 ADDRESS: 215 South Cascade Street

Change: New Customer Meter Data Privacy Tariff

(State part of tariff schedule affected by change, such as Applicability, availability, rates, etc.)

Reason for Change New Tariff to provide South Dakota customers information about how OTP collects, maintains and in some cases discloses customer energy usage (a.k.a. meter data) in the ordinary course of business. The proposed tariff makes clear that the energy usage data of retail customers is held in confidence by the Company subject to limited exceptions. While OTP has yet to install Advanced Metering Infrastructure on a significant basis the tariff provides a framework that balances customer privacy concerns with the Company’s need to conduct regulated utility operations. This framework has application to current metering systems as well as Advanced Metering Infrastructure.
