

BLACK HILLS POWER, INC.
SD PUC DOCKET: EL 15-044
ENERGY EFFICIENCY PROGRAM, TARIFFS, COST RECOVERY MECHANISM

REQUEST DATE : November 25, 2015

RESPONSE DATE : December 3, 2015

REQUESTING PARTY: SDPUC Staff

SDPUC Request No. 1-11:

Please provide justification for, and how the rebate amount was determined for, the proposed \$75 rebate for the replacement of an inefficient secondary refrigerator with an energy star unit.

Response to SDPUC Request No. 1-11:

The Appliance recycling rebate is \$50. This is the industry standard across the country. Black Hills Power increased the rebate to \$75 for customers that recycle a refrigerator and purchase a new ENERGY STAR unit to encourage the purchase of efficient refrigerators.
