Subject: gag order

Post on Prevailing Winds public comments site with attachment thanks

At the Avon meeting one of the opponents used the term "gag order". She was explaining why you don't can't get people that complain or file complaints about living near wind turbines. The gag order I am attaching is from the Beethoven project contract. I do not have a copy of the PV contract, but I would hope you would check it out. What is their reason for this gag order?
