Pierre, SD 57501**

Dear Sir:

I am writing you in concern of the Crocker Wind Farm (EL-17-28). I can't understand why you as a public utilities commission would be in disagreement of an economic wind fall for Clark County and their people. As I understand the taxes generated would be a huge benefit to all of the citizens in the county.

At the time of economic downfall I would think this would be a positive instead of a negative.

I hope you reconsider this proposal at your next reconsideration hearing.

Sincerely,

Lester L and Darlene Gross
