EL17-028 - Crocker Wind Farm Application

Greetings to the board of P.U.C.

I am writing this in support of the Crocker Wind Farm and this project continue and move forward. Crocker Wind Farm has done many hours and man power researching the area that they would like to construct wind turbines. They continue to update the landowners on the projects status. They want to be farmer/rancher friendly and be good neighbors.

I sincerely hope as a board you can support this project if the guidelines are met by Crocker Wind Farm.

Thank you for your time and have a great day.

Sincerely,
Nara Duvvas
