Xcel Energy

Docket No.: EL16-018

Response To: South Dakota Public
Utilities Commission

Data Request No. 1-18

Requestor: Darren Kearney

Date Received: September 7, 2016

Question:

Please provide a table showing all measures that have rebates available in Xcel's 2017 DSM Program and the amounts of the rebates for each measure.

Response:

The Company provides rebates by measure in Attachment A to this response. We further note that not all programs have rebate by measure data, such as:

- The Ground Source Heat Pump rebates are \$300 per ton, based on a qualified ENERGY STAR, closed loop system, with a minimum 14.1 EER and 3.3 COP rating; and
- Demand Response programs such as Peak and Energy Control and Saver's Switch are based on annual discounts per tariffed rates.
