Corey,

Attached is the Evergreen assessment of the Power Simm model. NorthWestern SD is a separate model that the MT properties. The inputs are specific to SD including assets, price forecasts, and generation forecasts, but the process is similar.

Thanks

Hi Bleau,

Just wanted to shoot you a note to let you know that we are still working with our team on a response to the information you provided us on 2/19. We hope to have something back to you by late next week. In the meantime, please feel free to give me a shout with any questions or comments.

Thanks again and have a great weekend!

Best Regards,

Corey Juhl
