

BLACK HILLS POWER, INC.
SD PUC DOCKET: EL15-013
APPROVAL OF TARIFF REVISIONS

REQUEST DATE : May 12, 2015

RESPONSE DATE : June 8, 2015

REQUESTING PARTY: SDPUC Staff

SDPUC Request No. 1-4:

The HOLD HARMLESS section appears to relieve the Company of any liability should it disclose Meter Data in accordance with its “Governing Documents”, which are defined in the “DEFINITIONS” section to include “Distribution Company Operational Manuals, and other relevant models and operational procedures.” Staff suggests striking the “applicable Governing Documents” in the HOLD HARMLESS section. Is the Company willing to make this edit? If not, please explain.

Response to SDPUC Request No. 1-4:

The Company proposes to include “applicable Governing Documents” in the HOLD HARMLESS section but modify the Governing Documents definition to the following:

Governing Documents: Applicable law, regulatory documents (e.g., tariffs, rules, and regulations), and Customer consent forms that determine the interactions among parties.

Per discussion with Commission Staff, the Governing Documents definition change addresses Staff’s concerns.
