Comments: My husband Jerry and I support the Crocker Wind Farm proposal. We are unable to attend the Sept 13 meeting but would like to go on the record as supporters. We have seen how much benefit the people in Story County Iowa have derived from such a project. The small towns are now thriving due to the extra income, reduced electric costs, and they've been able to support bringing in new businesses due to extra monies in the coffers. They have also been able to update school buildings and better pay for their teachers. Respectfully submitted, Jerry and Jackie Goldie
