Xcel Energy

Docket No.: EL17-020

Response To: SD Public Utilities
Commission

Data Request No. 1-3

Requestor: Lorena Reichert

Date Received: May 12, 2017

Question:

What is Xcel's plan to verify locations of building sites with their service territory in the future?

Response:

Immediately after this was brought to Xcel Energy's attention the Design Supervisor was informed. He has since had a discussion with the Designers informing them to not assume anything is in Xcel Energy service territory. An emphasis was placed on verifying territory boundaries via the SD PUC website, agreements approved by the Commission, and review of the paper maps that are on file at Xcel Energy.
