My name is Grant Hanson from Conde, S.D. 57434  
telephone [REDACTED]

I am writing to you in support of the Crocker Wind  
farm in Clark County with Genomics energy.

I own land in Clark county that is enrolled in the project.

United States uses more electricity every year and I believe this  
is a very economical way of producing renewable energy.

Not only will the project benefit the United States but will  
benefit the landowners with usable income, the county with  
tax dollars for better roads, schools and public use.

I also believe the setback distance has curtailed the  
project somewhat as the more towers in an area will make  
the project more economical to build and be able to  
produce more electricity out of the area.

Thank you for your time.

Grant V. Hanson
