

South Dakota customer information

Reconnection policy

When Otter Tail Power Company has disconnected a customer’s service for a valid cause and the condition is corrected, the Company may charge the customer a reconnection fee based on the cost of restoring service.

When service has been disconnected for nonpayment, the following conditions apply:

- The customer must make a payment toward the electric service bill, including late-payment charges.
- The customer must pay a reconnection charge of \$15, plus overtime charges for the amount of time required, or a minimum of two hours, whichever is greater, if the company made the reconnection outside of regular working hours.
- The customer may be required to pay a deposit or an increase to an existing deposit.

When service has been disconnected because of a hazardous condition, Otter Tail Power Company does not charge for reconnection.

Otter Tail Power Company is regulated by the South Dakota Public Utilities Commission. Customers with an unresolved dispute may request appeal and mediation from the South Dakota PUC, Capitol Bldg, Pierre, SD 57501, 605-773-3201.

White Rock		

Customer service

Telephone customer service is available 24 hours a day, and limited services and rate schedules are available online at **www.otpc.com**.

Please notify your local Otter Tail Power Company office **two business days** before you require routine service. You can call your local Otter Tail Power Company office listed in your telephone directory or call **800-257-4044**. You also can request service by visiting our web site at **www.otpc.com**.

Emergency service

Immediately report outages or emergencies, such as those caused by storms or accidents. Otter Tail Power Company representatives will attend to service interruptions day or night and on weekends and holidays. We will restore service without charge if the outage is a result of Otter Tail Power Company's equipment failure.

Before calling to report an outage or regarding an appliance that is not working always **check your fuses or breakers** to be sure that the problem isn’t with your own equipment.

To report outages or emergencies, call Otter Tail Power Company at 800-257-4044.

Service connection

Otter Tail Power Company is obligated to supply service to new customers. If it appears that the expenditure for extending service may not be justified, however, the company may require the customer to sign a contract guaranteeing a minimum payment of no less than three year’s use of electric service. The company also may require the customer to make an advance payment, as determined by the company, to guarantee this minimum amount of revenue.

To cover the costs associated with establishing a new account, we include a \$15 service connection fee on your first electric service statement.

Ending service

Customers needing to transfer or end service with Otter Tail Power Company can contact Customer Service for assistance or use the self-service forms available on our web site.

Deposits

When a deposit is required the amount shall not exceed one-sixth of an estimated annual bill amount as authorized by the South Dakota Public Utilities Commission. Otter Tail Power Company pays annual interest on all deposits at a rate of 7 percent. Interest begins accruing the day the company receives the deposit and ends either the day of disconnection or when Otter Tail Power Company refunds the deposit. Interest earned is applied as a credit on a customer's December bill. After 12 months of prompt payments, Otter Tail Power Company will refund the deposit plus any accrued interest.

Otter Tail Power Company may accept, in lieu of a deposit, a contract signed by a guarantor which is satisfactory to the utility whereby payment of a specified sum not exceeding the deposit requirement is guaranteed. The contract shall automatically terminate after the customer establishes satisfactory credit. The term of the guarantee agreement shall be for no longer than twelve (12) months, and shall automatically terminate after the Customer has closed and paid the Customer’s account with the Company. Otter Tail Power Company will notify the guarantor when disconnect notices have been sent to the customer.

In lieu of accepting a cash deposit or guarantee agreement, a customer may be placed on an early payment list as defined by South Dakota Administrative Rules 20:10:19:05. Customers placed on an early payment list are required to pay their bill within five (5) business days prior to the due date on the bill. A customer on the early payments list will be subject to disconnection if the bill is not paid at least five (5) business days prior to the due date on the bill.

Your electric meter

Electric meters are finely tuned precision instruments used to measure electricity use. Otter Tail Power Company has a meter-testing program that exceeds governmental standards to help ensure continuous accurate measurement of electrical use. Otter Tail Power Company periodically tests all of its meters.

In addition to the computer-directed testing program, any customer may request a special meter test. The following rules govern special meter tests:

- If a customer makes a request within one year of a previous request, a charge will be added to the Customer's bill if the metering equipment tests, accurate. (Meter error is plus or minus less than two percent.)
- The customer may be present or have a representative present when the meter test is conducted.
- Otter Tail Power Company will give its report to the customer within one week. The report will specify the test results as well as relevant metering information.

Meter reading and estimates

Otter Tail Power Company reads meters every month unless the South Dakota Public Utilities Commission authorizes another meter-reading interval upon our company’s petition. When your meter is not read, Otter Tail Power Company automatically reviews your consumption history and estimates your meter reading. Estimated readings are indicated on your statement. Customers in remote locations who are required to read their own meters may submit meter reading forms on our web site at www.otpc.com or by mailing back a completed meter-reading card, which we provide on a yearly basis to all self-read customers.

Payments/payment options

Otter Tail Power Company sends itemized electric service statements each month.

The company offers several payment options including paying in person, by mail, Ready Check, ePay, one-time check payment, credit card (some limits and fees apply), or at a drop-box or remittance location. Our web site contains a list of drop-box addresses and remittance locations as well as information about current payment programs.

Ready Check is an automatic debit payment program under which Otter Tail Power Company sends your electric service statement amount due to your bank, which automatically remits funds on your behalf to Otter Tail Power Company from your checking or savings account. With Ready Check you don't have to write out a check to us each month or pay the postage to mail your payment.

ePay is an online bill presentment and payment program that allows you to set up automatic or self-scheduled payments from your checking or savings accounts. Email notices are sent when your electric service statement is available to view online at www.otpc.com. With ePay you make payments electronically. You need a recent electric service statement and your bank account information to register your electric service account at www.otpc.com.

The **Even Monthly Payment (EMP)** plan features an averaged monthly payment amount and works well with the Ready Check and ePay programs because your payment would be the same amount each month. With EMP, twelve months of billing are averaged so that your budget is less affected by seasonal fluctuations in consumption. Each monthly electric service statement contains the complete billing detail as well as your EMP amount. An annual settle-up month ensures that you pay only for the kilowatt-hours you actually use in a year. Otter Tail Power Company routinely reviews EMP accounts to ensure that the EMP amount billed is consistent with the average consumption. The company pays interest monthly on your average daily credit balance.

Late-payment charges

Electric service statements not paid by the next billing date may be subject to a late payment charge. A customer who has made at least 12 consecutive payments prior to the delinquency date shall not be billed a late-payment charge. A late-payment charge will apply on any account with an unpaid balance greater than \$5 if the customer has been delinquent more than once during the last 12 consecutive months. The delinquent amount for accounts on EMP or payment schedules will be the lesser of the outstanding account balance (less allowance for EMP credits) or the outstanding scheduled payments.

The maximum late-payment charge shall be 1.5 percent per month (18 percent a year), plus a \$2 collection charge. A customer's electric service statement will provide a notice of possible late-payment charges after the customer has been delinquent once. A late-payment charge will be assessed during the next billing period.

The company shall credit all payments against the customer's oldest outstanding account balance before applying any late-payment charge.

Any payments returned unpaid by a bank to Otter Tail Power Company will be subject to a \$15 return-payment fee.

Disconnection for nonpayment

Disconnection of service may become necessary for nonpayment. Otter Tail Power Company makes an effort to contact the customer to avoid disconnection. In the case of a customer's first disconnection, Otter Tail Power Company will provide personal notice by either telephone, visit, or certificate of mailing.

Before disconnection, the company sends a notice by first-class mail to the account mailing address. The notice explains the reason for disconnection, gives the date that disconnection will take place, explains the procedure to avoid the disconnection, and indicates that a reconnection fee and deposit may apply.

Residential customers will receive an additional 30 days notice of proposed disconnection during the period of November 1 through March 31.

Other disconnections

Services may be disconnected for reasons other than nonpayment of electric service statements. Some examples of disconnections WITH NOTICE include:

- Failure of the customer to meet the company's deposit and credit requirements.
- Failure to make proper application for service.
- Violation of the company's rules, which are on file with the South Dakota Public Utilities Commission.
- Failure to provide Otter Tail Power Company with reasonable access to equipment and property.
- Breach of contract for service between Otter Tail Power Company and the customer.

Some examples of Disconnection WITHOUT NOTICE include:

- Unauthorized use of or tampering with Otter Tail Power Company's equipment.
- Conditions determined to be hazardous to the customer, to other customers, to Otter Tail Power Company's equipment, or to the public.

HOW TO READ YOUR STATEMENT

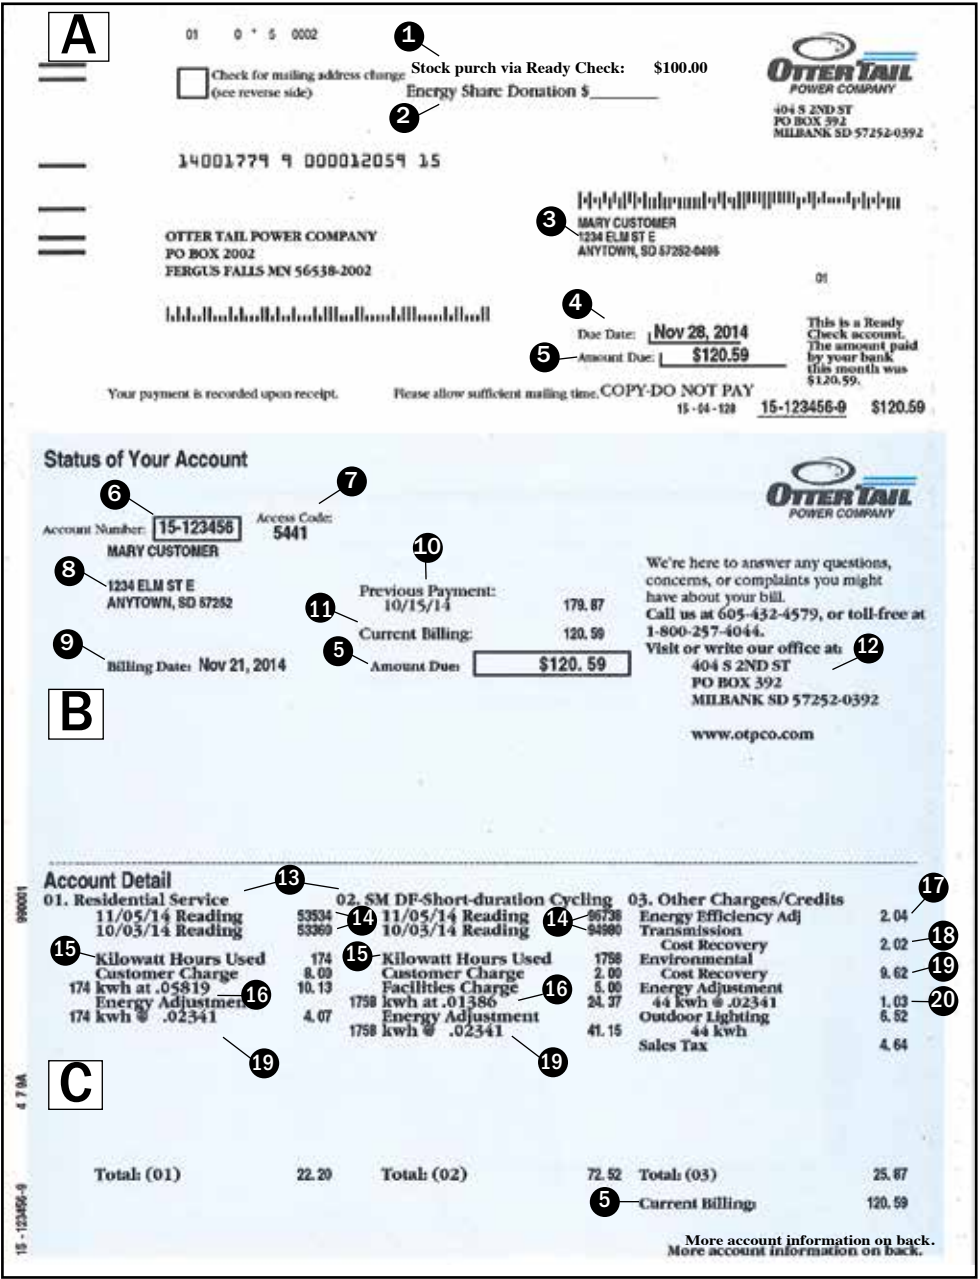

- A. Return portion:** Whether paying by mail or in person, return this stub with your payment. It includes:
1. Optional enrollment to buy Otter Tail Corporation stock through Ready Check. Your statement will reflect the amount you select during enrollment.
 2. Optional donation to help provide energy assistance to those in need in South Dakota.
 3. Your name and mailing address.
 4. The date your payment is due.
 5. The amount due for this period.
- B. Account status:** This portion of your statement brings you up-to-date on your account. It includes:
6. Your account number.
 7. The access code to register for online services.
 8. The address where you receive electrical services.
 9. The billing date.
 10. Previous payment on your account.

11. Other charges or notices about your bill.
 12. The address and phone number of the Customer Service Center serving your account.
- C. Account detail:** This portion of your statement tells how you used electricity during the billing period. It includes:
13. The type of service for which you are being billed.
 14. Your meter readings and the dates they were taken.
 15. Total kilowatt-hours used for each type of service.
 16. Details of charges, including the rates used to calculate your billing.
 17. The Energy Efficiency Program surcharge.
 18. The transmission cost recovery rider.
 19. The environmental cost recovery rider.
 20. The fuel, reagents, emission allowances, and purchased-power adjustment.

Important information on the back too!

Look on the back of your statement for a graph depicting your electricity use during the last twenty five months, space to report an address change, information explaining how you may pay by credit card, and other special messages.

Easy to read and helpful

RATE:

CONTROLLED SERVICE - DEFERRED LOAD			
Customer Charge per Month:	\$3.00		
Monthly Minimum Bill:	Customer + Facilities Charges		
Facilities Charge per Month:	\$4.00		
	Summer	Winter	
Energy Charge per kWh:	1.852 ¢/kWh	2.156 ¢/kWh	
Penalty kWh	15.939 ¢/kWh	16.927 ¢/kWh	
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.			

PENALTY PERIODS: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, penalty usage will be recorded on the penalty register, and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled for up to a total of 14 hours during the 24-hour period, as measured from midnight to midnight. Under normal circumstances, the Company will schedule recovery time following control periods that approach 14 continuous hours. Short-duration cycling is 15 minutes off / 15 minutes on of appropriate cooling equipment during the Summer Season (June 1-September 30). Domestic water heating may be controlled up to 14 hours in the 24-hour period, as measured from midnight to midnight.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

**FIXED TIME OF SERVICE RIDER
(Commonly identified as FIXED TOS)**

DESCRIPTION	RATE CODES
Fixed Time of Service – Self-Contained Metering	71 - 301
Penalty	71 - 884
Fixed Time of Service – CT Metering	71 - 302
Penalty	71 - 885
Fixed Time of Service – Primary CT Metering	71 - 303
Penalty	71 - 886

AVAILABILITY: This rider is available to Customers with permanently connected thermal storage space heating technologies that are designed and installed with the capability to be operated under the limitations and terms of this rider.

Electric fans, pumps, and other ancillary equipment used in the distribution of heat shall be wired through the Customer's firm service Meter. The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturers Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the fan load on low temperature grain drying.

Penalty:	4.641 ¢/kWh	3.813 ¢/kWh	
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.			

PENALTY PERIODS: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, penalty usage will be recorded on the penalty register, and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: The Customer will receive electric service from 10:00 p.m. until 6:00 a.m. each day. During all other hours, the Customer's load will be controlled.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

WATER HEATING CONTROL RIDER

DESCRIPTION	RATE CODES
Separately Metered Water Heating Control Service	71 - 191
Water Heating Credit Control Service	71 - 192

AVAILABILITY: This rider is available for Customers with electric water heaters requesting controlled service.

RATE:

SEPARATELY METERED WATER HEATING - CONTROL SERVICE - 191			
Customer Charge per Month:	\$2.50		
Monthly Minimum Bill:	Customer Charge		
Energy Charge per kWh:	Summer	Winter	
	2.776 ¢/kWh	3.143 ¢/kWh	

WATER HEATING CREDIT CONTROL SERVICE - 192	
Monthly Credit: \$4.00	

TERMS AND CONDITIONS FOR RATE 191: Service under this rate shall be supplied through a separate Meter.

TERMS AND CONDITIONS FOR WATER HEATING CREDIT CONTROL SERVICE - RATE 192: The Customer will be compensated by receiving the water heating credit. The credit will be applied on the Customer's Account, except the credit shall not reduce the monthly billing to less than the Monthly Minimum Bill.

CONTROL CRITERIA: Service may be controlled for up to a total of 14 hours during the 24-hour period, as measured from midnight to midnight. Under normal circumstances the Company will schedule recovery time following control periods that approach 14 hours.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and/or control equipment.

**AIR CONDITIONING CONTROL RIDER
(Commonly identified as CoolSavings)**

DESCRIPTION	RATE CODE
Air Conditioning Control Rider	71-760

AVAILABILITY: This rider is available to Residential Customers only with central cooling equipment.

COMPENSATION: The Customer will be compensated for taking service on this rider by receiving a \$7.00 per month bill credit during the billing months June through September. The credit will be applied on the Customer's Account.

TERMS AND CONDITIONS:

1. Summer Season hours of interruptions per year shall not exceed 300, except during periods of Company system emergencies. Central cooling equipment will be cycled approximately 15 minutes on / 15 minutes off.
2. The Company will install, own, and maintain the load management devices controlling the Customer's central cooling equipment.
3. The Customer is required to remain on the rider for 12 consecutive months unless given special approval by the Company. If the Customer leaves the program, they may not participate for another 12 months and may not receive any form of compensation as determined by the Company.
4. The Company has the right to test the function of the load management devices at any time.
5. The Customer must agree to allow the Company to control all central cooling equipment at the location of service.

**VOLUNTARY RENEWABLE ENERGY RIDER
(Commonly identified as TailWinds Program)**

DESCRIPTION	RATE CODE
Voluntary Renewable Energy Rider	71 - 720

AVAILABILITY: This rider is available to all Customers on a voluntary basis for those averaging 100 Kilowatt-Hours (kWh) or more of usage per month. The renewable energy service provided under this schedule is subject to the availability of renewable energy designated to it, as determined by the Company, and is made available on a first-come, first-serve basis.

RATE: The charge for the renewable energy under this schedule is \$3.84 per 100 kWh contracted block. This charge per 100 kWh is in addition to the applicable rate schedule currently serving the Customer. All charges under existing Tariffs remain in effect.

This Renewable Energy Rider is not subject to the Fuel Adjustment Clause Rider, Section 13.01.

TERMS AND CONDITIONS:

1. Service under this schedule shall be for a period not less than 12 consecutive months, automatically renewed monthly. After the first full year of service, Customers may cancel service under this schedule by providing oral or written notice to the Company of their intent to no longer take service no less than 30 days prior to the Customers' normal monthly billing date.
2. The schedule is unavailable to Customers where the Customer: 1) has received one or more disconnect notices within the last 12 months or 2) has been disconnected within the last 12 months.
3. Where the renewable energy under the schedule is unavailable to the Company for more than 30 consecutive days, the Company will provide an appropriate credit on the Customer's next monthly statement.

Visit www.otpc.com for all available rates.

South Dakota electric rate schedules

Residential service

This brochure briefly summarizes rate schedules applicable to your type of electric service that have been the basis for billing since June 1, 2011. The schedules indicated in this brochure do not include sales tax, adjustments, or riders.

More specific detail on rates and regulations concerning your electric service is available from your local Otter Tail Power Company office at 1-800-257-4044 or on our web site at www.otpc.com.

Otter Tail Power Company will assist you in determining billing for specific load conditions under various rate schedules.

Energy adjustment rider

A variable charge is added to the bill each month to adjust for current fuel and purchased-power costs and the costs of reagents and emission allowances. This charge is in addition to the rates included in this brochure, is itemized separately on the service statement, and does not include any markup.

Customer connection charge

A \$15 customer connection charge is applied to any new customer, name changes (new named individual) at existing points of service, and reconnection following temporary disconnection at the customer's request. If disconnected for nonpayment, a reconnection charge consisting of the customer connection charge plus overtime charges for the amount of time required, or a minimum of two hours, whichever is greater for reconnection outside of regular business hours will be required. Regular business hours are Monday through Friday, 8 a.m. to 5 p.m. excluding limited holidays. A cash deposit also may be required.

Late payment charge

Accounts paid late are subject to a late payment charge of 1.5 percent of the unpaid balance, plus a \$2 collection fee.

Non-sufficient check charge

A \$15 charge will apply if any bank payment is returned.

Rates listed in this brochure are subject of the following conditions:

RULES AND REGULATIONS: Terms and conditions of this electric rate schedule and the General Rules and Regulations govern use of this service.

MANDATORY AND VOLUNTARY RIDERS: The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply and by any Voluntary Rate Riders selected by the Customer.

DEFINITIONS OF SEASONS: Summer: June 1 through September 30.
Winter: October 1 through May 31.

RESIDENTIAL SERVICE	
DESCRIPTION	RATE CODE
Residential Service	71 - 101

APPLICATION OF SCHEDULE: This schedule is applicable to Residential Service as defined in the General Rules and Regulations.

RATES:		
RESIDENTIAL SERVICE		
Customer Charge per Month:	\$8.00	
Monthly Minimum Bill:	Customer Charge	
Energy Charge per kWh:	Summer	Winter
First 500	5.599 ¢/kWh	5.819 ¢/kWh
Excess	4.987 ¢/kWh	5.260 ¢/kWh

- SEASONAL RESIDENTIAL SERVICE:**
- These rates and regulations shall apply to Seasonal Residential Service without voluntary rate riders.
 - Seasonal Residential Customers will be billed at the same rate as Residential Customers, except as follows:
A one-time seasonal fixed charge of \$32.00 will be billed for each Meter in addition to the rate provided above. The fixed charge will be included on the first bill rendered for each season.
Each Seasonal Residential Customer will be billed for the number of months each season that the residence is in use, but not less than a minimum of four months, plus the seasonal fixed charge. At the option of the Company, Meters may be read during off-season and a bill will be rendered if Energy recorded on the Meter exceeds 200 Kilowatt-Hours. If the first bill of the season exceeds an average usage of 200 Kilowatt-Hours per month during the off-season months, the Customer, may no longer be eligible for Seasonal Residential Service.
Bills may be rendered on a two-month basis at the Company's discretion when the Energy used exceeds 200 Kilowatt-Hours and more than 55 days have elapsed since the previous Meter reading.
Seasonal Residential Customers also will be subject to a connection charge of \$40.00 when the Account is established. This is a one-time fee for the first customer to receive service at a new service location.

RESIDENTIAL DEMAND CONTROL (Commonly Identified as RDC)	
DESCRIPTION	RATE CODE
Residential Demand Control	71 - 241

APPLICATION OF SCHEDULE: This schedule is applicable to Residential Customers with a UL-approved Demand-control system.

RATES:		
RESIDENTIAL DEMAND CONTROL SERVICE		
Customer Charge per Month:	\$13.00	
Monthly Minimum Bill:	Customer + Demand Charge	
	Summer	Winter
Energy Charge per kWh:	2.022 ¢/kWh	2.399 ¢/kWh
Demand Charge per kW:	\$7.05 /kW	\$5.93 /kW

BILLING DEMAND DETERMINATION: The Demand will be determined based on the peak one-hour Demand reading recorded during the Winter controlled

period for the most recent 12 months. An estimated Demand of three kW will be used for Customers new to this rate until Demand is established.

DEMAND SIGNAL: Service may receive a Demand signal for up to a total of 14 hours during any 24-hour period, as measured from midnight to midnight. Water heaters served on this Tariff will also be included in the Company's Summer water heater load control program.

CONTROLLED SERVICE - INTERRUPTIBLE LOAD CT METERING RIDER Commonly identified as Large Dual Fuel		
DESCRIPTION	Option 1	Option 2
CT Metering without ancillary load	71-170	N/A
CT Metering without ancillary load (with short-duration cycling)	71-165	N/A
Penalty	71-881	N/A
CT Metering with ancillary load		
Uncontrolled period	N/A	71-168
Controlled period	N/A	71-268
CT Metering with ancillary load (with short duration cycling)		
Uncontrolled period	N/A	71-169
Controlled period	N/A	71-269

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating, and/or other permanently connected approved loads other than the exceptions noted below in Option 2, will be interrupted during control periods.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

Option 1: Electric fans, pumps and other ancillary equipment used in the Distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

Option 2: The Company retains the authority to allow a portion of the load used to deliver conditioned air and/or water during the control period to remain on during control periods in situations where 1) it is functionally or financially unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards.

During the control period the amount of ancillary load shall not exceed 5% of the metered maximum Demand measured during any period within the most recent 12 months. (For example, although a minimal amount of fan and/or pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the non-conditioned fan load on low-temperature grain drying.)

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

RATE:		
OPTION 1		
Customer Charge per Month:	\$5.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Annual Maximum kW Month:	\$0.12	
	Summer	Winter
Energy Charge per kWh	0.629 ¢/kWh	0.895 ¢/kWh
Penalty kWh	15.516 ¢/kWh	15.839 ¢/kWh
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.		

OPTION 2		
Customer Charge per Month:	\$6.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month per annual maximum kW:	\$0.12	
	Summer	Winter
Energy Charge per kWh:	0.856 ¢/kWh	1.142 ¢/kWh
Control Period Demand Charge per kW:	\$7.29 /kW	\$4.635 /kW

PENALTY PERIODS – OPTION 1 ONLY: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, Penalty usage will be recorded on the penalty register and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled up to a total of 24 hours during the 24-hour period, as measured from midnight to midnight. Short-duration cycling is approximately 15 minutes off / 15 minutes on of appropriate cooling equipment during the Summer Season (June 1-September 30). Domestic water heating may be controlled up to 14 hours in the 24-hour period.

DETERMINATION OF FACILITIES CHARGE: The monthly measured Demand will be based on the maximum 15 consecutive minute period measured by a suitable Demand Meter for the month for which the bill is rendered. The Facilities Charge Demand shall be based on the greatest of the current and preceding 11 monthly measured Demands.

DETERMINATION OF CONTROL PERIOD DEMAND – OPTION 2 ONLY: The Billing Demand measured during the control period for which the bill is rendered shall be the maximum metered kW for any period of 15 consecutive minutes during the control period.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

CONTROLLED SERVICE - INTERRUPTIBLE LOAD SELF-CONTAINED METERING RIDER (Commonly identified as Small Dual Fuel)	
DESCRIPTION	RATE CODES
Controlled Service	71 - 190
Controlled Service (Short-Duration Cycling)	71 - 185
Penalty	71 - 882

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating other than the exceptions noted below, and/or other permanently connected approved loads can be interrupted during control periods. Electric fans, pumps, and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger fan or pump loads such as those on low temperature grain drying.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating

Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

RATE:		
CONTROLLED SERVICE - INTERRUPTIBLE LOAD – SELF-CONTAINED		
Customer Charge per Month:	\$2.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month:	\$5.00	
	Summer	Winter
Energy Charge per kWh:	1.050 ¢/kWh	1.386 ¢/kWh
Penalty Charge per kWh	16.403 ¢/kWh	17.697 ¢/kWh
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.		

PENALTY PERIODS: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, penalty usage will be recorded on the penalty register, and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled up to a total of 24 hours during the 24-hour period, as measured from midnight to midnight. Short-duration cycling is approximately 15 minutes off / 15 minutes on of appropriate cooling equipment during the Summer Season (June 1-September 30). Domestic water heating may be controlled up to 14 hours in the 24-hour period.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

CONTROLLED SERVICE DEFERRED LOAD RIDER (Commonly identified as Thermal Storage)	
DESCRIPTION	RATE CODES
Deferred Loads	71 - 197
Deferred Loads (Short-Duration Cycling)	71 - 195
Penalty	71 - 883

AVAILABILITY: This rider is available for Customers with approved permanently connected deferred loads that can be served under the limited conditions provided; such loads are primarily electric water heating and thermal storage.

Deferred loads may include heat pumps, domestic electric water heating, and other permanently connected loads that can be interrupted.

Electric fans, pumps, and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired through the Customer's firm service Meter.

The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the fan load on low temperature grain drying.

During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.		

PENALTY PERIODS: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, penalty usage will be recorded on the Penalty register and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: The Customer will receive electric service from 10:00 p.m. until 6:00 a.m. each day. During all other hours, the Customer's load will be controlled.

EQUIPMENT SUPPLIED: Otter Tail Power Company will supply and maintain the necessary standard metering and control equipment.

WATER HEATING CONTROL RIDER		
DESCRIPTION	RATE CODES	
Separately Metered Water Heating Control Service	71 - 191	
Water Heating Credit Control Service	71 - 192	

AVAILABILITY: This rider is available for Customers with electric water heaters requesting controlled service.

RATE:

SEPERATELY METERED WATER HEATING - CONTROL SERVICE 191		
Customer Charge per Month:	\$2.50	
Monthly Minimum Bill:	Customer Charge	
Energy Charge per kWh:	Summer	Winter
	2.776 ¢/kWh	3.143 ¢/kWh

WATER HEATING CREDIT CONTROL SERVICE - 192		
Monthly Credit: \$4.00		

TERMS AND CONDITIONS FOR RATE 191: Service under this rate shall be supplied through a separate Meter.

TERMS AND CONDITIONS FOR WATER HEATING CREDIT CONTROL SERVICE - RATE 192: The Customer will be compensated by receiving the water heating credit. The credit will be applied on the Customer's Account, except the credit shall not reduce the monthly billing to less than the Monthly Minimum Bill.

CONTROL CRITERIA: Service may be controlled for up to a total of 14 hours during the 24-hour period, as measured from midnight to midnight. Under normal circumstances the Company will schedule recovery time following control periods that approach 14 hours.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and/or control equipment.

RENEWABLE ENERGY RIDER (Commonly identified as TailWinds Program)	
DESCRIPTION	RATE CODE
Voluntary Renewable Energy Rider	71 - 720

AVAILABILITY: This rider is available to all Customers on a voluntary basis for those averaging 100 Kilowatt-Hours (kWh) or more of usage per month. The renewable energy service provided under this schedule is subject to the availability of renewable energy designated to it, as determined by the Company, and is made available on a first-come, first-serve basis.

RATE: The charge for the renewable energy under this schedule is \$3.84 per 100 kWh contracted block. This charge per 100 kWh is in addition to the applicable rate schedule currently serving the Customer. All charges under existing Tariffs remain in effect.

This Renewable Energy Rider is not subject to the Fuel Adjustment Clause Rider, Section 13.01.

TERMS AND CONDITIONS:

- Service under this schedule shall be for a period not less than 12 consecutive months, automatically renewed monthly. After the first full year of service, Customers may cancel service under this schedule by providing oral or written notice to the Company of their intent to no longer take service no less than 30 days prior to the Customers' normal monthly billing date.
- The schedule is unavailable to Customers where the Customer: 1) has received one or more disconnect notices within the last 12 months or 2) has been disconnected within the last 12 months.
- Where the renewable energy under the schedule is unavailable to the Company for more than 30 consecutive days, the Company will provide an appropriate credit on the Customer's next monthly statement.

IRRIGATION SERVICE		
DESCRIPTIONDESCRIPTION	RATE CODE	
Option 1: Non-Time-of-Use	71 - 703	
Option 2: Declared-Peak	71 - 704	
Option 2: Intermediate	71 - 705	
Option 2: Off Peak	71 - 706	

APPLICATION OF SCHEDULE: This Irrigation Service is applicable to Customers for pumping water for irrigation of land, during the irrigation season - April 15 through November 1.

RATE:

OPTION 1		
Customer Charge per Month:	\$2.00	
Monthly Minimum Bill:	Customer + Fixed Charges	
Fixed Charge per Month:	Customer Specific-see Tariff	
Energy Charge per kWh:	Summer	Winter
	3.797 ¢/kWh	1.644 ¢/kWh

OPTION 2		
Customer Charge per Month:	\$6.00	
Monthly Minimum Bill:	Customer + Fixed Charges	
Fixed Charge per Month:	Customer Specific-see Tariff	
Energy Charge per kWh:	Summer	Winter
Declared-Peak	17.453 ¢/kWh	19.521 ¢/kWh
Intermediate	4.603 ¢/kWh	3.566 ¢/kWh
Off-Peak	0.100 ¢/kWh	0.100 ¢/kWh

FIXED CHARGE: Customers served under this rate shall pay an annual fixed charge equal to 18% of the investment of the Company in the extension of lines, including any rebuilding or cost of Capacity increase in lines or

apparatus, necessitated because of the irrigation pumping load. Alternatively, Customers may prepay the installation and cost of the equipment and shall pay an annual fixed charge equal to 3.5% of the investment of the Company, in lieu of the 18% annual fixed charge. In either option, equipment remains the property of Otter Tail Power Company. This charge shall be reviewed if additional Customers are connected to the extension within five years. The annual fixed charge will be billed in seven equal monthly installments May through November of each year.

DEFINITION OF DECLARED, INTERMEDIATE AND OFF-PEAK PERIODS BY SEASON:

WINTER SEASON – April 15 through May 31, and October 1 through November 1.

Declared-Peak: For all kW and kWh used during the hours declared.

Intermediate: For all kW and kWh used during the hours other than declared-peak and off-peak.

Off-Peak: For all kWh used Monday through Saturday from10:00 p.m. to 6:00 a.m., and all day Sunday.

SUMMER SEASON – June 1 through September 30

Declared-Peak: For all kW and kWh used during the hours declared.

Intermediate: For all kW and kWh used during the hours other than declared-peak and off-peak.

Off-Peak: For all kWh used Monday through Saturday from 10:00 p.m. to 6:00 a.m., and all day Sunday.

CONTRACT PERIOD: The minimum Contract Period shall be five years. The Company shall enter into a written agreement with each Customer served at this rate and the Customer shall agree to pay for service at this rate for a period of five years because of the investment of the Customer in pumping and irrigation equipment, and of the Company in the extension of lines.

If, during the terms of such agreement, the Company shall establish a superseding rate for this service, the Customer shall be billed at the superseding rate for the balance of the term of the contract and shall comply with all terms and conditions of the superseding rate. Unless there is additional investment by the Company, there shall be no change in the amount of the fixed charge during the term of such agreement regardless of the provisions of any superseding rate.

An agreement will be entered into with each Customer, specifying the investment necessary to supply service and the fixed charge.

South Dakota

electric rate schedules

Farm service

This brochure briefly summarizes rate schedules applicable to your type of electric service that have been the basis for billing since June 1, 2011.

The schedules indicated in this brochure do not include sales tax, adjustments, or riders.

More specific detail on rates and regulations concerning your electric service is available from your local Otter Tail Power Company office at 1-800-257-4044 or on our web site at www.otpc.com.

Otter Tail Power Company will assist you in determining billing for specific load conditions under various rate schedules.

Energy adjustment rider

A variable charge is added to the bill each month to adjust for current fuel and purchased-power costs and the costs of reagents and emission allowances. This charge is in addition to the rates included in this brochure, is itemized separately on the service statement, and does not include any markup.

Customer connection charge

A \$15 customer connection charge is applied to any new customer, name changes (new named individual) at existing points of service, and reconnection following temporary disconnection at the customer's request. If disconnected for nonpayment, a reconnection charge consisting of the customer connection charge plus overtime charges for the amount of time required, or a minimum of two hours, whichever is greater for reconnection outside of regular business hours will be required. Regular business hours are Monday through Friday, 8 a.m. to 5 p.m. excluding limited holidays. A cash deposit also may be required.

Late payment charge

Accounts paid late are subject to a late payment charge of 1.5 percent of the unpaid balance, plus a \$2 collection fee.

Non-sufficient check charge

A \$15 charge will apply if any bank payment is returned.

Visit www.otpc.com for all available rates.

Rates listed in this brochure are subject of the following conditions:

RULES AND REGULATIONS: Terms and conditions of this electric rate schedule and the General Rules and Regulations govern use of this service.

MANDATORY AND VOLUNTARY RIDERS: The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply and by any Voluntary Rate Riders selected by the Customer.

DEFINITIONS OF SEASONS: Summer: June 1 through September 30.
Winter: October 1 through May 31.

FARM SERVICE	
DESCRIPTION	RATE CODE
Farm Service	71 - 361

APPLICATION OF SCHEDULE: This schedule is applicable to general Farm and home use. The Customer may elect to have the following service offerings in the Farm home (for Residential uses); Residential Service (Section 9.01) or Residential Demand Control Service Schedule (Section 9.02) if all of the requirements specified for the schedules are satisfied.

FARM SERVICE		
Customer Charge per Month:	\$9.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month:		
Three phase:	\$5.00	
Energy Charge per kWh:	Summer	Winter
First 1600	4.918 ¢/kWh	5.119 ¢/kWh
Excess	4.630 ¢/kWh	4.856 ¢/kWh

**CONTROLLED SERVICE - INTERRUPTIBLE LOAD
CT METERING RIDER
(Commonly identified as Large Dual Fuel)**

DESCRIPTION	Option 1	Option 2
CT Metering without ancillary load	71-170	N/A
CT Metering without ancillary load (with short-duration cycling)	71-165	N/A
Penalty	71-881	N/A
CT Metering with ancillary load		
Uncontrolled period	N/A	71-168
Controlled period	N/A	71-268
CT Metering with ancillary load (with short duration cycling)		
Uncontrolled period	N/A	71-169
Controlled period	N/A	71-269

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating, and/or other permanently connected approved loads other than the exceptions noted below in Option 2, will be interrupted during control periods. When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

Option 1: Electric fans, pumps and other ancillary equipment used in the Distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

Option 2: The Company retains the authority to allow a portion of the load used to deliver conditioned air and/or water during the control period to remain on during control periods in situations where 1) it is functionally or financially unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards.

During the control period the amount of ancillary load shall not exceed 5% of the metered maximum Demand measured during any period within the most recent 12 months. (For example, although a minimal amount of fan

and/or pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the non-conditioned fan load on low-temperature grain drying.)

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

OPTION 1		
Customer Charge per Month:	\$5.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Annual Maximum kW Month:	\$0.12	
	Summer	Winter
Energy Charge per kWh	0.629 ¢/kWh	0.895 ¢/kWh
Penalty kWh	15.516 ¢/kWh	15.839 ¢/kWh
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.		

OPTION 2		
Customer Charge per Month:	\$6.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month per Annual Maximum kW:	\$0.12	
	Summer	Winter
Energy Charge per kWh:	0.856 ¢/kWh	1.142 ¢/kWh
Control Period Demand Charge per kW:	\$7.29 /kW	\$4.63 /kW

PENALTY PERIODS - OPTION 1 ONLY: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, Penalty usage will be recorded on the penalty register and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled up to a total of 24 hours during the 24-hour period, as measured from midnight to midnight. Short-duration cycling is approximately 15-minutes off/15-minutes on of appropriate cooling equipment during the Summer Season (June 1-September 30). Domestic water heating may be controlled up to 14 hours in the 24-hour period.

DETERMINATION OF FACILITIES CHARGE: The monthly measured Demand will be based on the maximum 15 consecutive minute period measured by a suitable Demand Meter for the month for which the bill is rendered. The Facilities Charge Demand shall be based on the greatest of the current and preceding 11 monthly measured Demands.

DETERMINATION OF CONTROL PERIOD DEMAND - OPTION 2 ONLY: The Billing Demand measured during the control period for which the bill is rendered shall be the maximum metered kW for any period of 15 consecutive minutes during the control period.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

**CONTROLLED SERVICE - INTERRUPTIBLE LOAD
SELF-CONTAINED METERING RIDER
(Commonly identified as Small Dual Fuel)**

DESCRIPTION	RATE CODES
Controlled Service	71 - 190
Controlled Service (Short-Duration Cycling)	71 - 185
Penalty	71 - 882

AVAILABILITY: This rider is available for Customer with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating other then the exceptions noted

below, and/or other permanently connected approved loads that can be interrupted during control periods. Electric fans, pumps and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger fan or pump loads such as those on low temperature grain drying.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

Penalty:	4.641 ¢/kWh3.813 ¢/kWh
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.	

PENALTY PERIODS: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, penalty usage will be recorded on the penalty register, and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: The Customer will receive electric service from 10:00 p.m. until 6:00 a.m. each day. During all other hours, the Customer's load will be controlled.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

WATER HEATING CONTROL RIDER	
DESCRIPTION	RATE CODES
Separately Metered Water Heating Control Service	71 - 191
Water Heating Credit Control Service	71 - 192

AVAILABILITY: This rider is available for Customers with electric water heaters requesting controlled service.

RATE:

WATER HEATING - CONTROLLED SERVICE 191	
Customer Charge per Month:	\$2.50
Monthly Minimum Bill:	Customer Charge
Energy Charge per kWh:	SummerWinter
	2.776 ¢/kWh3.143 ¢/kWh
WATER HEATING CREDIT CONTROL SERVICE - 192	
Monthly Credit: \$4.00	

TERMS AND CONDITIONS FOR RATE 191: Service under this rate shall be supplied through a separate Meter.

TERMS AND CONDITIONS FOR WATER HEATING CREDIT CONTROL SERVICE - RATE 192: The Customer will be compensated by receiving the water heating credit. The credit will be applied on the Customer's Account, except the credit shall not reduce the monthly billing to less than the Monthly Minimum Bill.

CONTROL CRITERIA: Service may be controlled for up to a total of 14 hours during the 24-hour period, as measured from midnight to midnight. Under normal circumstances the Company will schedule recovery time following control periods that approach 14 hours.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and/or control equipment.

VOLUNTARY RENEWABLE ENERGY RIDER (Commonly identified as TailWinds Program)	
DESCRIPTION	RATE CODE
Voluntary Renewable Energy Rider	71 - 720

AVAILABILITY: This rider is available to all Customers on a voluntary basis for those averaging 100 Kilowatt-Hours (kWh) or more of usage per month. The renewable energy service provided under this schedule is subject to the availability of renewable energy designated to it, as determined by the Company, and is made available on a first-come, first-serve basis.

RATE: The charge for the renewable energy under this schedule is \$3.84 per 100 kWh contracted block. This charge per 100 kWh is in addition to the applicable rate schedule currently serving the Customer. All charges under existing Tariffs remain in effect.

This Renewable Energy Rider is not subject to the Fuel Adjustment Clause Rider, Section 13.01.

TERMS AND CONDITIONS:

- Service under this schedule shall be for a period not less than 12 consecutive months, automatically renewed monthly. After the first full year of service, Customers may cancel service under this schedule by providing oral or written notice to the Company of their intent to no longer take service no less than 30 days prior to the Customers' normal monthly billing date.
- The schedule is unavailable to Customers where the Customer: 1) has received one or more disconnect notices within the last 12 months or 2) has been disconnected within the last 12 months.
- Where the renewable energy under the schedule is unavailable to the Company for more than 30 consecutive days, the Company will provide an appropriate credit on the Customer's next monthly statement.

South Dakota electric rate schedules

General service

This brochure briefly summarizes rate schedules applicable to your type of electric service that have been the basis for billing since June 1, 2011.

The schedules indicated in this brochure do not include sales tax, adjustments, or riders.

More specific detail on rates and regulations concerning your electric service is available from your local Otter Tail Power Company office at 1-800-257-4044 or on our web site at www.otpc.com.

Otter Tail Power Company will assist you in determining billing for specific load conditions under various rate schedules.

Energy adjustment rider

A variable charge is added to the bill each month to adjust for current fuel and purchased-power costs and the costs of reagents and emission allowances. This charge is in addition to the rates included in this brochure, is itemized separately on the service statement, and does not include any markup.

Customer connection charge

A \$15 customer connection charge is applied to any new customer, name changes (new named individual) at existing points of service, and reconnection following temporary disconnection at the customer's request. If disconnected for nonpayment, a reconnection charge consisting of the customer connection charge plus overtime charges for the amount of time required, or a minimum of two hours, whichever is greater for reconnection outside of regular business hours will be required. Regular business hours are Monday through Friday, 8 a.m. to 5 p.m. excluding limited holidays. A cash deposit also may be required.

Late payment charge

Accounts paid late are subject to a late payment charge of 1.5 percent of the unpaid balance, plus a \$2 collection fee.

Non-sufficient check charge

A \$15 charge will apply if any bank payment is returned.

Rates listed in this brochure are subject of the following conditions:

- RULES AND REGULATIONS:** Terms and conditions of this electric rate schedule and the General Rules and Regulations govern use of this service.
- MANDATORY AND VOLUNTARY RIDERS:** The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply and by any Voluntary Rate Riders selected by the Customer.
- DEFINITIONS OF SEASONS:** Summer: June 1 through September 30.
Winter: October 1 through May 31.

SMALL GENERAL SERVICE Under 20 kW	
DESCRIPTION	RATE CODE
Metered Service — under 20 kW - Secondary Service	71 - 404
Metered Service — under 20 kW - Primary Service	71 - 405

APPLICATION OF SCHEDULE: This schedule is applicable to Three phase Residential Customers, and both Single- and Three-phase nonresidential Customers. This schedule is not applicable for outdoor lighting. Emergency and supplementary/standby service will be supplied only as allowed by law.

SECONDARY SERVICE		PRIMARY SERVICE	
Customer Charge per Month:	\$13.00		\$13.00
Monthly Minimum Bill:	Customer Charge		Customer Charge
Energy Charge per kWh:	Summer Winter	Summer Winter	
First 2,000	5.235 ¢/kWh 5.445 ¢/kWh	4.980 ¢/kWh 5.137 ¢/kWh	
Excess	4.476 ¢/kWh 4.685 ¢/kWh	4.224 ¢/kWh 4.381 ¢/kWh	

TERMS AND CONDITIONS: The Customer may remain on the Small General Service schedule as long as the Customer's maximum Demand does not exceed 20 kW for more than two of the most recent 12 months. If the Customer achieves an actual Demand of 20 kW or greater for a third time in the most recent 12 months, the Customer will be placed on the General Service schedule (Section 10.02) in the next billing month.

SEASONAL SMALL GENERAL SERVICE:

- These rates and regulations shall apply to Seasonal Small General Service without voluntary rate riders.
- Seasonal Small General Service Customers will be billed at the same rate as Small General Service Customers, except as follows:

A one-time seasonal fixed charge of \$52.00 will be billed for each Meter in addition to the rate provided above. The fixed charge will be included on the first bill rendered for each season.

Each Seasonal Small General Service Customer will be billed for the number of months each season that the property is in use, but not less than a minimum of four months, plus the seasonal fixed charge. At the option of the Company, Meters may be read during the off-season and a bill will be rendered if Energy recorded on the Meter exceeds 400 Kilowatt-Hours. If the first bill of the season exceeds an average usage of 400 Kilowatt-Hours per month during the off-season months, the Customer, may no longer be eligible for Seasonal Small General Service.

Bills may be rendered on a two month basis at the Company's discretion when the Energy used exceeds 400 Kilowatt-Hours and more than 55 days have elapsed since the previous Meter reading.

Seasonal Small General Service Customers also will be subject to a connection charge of \$40.00 when the Account is established. This is a one-time fee for the first Customer to receive service at a new service location.

DETERMINATION OF DEMAND: Unless otherwise established, the Billing Demand shall be the maximum Demand in kW as measured by a Demand Meter, for the highest 15-minute period during the month for which a bill is rendered.

GENERAL SERVICE 20 kW or Greater	
DESCRIPTION	RATE CODE
General Service – Secondary Service	71 - 401
General Service – Primary Service	71 - 403

APPLICATION OF SCHEDULE: This schedule is applicable to Three-phase Residential Customers, and both Single- and Three-phase nonresidential Customers with a measured Demand of at least 20 kW within the most recent 12 months. This schedule is not applicable for outdoor lighting. Emergency and supplementary/standby service will be supplied only as allowed by law.

SECONDARY SERVICE		PRIMARY SERVICE	
Customer Charge per Month:	\$12.00		\$12.00
Monthly Minimum Bill:	Customer + Demand Charges		Customer + Demand Charges
Energy Charge per kWh:	Summer Winter	Summer Winter	
	4.083 ¢/kWh 4.631 ¢/kWh	3.880 ¢/kWh 4.374 ¢/kWh	
Demand Charge per kW:	Summer Winter	Summer Winter	
	\$1.22 /kW \$1.02 /kW	\$1.17 /kW \$0.97 /kW	

TERMS AND CONDITIONS: A Customer with a Billing Demand of less than 20 kW for 12 consecutive months will be required to take service under the Small General Service schedule (Section 10.01).

METERED DEMANDS: The maximum kW as measured by a Demand Meter for any period of 15 consecutive minutes during the month for which the bill is rendered.

ADJUSTMENT FOR EXCESS REACTIVE DEMAND: For billing purposes, the Metered Demand may be increased by 1 kW for each whole 10 kVar of measured Reactive Demand in excess of 50% of the Metered Demand in kW.

DETERMINATION OF BILLING DEMAND: The Billing Demand shall be the greater of 20 kW or the Metered Demand adjusted for Excess Reactive Demand.

DETERMINATION OF FACILITIES CHARGE: The Facilities Charge Demand will be based on the greater of 1) 20 kW or 2) the largest of the most recent 12 monthly Billing Demands.

LARGE GENERAL SERVICE	
DESCRIPTION	RATE CODES
Secondary Service	71 - 603
Primary Service	71 - 602
Transmission Service	71 - 632

APPLICATION OF SCHEDULE: This schedule is applicable to nonresidential Customers. This schedule is not applicable for energy for resale, nor for municipal outdoor lighting. Emergency and supplementary/standby service will be supplied only as allowed by law.

SECONDARY SERVICE	
Customer Charge per Month:	\$50.00
Monthly Minimum Bill:	Customer + Facilities + Demand Charges
Facilities Charge per Month:	
per annual max. kW (minimum 80kW per Month)	
Less than 1000 kW:	\$0.33 /kW
Greater than or equal to 1000 kW:	\$0.24 /kW
Energy Charge per kWh:	Summer Winter
	1.696 ¢/kWh 2.046 ¢/kWh
Demand Charge per kW:	Summer Winter
(minimum of 80kW):	\$7.29 /kW \$4.63 /kW
PRIMARY SERVICE	
Customer Charge per Month:	\$50.00
Monthly Minimum Bill:	Customer + Facilities + Demand Charges
Facilities Charge per Month:	
per annual max. kW (minimum 80 kW per Month)	
All kW:	\$0.12 /kW
Energy Charge per kWh:	Summer Winter
	1.566 ¢/kWh 1.882 ¢/kWh
Demand Charge per kW:	Summer Winter
(minimum of 80 kW):	\$7.00 /kW \$4.40 /kW

TRANSMISSION SERVICE	
Customer Charge per Month:	\$50.00
Monthly Minimum Bill:	Customer + Facilities + Demand Charges
Facilities Charge per Month:	
per annual max. kW (minimum 80 kW per Month)	
All kW:	\$0.00 /kW
Energy Charge per kWh:	Summer Winter
	1.352 ¢/kWh 1.618 ¢/kWh
Demand Charge per kW:	Summer Winter
(minimum of 80 kW):	\$5.42 /kW \$3.79 /kW

METERED DEMAND: The maximum kW as measured by a Demand Meter for any period of 15 consecutive minutes during the month for which the bill is rendered.

ADJUSTMENT FOR EXCESS REACTIVE DEMAND: For billing purposes, the Metered Demand may be increased by one kW for each whole 10 kVar of measured Reactive Demand in excess of 50% of the Metered Demand in kW.

DETERMINATION OF BILLING DEMAND: The Billing Demand shall be greater of 80 kW or the Metered Demand adjusted for Excess Reactive Demand.

DETERMINATION OF FACILITIES CHARGE: The Facilities Charge Demand will be based on the greater of 1) 80 kW or 2) the largest of the most recent 12 monthly Billing Demands.

CONTROLLED SERVICE - INTERRUPTIBLE LOAD CT METERING RIDER (Commonly identified as Large Dual Fuel)		
DESCRIPTION	Option 1	Option 2
CT Metering without ancillary load	71-170	N/A
CT Metering without ancillary load (with short-duration cycling)	71-165	N/A
Penalty	71-881	N/A
CT Metering with ancillary load		
Uncontrolled period	N/A	71-168
Controlled period	N/A	71-268
CT Metering with ancillary load (with short duration cycling)		
Uncontrolled period	N/A	71-169
Controlled period	N/A	71-269

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating, and/or other permanently connected approved loads other than the exceptions noted below in Option 2, will be interrupted during control periods.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

Option 1: Electric fans, pumps and other ancillary equipment used in the Distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

Option 2: The Company retains the authority to allow a portion of the load used to deliver conditioned air and/or water during the control period to remain on during control periods in situations where 1) it is functionally or financially unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards.

During the control period the amount of ancillary load shall not exceed 5% of the metered maximum Demand measured during any period within the most recent 12 months. (For example, although a minimal amount of fan and/or pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the non-conditioned fan load on low-temperature grain drying.)

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

OPTION 1	
Customer Charge per Month:	\$5.00
Monthly Minimum Bill:	Customer + Facilities Charges
Facilities Charge per Annual Maximum kW Month:	\$0.12
	Summer Winter
Energy Charge per kWh	0.629 ¢/kWh 0.895 ¢/kWh
Penalty kWh	15.516 ¢/kWh 15.839 ¢/kWh
During the Penalty Period, kWh used will be measured and billed at the Energy Charge and Penalty listed above.	

OPTION 2		
Customer Charge per Month:		\$6.00
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month per annual maximum kW:		\$0.12
	Summer Winter	
Energy Charge per kWh:	0.856 ¢/kWh 1.142 ¢/kWh	
Control Period Demand Charge per kW:	\$7.29 /kW \$4.63 /kW	

PENALTY PERIODS – OPTION 1 ONLY: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register Meter will be at the option of the Company. When a dual register Meter is installed, Penalty usage will be recorded on the penalty register and the total register of the dual register Meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled up to a total of 24 hours during the 24-hour period, as measured from midnight to midnight. Short-duration cycling is approximately 15 minutes off / 15 minutes on of appropriate cooling equipment during the Summer Season (June 1-September 30). Domestic water heating may be controlled up to 14 hours in the 24-hour period.

DETERMINATION OF FACILITIES CHARGE: The monthly measured Demand will be based on the maximum 15 consecutive minute period measured by a suitable Demand Meter for the month for which the bill is rendered. The Facilities Charge Demand shall be based on the greatest of the current and preceding 11 monthly measured Demands.

DETERMINATION OF CONTROL PERIOD DEMAND – OPTION 2 ONLY: The Billing Demand measured during the control period for which the bill is rendered shall be the maximum metered kW for any period of 15 consecutive minutes during the control period.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

CONTROLLED SERVICE - INTERRUPTIBLE LOAD SELF-CONTAINED METERING RIDER (Commonly identified as Small Dual Fuel)	
DESCRIPTION	RATE CODES
Controlled Service	71 - 190
Controlled Service (Short-Duration Cycling)	71 - 185
Penalty	71 - 882

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating other than the exceptions noted below, and/or other permanently connected approved loads can be interrupted during control periods. Electric fans, pumps, and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired for service through the Customer's firm service Tariff.

The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger fan or pump loads such as those on low temperature grain drying. When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.
