Reference: Crocker Wind Farm LLC, EL 17-028

My name is Susan Handke and I own property in Woodland Township Clark County S.D.

I would like to publically voice my reservation and opposition to the construction of the proposed Crocker Wind Farm in the close proximity to my property. Primarily my opposition is due to conservation and wild life concerns in wetlands on my property as well as interference with migratory bird flight patterns. Secondly I oppose the construction of high wire lines in and surrounding property that I am responsible for weed control. I have contracted aerial spraying for weed control almost annually, if high wire lines are constructed in close proximity to property, air planes will not be able to get in to spray. That is a problem for me when it comes to weed control. Lastly I oppose the construction of towers that will emit sound frequency which disturbs wildlife and habitat on my property. This sound and magnetic frequency also disturbing and interfering with internet and telephone communications in that area. I believe this interference is a gross interference with the freedoms act that we all have equal opportunity to receive and send information at will.

I hope your Public Commission will deny or at the very minimum restrict greatly the number of turbines in the area and restrict and limit high line placement along the borders.

Thank You,

Susan K. Handke
