

EL17-028

Dear PUC Commissioners,

We are very much in favor of the Crocker Wind Farm. It will benefit landowners, townships, the county, state, and Clark School.

I have been on Springvalley Township for 51 years. We sure could use some additional income. Our allotted income hardly gets us by. We have several roads that could use additional gravel and maintenance. Some townships have had to go out for more income. Also, our taxes just keep increasing. They are getting harder to pay each year with the low grain and cattle markets.

Sincerely,

Richard Heatter Well
