Subject: Wind Towers

Sir,

My name is Joe Brenner. I live at [REDACTED] Delmont, S.D. My wife Donna and me were in attendance at the public meeting in Avon this week. I want to express our support for the project. Any and all resources that we can develop can and should be utilized to help our country become energy independent. Wind, coal, hydro, solar, natural gas, whatever we can do cleanly and with respect to the people and the environment, should be done.

Thank you,

Joe & Donna Brenner
