

### AEG Program Design Clients

AEG has a long history of designing energy efficiency programs for over twenty electric and gas utilities across the country. Recently completed comprehensive energy efficiency program designs for electric utilities have been completed for multiple Black Hills Energy utilities (separate program designs for Black Hills Colorado, Wyoming, South Dakota, Iowa, and Cheyenne Light Fuel and Power), Empire Electric District (separate program designs for Missouri and Arkansas), Long Island Power Authority, Westar Energy, Kentucky Power Company, and Kansas City Power and Light. Recently completed comprehensive energy efficiency program designs for combined electric and natural gas utilities have been completed for Rochester Gas and Electric, New York State Gas and Electric, and Central Hudson Gas and Electric. Recently completed comprehensive energy efficiency program designs natural gas utilities have been completed for Peoples Gas, North Shore Gas, and Minnesota Energy Resources.
