

BLACK HILLS POWER, INC.
SD PUC DOCKET: EL 15-044
ENERGY EFFICIENCY PROGRAM, TARIFFS, COST RECOVERY MECHANISM

REQUEST DATE : November 25, 2015

RESPONSE DATE : December 3, 2015

REQUESTING PARTY: SDPUC Staff

SDPUC Request No. 1-10:

For the Appliance Recycling for the 2015-16 plan years, please provide the estimated total cost the dealer would incur for scheduling, transportation, and disposal for refrigerators and freezers.

Response to SDPUC Request No. 1-10:

For planning purposes, Black Hills Power has estimated that a third party implementation contractor would receive \$100 per unit recycled for delivering the Residential Refrigerator/Freezer Recycling Program. The 3rd Party contractor would utilize the dollars for scheduling appointments, transportation of recycled units, and proper disposal of refrigerators and freezers. A dealer will receive an incentive of \$25 to pick up an old refrigerator/freezer when a new one is delivered.
