PUC,

I am sending in for your review a service territory exception agreement between Black Hills Electric Cooperative and West River Electric Association. I have attached a map and the agreement. The agreement has not come back with WREA or the landowners signature yet but I will update as soon as it does. BHEC has a line approximately two miles south of the service request, it will cost an estimated \$50,000 to serve these two meters. WREA already has three of the neighboring properties as exceptions between BHEC and WREA. It will cost WREA approximately \$5200.00 to install power to the two meters the member is requesting, one for a shop and one for home.

If you have any questions feel free to contact me.
