County. This new single phase electric service will be limited to a maximum of 70KW. The new service would also be subject to our single phase line extension policy, code requirements, and the agreement between Central Electric and Northwestern Energy. Please contact me if you have any questions regarding this information and how you would like to proceed with your project.

Best Regards,

A handwritten signature in cursive script that reads "Brian Bultje".

Brian Bultje
Operations Manager
